MEMORANDUM

To: Kendall County Regional Planning Commission  
From: Matthew H. Asselmeier, AICP, Senior Planner  
Date: November 20, 2017  
Re: Future Land Use Along Illinois Route 47 in Lisbon Township

Attached please find Staff’s proposed findings of fact and updated proposed Future Land Use Resource Management Map for Lisbon Township.

The following land use/zoning matrix should be kept in mind:

Mining=M-3  
Mixed Use Business=B-6, M-1, M-2 and M-3  
Transportation Corridor= B-3, B-5 and B-6  
Commercial= B-1, B-2 and B-3  
Rural Settlements=Areas with a maximum 2,000 residents with a combination of residential and support services.

The list of uses allowed in each zoning district is attached.

The major changes from this version of the proposed Future Land Use Resource Management Map and the Map from the October meeting are the removal of the Mixed Use Business and Residential areas from Chicago Road and north of the Chicago Road. These proposed land uses are found in the Village of Lisbon’s Comprehensive Plan.

The Village of Lisbon called for the land adjacent to Illinois Route 47 south of Lisbon Center Road to almost the County line to be either commercial or mixed use business. The Village’s Future Land Use Map is attached.

If it is the desire of the Kendall County Regional Planning Commission to change the future land uses south of Helmar Road, Staff recommends the Commission approve a draft future land use map for the area, a timeline for approving changes and scheduling a meeting in Lisbon Township to obtain input from residents and property owners.

Staff offers the following timeline for adoption:

Month 1 Approval of Draft Map(s) and Approval of Public Input Meeting in Lisbon Township  
Month 2 Holding of Public Meeting in Lisbon Township (Draft Agenda Included)  
Month 3 Review of Comments from Public Meeting in Lisbon Township and Scheduling Public Hearing for Amendment  
Month 4 Public Hearing on Amendment and Recommendation to the County Board

Depending on amount of comments and date of public meeting in Lisbon Township this proposed timeline could be altered.

Findings of Fact for Proposed LRMP Map Changes Along Route 47 (Approximately 5.5 Miles) in Lisbon Township

1. The Illinois Department of Transportation approved Alternative B5 in 2007 which called for the widening of Route 47 from Caton Farm Road to the Grundy County Line through Lisbon Township as part of the Prairie Parkway Project.

2. The purpose of the Prairie Parkway was to:
   a. “Improve regional mobility by providing more north-south, higher speed multi-lane roads or additional lanes to serve traffic growth and reduce regional travel times for long distance travel.
   b. Address local system deficiencies by developing a transportation system that serves forecast growth in local traffic and reduces travel times.
   c. Improve access from the study area to regional jobs by serving the forecast growth in work trips and by reducing travel times from the study area current and future jobs.
   d. Improve safety by reducing existing and projected growth in motor vehicle crashes”

3. The Illinois Department of Transportation did not conduct any economic analysis of the impact of the proposed Prairie Parkway on lands located near Route 47 south of Caton Farm Road. Source: Illinois Department of Transportation

4. Changes to the alignment of the Prairie Parkway could cause the Illinois Department of Transportation to re-study the corridor, including updating the NEPA environmental reports, if federal dollars were pursued.

5. There are commercial and industrial lands in Grundy County and Minooka closer to Interstate 80 interchange
   a. Kraft facility has 1 million square feet available.
   b. 150 acres is available across from the Morris Airport
   c. Morris plans warehouses out to Brisbin Road.
   d. Morris plans retail on Route 47 north of town.
   e. Morris plans industrial uses by the airport.
   Source: Grundy County EDC

6. The City of Morris has extended water lines to Minooka Road and sanitary sewer lines to Nelson Road; no plans to extend infrastructure into Lisbon Township. The City of Morris obtains water for the area north of Interstate 80 from wells south of Interstate 80 Source: Guy Christensen, City of Morris
7. The Chicago Metropolitan Agency for Planning, in the Kendall County Industrial Market Analysis of April 2016, concluded that industrial uses would favor locations near Minooka and inside Grundy County because of their proximity to Interstate 80 (Page 34).

