PETITIONS
16-23 Laura Hubbard
Request: Conditional Use
Location: 7626 Ashley Road in Kendall Township
Mr. Sterrett summarized the request, which is a request for a conditional use permit in the A-1 Agricultural District to operate a one-day seasonal festival. A Conditional Use permit in the A-1 Agricultural District has been filed by Laura Hubbard for the property at 7626 Ashley Road in Kendall Township to hold a one-day festival on Saturday, October 15, 2016 from 10:00am to 4:00pm called “Holiday on the Farm Outdoor Craft Fair”. Seasonal Festivals, such as the proposed event, are permitted as conditional uses in the A-1 Agricultural District and may be approved administratively by the PBZ Department. The Zoning Ordinance, however, does restrict the amount of seasonal festivals that may
occur on a property to one (1) event during a calendar year. In April of this year Ms. Hubbard applied for a received approval of an A-1 Conditional Use permit to operate a one-day festival on Saturday, June 25, 2016 called “Tuscany on the Farm.”

Additional seasonal festivals may occur on a property only with the authorization from the Planning, Building, and Zoning Committee. Ms. Hubbard has informed the PBZ Department that she anticipates only two events will occur on the property during a calendar year – the spring event and this proposed fall event. An outline of the proposed event has been provided and included with this memo. Coordination has begun with the Kendall County Health Department and the Sheriff’s Office.

Staff recommends approval of the Conditional Use permit for the season festival contingent on a completed and signed affidavit by the applicant stating that all requirements will be met. If the PBZ Committee concurs with staff’s recommendation it may take final action on the application.

Mr. Wehrli made a motion, seconded by Ms. Gilmour, to approve the A-1 Conditional Use Permit for a one-day seasonal festival. Mr. Gryder asked for a roll call on the motion made. Jeff Wehrli – Aye; Judy Gilmour – Aye; Bob Davidson – Aye; Scott Gryder – Aye; Lynn Cullick – abstain. Motion carries 4-0.

16-16 Chris and Megan Jensen
Request: Special Use
Location: 7225 Caton Farm Road in Kendall Township
Mr. Sterrett outlined the request for a special use in the A-1 Agricultural District to operate a landscape business at 7225 Caton Farm Road in Kendall Township on the north side of Caton Farm Road, just west of Church Road. Mr. Sterrett pointed out that the application for the landscape business had also included an excavating business. Mr. Sterrett explained to the Committee that excavating businesses are not permitted in the A-1 Agricultural District either by right or by special use and therefore the special use approval and activities permitted on the property are permitted to only include a landscape operation.

The operation will include landscape maintenance, installation of landscaping, and related activities. No yard waste will be stored on-site with the possible exception of balled trees and bushes that have been prepared for installation. No retail or wholesale material will occur on site. No outdoor storage will take place and all equipment will be kept within a proposed 16,000sf building. No landscape waste will be stored on-site.

A building is proposed on the north end of the property to be used for storage of all equipment. This building will require a building permit. The property has an existing access point onto Caton Farm with an asphalt drive. The submitted site plan proposes a widening of this drive on the subject property as well as within the R.O.W. of Caton Farm Road.

A proposed gravel area is located to the north of the site surrounding the proposed 16,000sf building. Staff is of the opinion that this gravel parking area will be adequate for employee parking. This gravel area and the proposed pond near it will require a stormwater management permit. No lighting is proposed with the exception of a security light at the south edge of the proposed building.
A proposed non-lit free-standing sign is depicted at the southwest corner of the property along Caton Farm Road. This sign is subject to the requirements of Section 12 of the Zoning Ordinance and must be setback at least ten (10) feet from the edge of the ROW.

Mr. Sterrett stated that the ZPAC committee forwarded the petition onto the Plan Commission with a favorable recommendation. The Kendall Township Board recommended denial of the special use in a 3-2 vote citing reasons of the portion of the business that may involve excavating. The Township was fine with the landscaping purpose but did not feel comfortable approving the request because excavating businesses are not permitted in the A-1 Agricultural District.

