That the establishment, maintenance, or operation of the special use will not be detrimental to or endanger the public health, safety, morals, comfort, or general welfare. True. The petitioner has submitted a site plan indicating that measures will be taken to ensure that the use will not have a negative impact on public health, safety, morals, comfort, or general welfare including fencing and appropriate landscape screening.

That the special use will not be substantially injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted, nor substantially diminish and impair property values within the neighborhood. The Zoning classification of property within the general area of the property in question shall be considered in determining consistency with this standard. The proposed use shall make adequate provisions for appropriate buffers, landscaping, fencing, lighting, building materials, open space and other improvements necessary to insure that the proposed use does not adversely impact adjacent uses and is compatible with the surrounding area and/or the County as a whole. True. Adequate landscaping screening will be provided to effectively screen the proposed use from adjacent residential properties. The only lighting being added to the property is security lighting on the structures and will comply with the provisions of Section 11.02.F.12 of the Zoning Ordinance to ensure adjacent properties are not impacted by any glare.

That adequate utilities, access roads and points of ingress and egress, drainage, and/or other necessary facilities have been or are being provided. No new access roads or points of ingress and egress are proposed. Approval of the Oswego Fire Protection District for access and sprinkler issues are two proposed restrictions to address this criteria.

That the special use shall in all other respects conform to the applicable regulations of the
district in which it is located, except as such regulations may in each instance be modified by the County Board pursuant to the recommendation of the Hearing Officer. The petition has provided a site plan that complies with the requirements for the proposed use.

That the special use is consistent with the purpose and objectives of the Land Resource Management Plan and other adopted County or municipal plans and policies. This special use is consistent with the Land Resource Management Plan as amended in 2016 for this area.

WHEREAS, the Kendall County Board has considered the findings and recommendation of the Special Use Hearing Officer and finds that said petition is in conformance with the provisions and intent of the Kendall County Zoning Ordinance.
