WHEREAS, said M-1 zoning district allows for the development of the subject property for industrial uses; and

WHEREAS, the review and approval of engineering plans is a condition of Preliminary and Final Plat approval of said proposed industrial subdivision; and

WHEREAS, the County's Consulting Engineer Strand Associates, Inc. has reviewed and recommended approval of the final engineering for the project; and

WHEREAS, the plans submitted include two (2) dry turf-bottom detention basins; and

WHEREAS, Section 409.1.4 of the Kendall County Stormwater Management Ordinance states that the peak 100-year detention elevation shall not be greater that four feet (4') above the bottom of the outlet and further states that where turf grasses are proposed, the basin depth from outlet to high water level shall not exceed two feet (2'); and

WHEREAS, the developer is seeking a variance from this provision to allow the construction of two (2) detention basins utilizing turf grass bottoms having a variable depth from outlet to high water level of seven feet (7') which does not comply with the required standards as outlined in said Section 409.1.4 of the Kendall County Stormwater Management Ordinance; and

WHEREAS, Section 404.0 of the Kendall County Stormwater Management Ordinance states that stormwater storage outlets shall not discharge directly into existing storm sewers or drain tiles; and

WHEREAS, the developer is seeking a variance from this provision to allow the discharge from the two (2) proposed detention ponds to discharge directly into the existing storm sewer
system; and

WHEREAS, the Zoning Administrator has evaluated the standards for a stormwater variation, under Section 605.0.3 (a-d) and determined that:

a) Due to the particular physical surroundings, shape or topographic conditions of the specific property involved a particular hardship to the owner would result as distinguished from a mere inconvenience if the strict letter of the regulations were carried out; and

b) The conditions on which the request for variance is based are unique to the property for which the variation is sought and are not applicable, generally, to other property and have not been caused by any person having an interest in the property; and

c) The purpose of the variation is not based upon economic hardship; and

d) The granting of the variation will not be detrimental to the public, health, safety or welfare, or injurious to other property or improvements in the locale in which the property is located.

WHEREAS, the Planning Building and Zoning Committee of the Kendall County Board has concurred with the findings and recommendations of the Zoning Administrator and has recommended approval of the requested variance to the Kendall County Board.

NOW, THEREFORE, BE IT ORDAINED, the Kendall County Board hereby approves a variation to Section 409.1.4 of the Kendall County Stormwater Management Ordinance to allow the construction of two (2) detention basins utilizing turf grass for the bottoms having a variable depth from outlet to high water level of seven (7'), and a variation to Section 404.0 of the Kendall County Stormwater Management Ordinance to allow the two (2) proposed detention ponds to discharge directly into the existing storm sewer system, which do not comply with the required standards as outlined in said Section 409.1.4 and Section 404.0 of the Kendall County Stormwater Management Ordinance.

IN WITNESS OF, this ordinance has been enacted on May 15, 2007.