The Plan Commission had questions regarding the type of equipment that would be kept on site to ensure this would not become an excavating operation. As such, the Plan Commission recommended that the petition submit a list of equipment that will be used for the landscaping operation and that a condition be placed limiting only that type of equipment being stored on site.

The hearing officer concurred with this recommendation and gave a positive recommendation.

Staff recommends approval of the landscape operation with the following recommended conditions:

1. All vehicles, equipment and materials associated with a landscaping business shall be stored entirely within an enclosed structure.
2. A maximum of five (5) employees are permitted to report to the site.
3. No landscape waste generated off the subject property may be burned on the subject property.
4. A building permit shall be applied for and approved prior to the construction of the proposed building.
5. All required site development permits shall be applied for and approved prior to start of construction.
6. Proposed signage shall require a building permit and be subject to the sign requirements of Section 12 of the Zoning Ordinance.
7. Equipment permitted to be stored on site shall include only the following, or similar replacement:
   a. 4 track loaders (Volvo MCT 125)
   b. 3 mini excavators (Bobcat 435)
   c. 3 wheel loaders (CAT 924)
   d. 4 excavators (John Deere 135, John Deere 245, CAT 345)
   e. 1 dozer (CAT D4)
8. The granting of this special use is only for a landscape operation and for those activities typically associated with a landscaping operation. Any other uses on the property not considered to be permitted by right or by special use are prohibited.

The PBZ Committee discussed the condition that only allows a certain number and type of equipment and also included a provision that service vehicles be permitted in addition to these pieces of equipment.
Ms. Gilmour made a motion, seconded by Mr. Davidson, to forward the special use request onto the County Board with a favorable recommendation with staff’s conditions as well as a provision allowing service trucks and vehicles to be located on site.

Mr. Gryder asked for a roll call on the motion made. Jeff Wehrli – Aye; Lynn Cullick – Aye; Bob Davidson – Aye; Scott Gryder – Aye; Judy Gilmour – Yes. With a vote of 5-0, the motion carries.

**NEW BUSINESS**

Recommend Authorization of Expenditure from the Tanglewood Trails Escrow Account in the amount of $4,424 for services provide by 4 Seasons Landscaping

Mr. Sterrett explained an invoice was sent to the County from 4 Seasons Landscaping for seeding that had occurred in the Tanglewood Trails subdivision as part of the improvements. A proposal was not previously approved by the County Board and therefore staff is recommending that the County Board take action on the invoice.

Ms. Gilmour made a motion, seconded by Ms. Cullick, to forward the invoice onto the County Board for action.

**Intergovernmental Agreement with the Village of Millbrook**

Mr. Gryder explained that the one year renewal date is approaching for the IGA with the Village of Millbrook for planning, building, and zoning services provided by the County. The Committee discussed requiring a payment from the Villages of Millbrook and Plattville to continue this service from the County. It was recommended that any required payment should be due after the start of the next fiscal year for each Village. Mr. Sterrett stated he will be contacting the presidents of the Millbrook and Plattville to discuss this.

**Review of Special Use Categories in the A-1 Agricultural District**

Mr. Gryder wanted for the Committee to begin to look at the permitted special uses in the A-1 Agricultural District and the conditions that must be adhered to for each. There have been concerns and complaints made to the Sheriff’s Office regarding noise levels from approved banquet hall facilities. Uses in the A-1 Agricultural district are not subject to the Kendall County Noise Ordinance but banquet hall facilities are subject to specific noise regulations.

The PBZ Department will be working with Sheriff’s Office to determine if any violations of the noise regulations for banquet hall facilities exist.

The Committee suggested sending a letter to the owners of the approved banquet hall facilities to remind them of the noise regulations and explain that a violation of these regulations could be cause for revoking the special use. This topic will be discussed further at the Committee of the Whole meeting.

COMMITTEE BUSINESS

➤ Technology Services

➤ Technology Van – Mr. Koeppel reported that there is a need for an additional van in the Facilities Management department, and Technology doesn’t currently use their van on a daily basis. Mr. Koeppel stated that he is willing to give the Technology van to Facilities Management. If technology needs a vehicle for special projects, they will be able to utilize the van being given to Facilities. There was consensus by the committee to move the vehicle to the Facilities Management department.