8. Any buildings constructed presently along the corridor will utilize wells and septic systems. Larger buildings (over 5,000 square feet) will need adequate water for fire suppression and/or will need to be constructed with appropriate firewalls.

9. No fiber optics lines currently exist in the area.

10. Traffic counts along Route 47 in Lisbon Township have generally declined since 2003 with the exception for the north end of the Township:
   a. 5400 (2003) to 4950 (2017) south end of County
   b. 6300 (2003) to 4950 (2017) south end Route 47 and 52 interchange
   c. 6600 (2003) to 6250 (2017) north of Chicago Road
   d. 6400 (2003) to 6700 (2017) at Newark Road
   Source: Illinois Department of Transportation

11. Traffic Counts on Route 52 have remained steady since 2003:
   a. 1800 (2003) to 1600 (2017) south of Bushnell School Road
   b. 2900 (2003) to 3350 (2017) east of 47
   Source: Illinois Department of Transportation

12. Current traffic accents are most likely to occur near road intersections; many of these accidents are “failure to yield” type accidents. The types of accidents could change and could include more overcorrection type accidents after the widening project is completed.
   Source: Kendall County Sherriff’s Department

14. The Village of Lisbon’s existing Comprehensive Plan calls for commercial, mixed uses and mining along and near the corridor. Source: Village of Lisbon Comprehensive Plan (2009)

15. The intersection of Routes 47 and 52 is the most likely area on the northeast side of an enlarged Village of Lisbon where sales tax producing businesses could locate. The northeast corner of the intersection is already zoned B-3 Highway Business.
16. Existing mining operations are located in Sections 21, 28 and 33. The mining operations could expand into Sections 32, 29 and 20.

17. West Aux Sable Creek is located in the area.

18. The intersection of Plattville Road and Route 47 is the most likely area on the west side of an enlarged Village of Plattville where sales tax producing businesses could locate.

19. Grainco FS and CHS Elburn currently operate grain storage facilities between Helmar and Newark Roads on the west side of Route 47. These uses are special uses in the A-1 Zoning District and are Permitted Uses in the M-2 Zoning District.

20. Commonwealth Edison has a ROW along Route 47 running north to south and near Townhall Road running east to west.

21. The Kendall County Land Resource Management Plan includes classifications for Commercial Uses (office and retail establishments at nodes), Transportation Corridor Uses (uses in B-3, B-5 and B-6 Zoning Districts), Mixed Use Business (uses in B-6 and the 3 Manufacturing Districts) and Mining.

22. Most of the land along the corridor is currently used for agricultural purposes.

23. The Kendall County Economic Development Committee would like outer roads to ensure to prevent interruption of traffic flows in the area. The Committee was also concerned about adequate water and the aesthetics of the corridor. The Committee also wanted a portion of the corridor reserved for industrial uses.

24. Few houses are located along the corridor. Locations with less traffic tend to be better suited for residential uses and these locations exist elsewhere in the County. No loss of affordable housing units is anticipated. The County will remain in compliance with the Illinois Affordable Housing Planning and Appeal Act (310 ILCS 67).

**Recommendations**

1. The Mining Area should be expanded in Sections 33, 32 20 and 21 because that is the location of the limestone.

2. A Mixed Use Business Corridor should be placed in Sections 34, 28 and 21 to serve as a buffer between the mining operations and other uses.
3. A Commercial Node should be established at the intersection of Routes 47 and 52 to ensure that the Village of Lisbon has land available for sales tax producing businesses.

4. The Rural Settlement area should remain around the intersection of Routes 47 and Lisbon Center Road to protect the existing houses at this location.

5. A Transportation Corridor should be established between the Rural Settlement at Lisbon Center Road and the Commercial Node at the Route 47-52 interchange because of limited access to Route 47 in this area.

6. A Commercial Node should be established at the intersection of Route 47 and Plattville Road to ensure that the Village of Plattville has land available for sales tax producing businesses.

7. A Mixed Use Business Corridor should be established on the west side of Route 47 between Helmar and Newark Roads to protect the existing grain operations at this location.

8. The remaining area of the Route 47 corridor north of the Plattville Commercial Node should either be a Transportation Corridor or a Mixed Use Business Corridor.
