RE: ZPAC Petition #02-37, 934 Vilmin Road, Little Rock Township

Dear Mr. Slas,

On October 1, 2002, you approached the Kendall County Zoning and Platting Advisory Committee to request Special Use approval(s) to establish and operate a horse boarding facility and riding stables. During this meeting, the Kendall County Department of Health and Human Services was asked to comment on said request.

The following comments are to serve as planning recommendations you may choose to follow while considering the establishment and operation of a horse boarding facility and riding stables:

1. The Department recommends that you identify and protect any existing on-site wastewater disposal and potable water supply systems serving this property. The following statements demonstrate the importance of this recommendation:

   • According to the Illinois Water Well Construction Code, a potable water supply (or private well) must not be located any closer than 50 feet from a manure pile, and 75 feet from an animal confinement lot.

   • According to the Illinois Private Sewage Licensing Act and Code, the area used for a private sewage disposal system shall be maintained free from encroachment by underground utilities, building structures, parking lots, etc., and should be protected from compaction.

2. The Department recommends that you determine whether or not the existing on-site wastewater disposal and potable water supply systems are designed to serve the future needs of a horse boarding facility and riding stables, and/or performing a site investigate to determine the feasibility of installing additional systems that meet or exceed all applicable state and local codes.

3. The Department recommends that you develop a waste management plan for the sanitary storage and disposal of horse manure, intended to prevent ground and surface water contamination, and nuisance odors.
4. The Department recommends that you contact the Illinois Department of Agriculture (IDA) to determine whether or not your operation will fall under any requirements set forth in the Livestock Management Facilities Act. The IDA can be reached at (217) 782-2172.

Should you have any questions, please feel free to call me at (630) 553-9100, ext. 164.

Sincerely,