➤ Current Technologies – Mr. Koeppel updated the committee on the proposed agreement with Current Technologies to purchase a wireless link between the Sheriff’s Office and the County Office Building in an amount not to exceed $24,891.24. Motion made by Member Koukol, second by Member Gilmour to forward this item to the Committee of the Whole for additional discussion and on to the County Board for approval. With three members present voting aye, the motion carried.

➤ Intergovernmental agreement with KC Courts and with KenCom – Mr. Koeppel reported that there has been a request by KenCom and the Courts to have additional technology assistance. Mr. Koeppel told both entities that they are at capacity, and
would have to hire an additional person for technology. Both entities are willing to fund a new full-time, exempt position. Mr. Koeppel said that the cost for benefits and salary would be $90,000, with half coming from each entity. There would be a 3-year agreement with the option of a two-year extension. Mr. Koeppel has met with Judge McCann and Robyn Ingemunson, and will meet with Lynette Bergeron tomorrow. There will not be one technology person specifically designated for this assistance, although this position would focus on these two entities, other technology personnel would also be available to assist as needed. Mr. Koeppel stated that he is working toward a December 1, 2016 start date. Mr. Koeppel will update the committee at the next meeting, and provide the direction for proceeding.

Member Gilmour said that KenCom has only held discussion on this topic at their Finance Committee meeting, and will discuss the issue at the Executive Board meeting on August 25, 2016.

- **Budget** – Mr. Koeppel reviewed his proposed FY2017 budget for Technology and GIS with the committee. He said he is trying to follow the zero percent increase as instructed by the Finance Committee, and has not done anything for salaries yet. The technology budget shows a decrease in several areas, and the GIS budget shows approximately $2000 less this year.

Mr. Koeppel also reviewed the Technology Capital Request requests with the committee. Discussion on specialty software that is used by several of the offices/departments, why technology is funding these software programs and the increases of those each year, and showing the reimbursement of that software to Technology, and software costs for municipalities for the New World program. Mr. Wilkins reported there is $35,625 budgeted in the General Fund under Technology Municipal Reimbursements.

**The committee agreed that Mr. Koeppel should present his budget to the Finance Committee at the Budget Hearings in September 2016.**

Member Purcell asked about the projected cost of $4,800 for the Technology department cell phones. Member Koukol asked if the County could work toward getting all county cell phones under one plan to reduce costs and provide a better service. Member Purcell reminded the committee that they couldn’t mandate elected officials to comply with a request to participate. Member Cullick would like to know what phones are in use in Technology, Admin Services, Animal Control, Facilities and PBZ, and if they are needed, and if they can be combined into one plan with one carrier. Jeff Wilkins will gather this information and present at a future meeting.

**Administrative Services** – Jeff Wilkins briefly reviewed the Administrative Services budget with the committee and wanted direction on how to proceed. Mr. Wilkins said that over the years they’ve always wanted flexibility with part-time personnel. Mr. Wilkins explained the possibility of a part-time employee or paid intern to work in Administrative Services to provide coverage in multiple departments filling in for vacations, absences, and also to serve as a “floater” as needed. Member Cullick asked where this person would be home-based, and what
the person would do when they weren’t needed in other departments. Mr. Wilkins stated the person could be housed in Administrative Services, and could do minutes, answer phones, and other administrative projects.

**After discussion, the committee agreed to remove the Codification project from the budget.**

**There was consensus by the committee to have Mr. Wilkins to present his budget to the Finance Committee at the budget hearings in September.**

- **Public Safety Center & Courthouse Security System Bids** – Mr. Koeppel updated the committee on the bidding progress and what the next steps will be. There will be a meeting of County personnel and Dewberry to review the submitted bids in detail next week. Mr. Koeppel informed the committee about the three alternates, Alt 1 is Conduit, Alt 2 is Cable and piping, and Alt 3 is new locks in the courthouse. Discussion on the costs of each and the overall projected cost of the project.

- **Recommend Approval of Job Descriptions** – item tabled until the State’s Attorney’s Office has completed their review.

