IN WITNESS OF, this Amendment to the Kendall County Zoning Ordinance was approved by the Kendall County Board on December 16, 2003.

Attest:

John A. Church
Kendall County Board Chairman
7.01 A-1 Agricultural District - (1/26/04 revisions per County Board Action 12/16/03)

A. PURPOSE

It is recognized that the public health and welfare of the citizens of Kendall County are greatly dependent upon the sustenance and economic benefits provided by a viable agricultural industry. This district is intended to ensure that lands within the county which are well suited for agricultural production of food and fiber are retained for such production, unimpeded by the establishment of incompatible uses which would hinder farm operations and irretrievably deplete agricultural lands.

Specific purposes for this district are:

- To establish a zoning district in which agriculture and certain related uses are encouraged as principal uses of the land.
- To preserve fertile, tillable soils as a valuable natural resource.
- To enhance and maintain the sound economic base that agricultural pursuits provide the county and region.
- To provide open areas which contribute to the stability of the environment and enhancement of air and water quality.
- To preserve woodlands and wetlands associated with farms which, because of their natural physical features, are useful as water retention and groundwater recharge areas, and as habitat for plant and animal life, but may not be conducive to the agricultural uses cited in this ordinance.
- To prevent scattered, indiscriminate urban development within areas zoned agricultural.
- To generally limit residential development of agriculturally zoned properties or those areas identified as agricultural uses in the County’s Land Resource Management Plan to not more than one dwelling unit per each 40 acres of land.

B. POLICY

To achieve the purposes of the agricultural district it shall be the policy of the county:

- To allow only those uses of land which are clearly and primarily best suited for agricultural purposes within the A-1 zoning district.
- To prevent mixtures of urban and rural land uses which create or tend to create conflicts and incompatibilities which directly or indirectly impose unbalanced tax loads on agriculture and which require urban services which, in turn, contribute to the premature termination and eventual elimination of agricultural uses.
- That allowance of farm residences under this section shall not change the general character of agricultural use.

Prior to the construction of any new residence, the property owner shall file with the Kendall County Planning, Building and Zoning Department a legal description detailing the location of the 40 acres to which the allocation is being assigned, along with a sketch identifying the location of the proposed residence. After December 29th, 2005, the owner of a zoning lot meeting the standards of 16c above shall file a petition with the Kendall County Planning, Building and Zoning Department to construct a new single family dwelling on an unregistered prior zoning lot.
