ORDINANCE 2004 - 50
STORMWATER MANAGEMENT VARIANCE
DEERE CROSSING
36.9 ACRES LOCATED ON THE WEST SIDE OF IMMANUEL ROAD SOUTH
OF AMMENT ROAD
KENDALL TOWNSHIP

WHEREAS, B & B Land Development petitioned the Planning, Building and Zoning
Committee for approval of a proposed eighteen (18) lot Residential Planned Development
and Subdivision plat; and

WHEREAS, the property is legally described in Exhibit “A”; and

WHEREAS, the Committee reviewed the request at its meeting on December 13, 2004; and

WHEREAS, the Committee, after reviewing the request recommended approval; and

WHEREAS, the County’s Consulting Engineer Strand Associates, Inc. has reviewed and
recommended approval of the final engineering for the project; and

WHEREAS, the plans submitted include stormwater basins (detention and retention) with a
normal-water-to-100-year high elevation of 7.8 feet; and

WHEREAS, Section 409.1.4 of the County’s Stormwater Management Ordinance establishes
a maximum depth of 4.0 feet from normal-water-to-100-year high elevation for stormwater
basins; and

WHEREAS, the plans submitted include direct discharge of stormwater into an existing
twelve (12) inch diameter concrete drainage tile that feeds the neighboring livestock pond to
the south of the subject parcel at the request of the receiving property owners; and

WHEREAS, Section 404.0 of the County’s Stormwater Management Ordinance prohibits
direct discharge of stormwater into drainage tile of adjacent property; and

WHEREAS, the Zoning Administrator has evaluated the standards for a stormwater variation,
and has recommended approval of the variation request; and

WHEREAS, said variation would not have a negative effect on adjacent properties; and

WHEREAS, an agreement, identified as “Exhibit B”, has been reached with the property
owner to the south to accept the discharge of stormwater.
NOW, THEREFORE, BE IT ORDAINED, the Kendall County Board hereby approves a variation to allow for the construction of the stormwater basins with a maximum normal-water-to-100-year high elevation of seven and eight-tenths (7.8) feet; and for direct discharge of stormwater into the existing drainage tile described above for the final plat of Deere Crossing as depicted on "Exhibit C" attached hereto and made a part hereof.

IN WITNESS WHEREOF, this ordinance has been enacted on November 16, 2004.

COUNTY OF KENDALL

GROUND WATER AND STORM DRAINAGE AGREEMENT

This Ground Water and Storm Drainage Agreement is made and entered into on this 13th day of August, 2004 by and between B&B DEVELOPMENT, LLC hereinafter referred to as "DEVELOPER" and GEORGE STUCK and JILL STUCK as OWNERS hereinafter referred to as "OWNERS."

WITNESSETH

WHEREAS, DEVELOPER owns a parcel of real estate within Section 17 of Kendall Township, Kendall County, Illinois which is being developed as "Deere Crossing Subdivision" and OWNERS own a parcel of real property within Sections 17 of Kendall Township, Kendall County, Illinois that adjoins and is contiguous to the real property of DEVELOPER on its Southern Boundary and in relation to the development of Deere Crossing.

WHEREAS, DEVELOPER whom is developing Deere as a high quality single family residential subdivision and as part of the development process, is required to install a ground water management storm water system within the development pursuant to the Kendall County Storm Water Run Off Ordinance and pursuant to the Illinois Drainage Code. As part of the requirement, DEVELOPER must take into account the effects of its development on surrounding property owners and field drain systems; and

WHEREAS, in preparing a comprehensive storm drainage plan, DEVELOPER has prepared topography and has analyzed the adjoining property to the South and had a detailed set of plans prepared by James Nanning, a Illinois Licensed Civil Engineer, on behalf of DEVELOPER. These plans have also been reviewed by Strand & Associates, a Licensed Illinois Civil Engineering firm on behalf of the County of Kendall. In addition, these plans have been sent to and reviewed by OWNERS, together with Final Landscape Plan and Final Plat; and

WHEREAS, each party agrees it is both in their best interest and mandatory to comply with the Kendall County Storm Water Run Off Ordinance and the Illinois Drainage Code.
agrees, at DEVELOPERS full expense, to install the (3) elliptical culverts as disclosed and approved by the County of Kendall on the final engineering plan of James Nanning. All of which will be maintained by the Homeowners Associated related and recorded documents of Deere Crossing Subdivision and is subject to all terms and conditions as required by the Planned Unit Development Agreement.

IN WITNESS WHEREOF, the undersigned parties have executed this Agreement this _____________ day of _____________, 2004.

GROUND WATER AND STORM DRAINAGE AGREEMENT

This Ground Water and Storm Drainage Agreement is made and entered into on this ______ day of __________, 2004 by and between B&B DEVELOPMENT hereinafter referred to as "DEVELOPER" and CHICAGO TITLE AND TRUST 1097465 and its Beneficiaries and Owners hereinafter referred to as "BENEFICIARY."

WITNESSETH

WHEREAS, DEVELOPER owns a parcel of real estate within Section 17 of Kendall Township, Kendall County, Illinois which is being developed as "Deere Crossing Subdivision" and BENEFICIARY owns a parcel of real property within Sections Sections 17 of Kendall Township, Kendall County, Illinois that adjoins and is contiguous to the real property of DEVELOPER on its Northern Boundary and in relation to the development of Deere Crossing.

WHEREAS, DEVELOPER whom is developing Deere as a high quality single family residential subdivision and as part of the development process, is required to install a ground water management storm water system within the development pursuant to the Kendall County Storm Water Run Off Ordinance and pursuant to the Illinois Drainage Code. As part of the requirement, DEVELOPER must take into account the effects of its development on surrounding property owners and field drain systems; and

WHEREAS, in preparing a comprehensive storm drainage plan, DEVELOPER has prepared topography and has analyzed the adjoining property to the North and had a detailed set of plans prepared by James Nanning, an Illinois Licensed Civil Engineer, on behalf of DEVELOPER. These plans have also been reviewed by Strand & Associates, a Licensed Illinois Civil Engineering firm on behalf of the County of Kendall. In addition, these plans have been sent to and reviewed by Smith Engineering, a Licensed Illinois Civil Engineering firm on behalf of the BENEFICIARY; and

WHEREAS, each party agrees it is in their best interest and mandatory for the Developer to comply with the Kendall County Storm Water Run Off Ordinance and in both their best interest and mandatory to comply with the Illinois Drainage Code. Developer proposes to install at its expense three (3), nineteen inch (19-inch) in circumference elliptical culverts to handle the storm runoff from BENEFICIARIES’ parcel so as to not cause backup of the storm or ground water onto the property of BENEFICIARY.

NOW THEREFORE, in consideration of the mutual covenants and recitals which are incorporated herein as set out above as obligations of DEVELOPER, DEVELOPER
WHEREAS, OWNERS have reviewed the Final Landscaping Engineering Plans and Final Plat of Subdivision and agree to and acknowledge that the said plans protect their said property in terms of Drainage Plans and Landscape Buffering as set out in the Exhibits which are incorporated herein, said OWNERS consent and acknowledge their approval of said plans.

IN WITNESS WHEREOF, the undersigned parries have executed this Agreement this ___