**ITEMS FOR COMMITTEE OF THE WHOLE** - None

**ACTION ITEMS FOR COUNTY BOARD** – Approval of Agreement with Current Technologies to purchase Wireless Link at an amount not to exceed $24,891.24

**PUBLIC COMMENT** – None

**EXECUTIVE SESSION** – Member Gilmour made a motion to enter into Executive Session for the purpose of collective negotiating matters between the public body and its employees or their representatives, or deliberations concerning salary schedules for one or more classes of employees (5 ILCS 120/2 (c) 2), second by Member Koukol.

The committee meeting convened at 4:00 P.M. with roll call of committee members. Quorum established.

Motion Gryder; second Prochaska, to approve the agenda as presented. Motion carried unanimously.

Motion Prochaska, second Gryder to approve the Highway Committee meeting minutes from July 12, 2016. Motion carried unanimously.

Jennifer Becker and Jackie Forbes introduced themselves from the Kane – Kendall Council of Mayors (KKCOM). They provided information on Chicago Metropolitan Agency for Planning (CMAP), which is the metropolitan planning organization (MPO) in the Chicago region. When CATS and NIPC were joined about 10 years ago to form CMAP, they were funded through State and Federal grants. In recent years, the State has not been providing any funding for CMAP, and this nearly caused the agency to close its doors in 2015. Since millions of dollars flow through CMAP to local agencies each year, it is critical that CMAP remains viable and relevant moving forward. In lieu of State funding, CMAP has developed a plan to charge counties, municipalities, and transit agencies certain fees each year, totaling $1.5 million. This is consistent with what other MPO’s are doing in other regions.

Prochaska pointed out that Kane County has 4 times as many people, but only about 1.5 times higher proposed fees than Kendall. Becker indicated that the fees or dues that CMAP will charge have a base charge for counties and then a per-capita fee added to the base. Municipal partners have a per-capita fee only, so small municipalities will pay only a very small fee. Wilkins indicated that the base fee for counties is $25,000. Gilmour thought the fees still seem unbalanced. Becker stated that it is against federal law to tie the federal funds to payment of the assessed fees. However, Gryder indicated that if local agencies aren’t paying any fees, they may have difficulty competing for funds with other partner agencies that are paying their fees.

Klaas pointed out that Kendall County has been on the receiving end of $6 million dollars in federal funds through CMAP in just the last few years. The Transportation Sales Tax Fund has benefited from this windfall of funding, and so the County Board might want to consider paying the CMAP fees from the Sales Tax Fund. This is consistent with other transportation planning efforts that are funded from the Sales Tax Fund. Becker indicated that the FY 17 and FY 18 proposed fees are based on State fiscal years, which begin July 1st. So the County could budget the fees in each of their fiscal years moving forward. She also thought that the nearly $30,000 fee
for Kendall County would likely not increase since CMAP is just trying to obtain a local match of $1,500,000 each year to stay operational.

The Committee was generally in favor of the plan to pay the CMAP fees each year from the Transportation Sales Tax Fund. They were interested in reviewing the breakdown of fees for all agencies in Kendall County and the region. This information will be brought back to the Committee in September for further discussion.

The Committee reviewed the WIKADUKE Trail corridor. Gryder discussed the new federal transportation bill, and how MPO’s are supposed to be working with locals to identify major transportation corridors; but only parts of Orchard Road and Route 47 are currently identified. Major corridors in Kendall should likely include the WIKADUKE Trail, Orchard / Grove Roads, Eldamain Road, and perhaps others. Klaas provided some history of the planning efforts that have been ongoing for over 20 years on the Trail, and provided some exhibits to the Committee, including a recorded centerline for the Trail that was recorded in Kendall and Will Counties in 2000. That centerline now conflicts with Bednarcik Jr. High (Oswego) along Heggs Road. The proposed Hudson Pointe development in Oswego provided for a more southerly intersection of the Trail and U.S. Route 30 which would likely fit better with the school’s location. The Committee discussed what role that Kendall County should have in determining the location and the funding for this route. Werhli felt strongly that the corridor is necessary. The need has not gone away, and it should eventually get built. He suggested that we sit down with Aurora and Oswego, and perhaps IDOT to figure out the best alignment for this route. Koukol concurred. Klaas asked whether the Committee wanted to include an element in the 5-year plan to provide some planning efforts for this route, because there is not currently any money in the plan for this purpose. After discussion, Wehrli suggested that some small amount should probably be put in the 5-year. Koukol suggested $25,000 should be included in the plan, and that would let folks know that we’re serious about developing a plan for this corridor. The consensus of the Committee was to meet with other agency partners regarding this matter, and to include some money in the 5-year plan to assist in those efforts.

