WHEREAS, the findings of fact were approved as follows:

Existing uses of property within the general area of the property in question. The existing uses of property within the area of this property are commercial and service oriented.

The Zoning classification of property within the general area of the property in question. The zoning classifications within the general area consist of B-1 (Local Shopping), B-2 (General Business) and B-3 (Highway Commercial).

The suitability of the property in question for the uses permitted under the existing zoning classification. The property will be developed in a manner that will require stormwater management facilities and will have ample space to provide for this requirement as well as being able to provide landscape buffering.

The trend of development, if any, in the general area of the property in question, including changes, if any, which may have taken place since the day the property in question was in its present zoning classification. The Zoning Board of Appeals shall not recommend the adoption of a proposed amendment unless it finds that the adoption of such an amendment is in the public interest and is not solely for the interest of the applicant. The Zoning Board of Appeals may recommend the adoption of an amendment changing the zoning classification of the property in question to any higher classification than that requested by the applicant. For the purpose of this paragraph the R-1 District shall be considered the highest classification and the M-2 District shall be considered the lowest classification. The trend of development in that area is commercial with existing commercial zoning districts.

Consistency with the purpose and objectives of the Land Resource Management Plan and other adopted County or municipal plans and policies. The rezoning to B-2 will be consistent with the proposed change to the County’s Land Use Plan in the area as commercial.