Intergovernmental Agreement between the County of Kendall and the Kendall County Forest Preserve District regarding land exchange of 1.6 acres of District owned property at Subat Forest Preserve with an appraised value of $16,100 for 1.9 acres of county owned property adjacent to Hoover Forest Preserve with an appraised value of $32,000 as part of the Eldamain Road improvement project, including approval of associated temporary construction easements was presented to the Committee. Motion Gryder; second Prochaska to recommend approval of the agreement to the County Board. Motion carried unanimously.

Klaas presented the proposed FY 17 property tax levies for Highway, Bridge and Federal Aid Matching Funds to the Committee. The combined property tax levy proposed is $55,000 less than the previous year. Koukol asked if we have enough money budgeted for salt and other expenses. Klaas indicated that there should be sufficient funds available. He stated that the transfer to the Building Fund each year is treated like a line-of-credit payment. If funding is tight, the Highway Fund might make a smaller transfer to the Building Fund so that the numbers will work out and the Highway Fund won’t go over budget. Specific line item proposals are available electronically to board members in the Questica software.
A supplement to the engineering agreement between Kendall County and HR Green was presented to the Committee in the amount of $344,419.49. These additional costs are attributed mostly to the fact that the Eldamain Road project from Highpoint Road to U.S. Route 34 has been broken into 2 parts, providing for a separate contract from River Road to Route 34. There are also additional costs involved with the redesign of the Fox Road intersection, as well as changes to the right-of-way and vertical profiles for the roadway. Motion Koukol; second Prochaska to forward the supplement on to the County Board for approval. Motion carried unanimously.

Klaas discussed the idea of advancing a tree removal contract for Eldamain Road from River Road to U.S. Route 34, to facilitate the relocation of utilities in advance of the roadway contract, which is expected to be let in August 2017. This should expedite construction of the roadway immensely. However, the County must plant 760 trees as mitigation for removal of existing trees along the Eldamain Corridor. Forest Preserve Director, David Guritz, would gladly accept the trees in the Fox River Bluffs area, as the Forest Preserve has a long-term goal to create oak savannas in this area just south of the Fox River. Prochaska strongly supported the idea, as this action would show IDNR that the County is making progress in developing Fox River Bluffs in accordance with grant obligations. Committee had consensus to move forward with the tree removal and tree mitigation plan.

P.J. Fitzpatrick provided an update on the progress of preliminary engineering by WBK on the Collins Road Extension. Koukol thanked P.J. for providing email updates on the project.

Kelly Farley provided an update on the Little Rock Road project. Final plans and specifications have been delivered to the County for review.

Motion Koukol; second Gilmour to forward Highway Department bills for the month of August in the amount of $134,477.08 to the Finance Committee for approval. Motion to approve bills carried unanimously.

Meeting adjourned at 5:13 P.M.

Respectfully submitted,

Francis C. Klaas, P.E.

**Old Business/Projects**

*Courthouse & Public Safety Center (PSC) Security Improvement Project Bidding*

a. *Walkthrough and Bidding* - Director Smiley stated the bid opening occurred on July 29, 2016 after a one week extension of the deadline was approved. Dewberry is in the process of reviewing the bids. Chairman Davidson set a bid review meeting date of August 12, 2016 with “stakeholders” that have been discussing the project with Dewberry all along. Note: This date was subsequently changed to August 17, 2016.

*Law Enforcement Memorial Project* – Director Smiley reported the caps for the brickwork were ordered June 29, 2016. The caps were to take aprox. 6 weeks to complete. Once the caps are installed the rest of the memorial will be assembled and the landscaping completed.

*Leopardo Energy Efficiency & County Facilities Project* – Director Smiley reported that Leopardo is still planning to be done with their review by the end of August.

*Health & Human Services Counter(s) Security Improvements* – Director Smiley reported that he and Dr. Tokars went over to East Oswego High School to view how they have setup their main entrance to help improve security at the entrance. Jim said they had glass in tracks from the countertop all the way to the ceiling. Amaal asked the receptionist if they could provide contact information on the company that did their work. The information was provided to Director Smiley and he is waiting for a return call back to see if they can provide a solution for our counters.
Konica Copier Program Responsibilities Change – Director Smiley explained that the copiers were being looked at to move over to the Technology Services department as was done a couple of years ago. So, Jim & Scott have been working on what amount to remove form the KCFM and to add to the Technology Services budget. Jim had figured $110,000.00 and Scott figured $130,000.00. They are going to continue to review it and plan to have the same amount removed and added to each budget before they are turned in.

New Business/Projects

1. Chairman’s Report – Director Smiley explained that he was looking for some guidance on what the committee wants him to budget for capital projects in 2017. Chairman Davidson said that there is money put aside for some of the projects but only if they are needed to be done. Bob said the projects are piling up year after year if they are not being done. Vice Chair Koukol asked if the plan to add a memorial at the County Office Building could be added to the list to be done. Jim explained that he had put the project together and had it set to be done mostly by donation. So, it is possible to add it the list. Director Smiley then explained what he had done so far for the 2017 budget, with a current overage of 1.45% as compared to last year. Jim further explained the main reason was because the projection for electric next year is up $25,000.00 due to capacity costs increasing. Jim is going to further review the budget and plans to get it as close to a 0% increase as asked for from the Finance Committee. Member Gilmour asked if we would realize any savings from the Leopardo facility review next year. Director Smiley said that there are two parts to the Leopardo study. First Leopardo is going to make recommendations where savings could be realized. The second part was the County would need to fund the projects. So, Jim feels savings would not be seen until 2018 at the earliest. Member Wehrli asked about the large increase in water usage. Jim explained that he felt most of it was due to prisoner fluctuations in the jail. There is no way for Jim to predict what the prisoner load will be. More prisoners equal more water use as well as more paper and other cleaning products being used.

2. Circuit Clerk Automatic Doors and Remodeling Project Budget Request – Director Smiley explained that Circuit Clerk Ingemunson requested a price to add an automatic door to her main lobby and a walkthrough from that same lobby to her viewing room. The reason for this is because they have more and more people with special needs visiting her office and next year the court system is requiring the public to file cases electronically. Robyn will need to add scanning equipment to accomplish this and feels there is not enough room in the viewing area to fit everything in. So, Jim gave Robyn pricing to reflect KCFM staff doing the work and a price if the work was mostly contracted. Project complete.
3. **Public Safety Center Bathrooms and Locker-room deep cleaning.** Director Smiley explained he was having the cleaning company perform deep cleaning in all of the non-public areas. The work included tile grout cleaning and polishing, shower walls and floors work since this has not been done for a while. Projects like these are routinely scheduled throughout the year in all facilities.

4. **Video Visitation and Video Bond Call RFP Development** – Director Smiley explained D.C. Gillespie drafted an RFP for Video Visitation which was shared with Director Smiley and Dewberry who is helping us with this project. Jim also mentioned that Joe was scheduling a trip to Lake County Indiana with Judge McCann, Scott, Jim and Sheriff Baird to view the systems they are utilizing for these functions.

5. **Animal Control Trailer Review Trip** – Member Wehrli explained that he, County Administrator Wilkins, Director Smiley and Director Pawson went through several trailers at the site in St. Charles. Mr. Wehrli said they are putting together a cost to bring the trailer out, remove the wheels to lower the unit as close to the ground as possible and add skirting to the unit. This will be discussed at the next Animal Control meeting this month. Director Smiley explained the plan is to have his staff connect electric & data to the unit and to build the wooden handicapped ramp up to it.

6. **Alice Training** – Mr. Smiley reported he was invited to attend this training at the Health facility. Jim said it was beneficial to help plan for emergencies in our facilities. The training was also attended by County Administrator Wilkins and Director Koeppel.

7. **Interviewing and Hiring of Tech Level 1 position** – Mr. Smiley said Brad Hanna was offered the job and plans to start August 15, 2016. **Item Complete.**

**Staffing/Training/Safety**

- **Reportable Labor Hours** – Chart included in package.

**Other Items of Business**

- Mr. Smiley stated that he continues to track the open work orders but does not have to time make sure the requests are in the correct categories. So, that may be throwing off some of the charts. Jim said that his main concern was to continue to get work orders done with the least amount of inconvenience to county departments.

- **CMMS Charts** – Reports were included in the packet for:
  - Reported versus Completed
  - Work Orders Reported by Building Current Month
  - Work Orders by Work Type Current

ROLL CALL
Present: Dan Koukol - here, John Shaw – yes, Lynn Cullick - here, Judy Gilmour here, Matthew Prochaska - here, Bob Davidson – yes, Scott Gryder – here

Board Members Absent: Elizabeth Flowers, Jeff Wehrli

Member Purcell entered the meeting at 4:06p.m.

Others present: ASA David Berault, Undersheriff Harold Martin, John Sterrett, and Jeff Wilkins

ITEMS OF BUSINESS

➢ From Admin HR Committee:
  ▪ Approval of Agreement with Current Technologies to purchase Wireless Link at an amount not to exceed $24,891.24 – Jeff Wilkins briefed the committee on the proposed purchase, and David Berault stated that he had reviewed the agreement with Current Technologies, gave an addendum for it.

  Member Davidson asked if other bids were received, and if they could see those bids at the County Board meeting on Tuesday, August 16, 2016. Mr. Wilkins stated that they are also looking into connections with Kane County and then possibly onto DeKalb in the future. Mr. Wilkins stated that this was included in the FY2016 Technology budget. Mr. Wilkins will have all bids submitted available at the August 16, 2016 County Board meeting.

  There was unanimous consensus by the committee to vote on the item at the August 16, 2016 County Board meeting.

➢ From PBZ Committee:
  ▪ Discussion on Enforcement of Noise Regulations for Banquet Hall Facilities – Member Gryder briefed the committee on the Special Uses Permitted conditions for a banquet hall/facility. Member Gryder said that at a previous meeting, citizens voiced their concern about noise at county banquet halls/facilities. Mr. Gryder also stated that the County Noise ordinance does not apply to the Agricultural District, but only applies to the Residential District.
John Sterrett, Planning, Building and Zoning Senior Planner, stated that the noise ordinance in the county is a separate document that specifically exempts agricultural property, so any noise emitted on that property the noise ordinance would apply, but because it specifically exempts agricultural properties, the county special uses permits in the agricultural district would not be applicable to the noise ordinance.

Mr. Sterrett said that there is within the special use permit banquet hall facilities category, a section on noise regulations, that is separate from the County’s Noise Ordinance, but it does hold the banquet facilities to a condition of their approval that they do have to meet the noise regulations. Mr. Sterrett said that the difference between the Noise Ordinance and the regulations on noise for Special Uses Permits, is that the Noise Ordinance is enforced by the Sheriff’s Office, whereas the regulations on noise for Special Uses is a zoning matter and is enforced by PBZ.

Mr. Sterrett said that the Sheriff’s Office has agreed to assist PBZ in the investigation and documentation, and taking meter readings of the noise at a specific location if there are complaints, and then forward that information to PBZ so they can review it and determine if there is a violation of the Special Uses Permit, and if it is something that becomes ongoing, and something that PBZ needs to address with the property owner. Undersheriff Martin stated that there are four decibel meters in the Sheriff’s Office that can be used to measure the level of noise at a rural banquet facility.

Mr. Sterrett stated that Planning, Building and Zoning is working closely with the sheriff’s office to ensure compliance of all ordinances, and that PBZ provided a list of the five special uses permits of banquet facilities in the County to the Sheriff’s Office so they are now aware of their locations.

Mr. Wilkins said that each special use permit is its own ordinance, although there are some basic regulations that might apply to all special uses, there might be additional regulations placed on a specific special uses permit. Mr. Wilkins also cautioned the Board that too many restrictions on rural banquet halls may result in legal action against the county.
