The permit is required regardless of the decision that will be made to either remove or restore the bridge, and the proposal will also provide cost estimates for comparison.

President Wehrli stated that the Village of Millbrook has not extended support requested by the District for the restoration of the bridge, and the District needs to move forward to address the bridge’s structural issues.

Commissioner Koukol asked whether the work that will be performed, including permitting, will be relevant for the next couple of years.

Director Guritz reported that there are 5 cards issued to the District’s Director (Guritz), Superintendent (Olson), Events Coordinator (Villarreal), Natural Beginnings Manager (Gessler), and Environmental Education Coordinator (Dombrowski).

Commissioner Purcell asked whether the purchases could be handled using the Director’s card. Director Guritz stated that it is more efficient to allow support staff to handle credit
card purchases. There are times where the purchases need to be made where the Director is not immediately available to extend support for the purchase. This has resulted in staff using their own credit cards to make purchases, which is less efficient.

Director Guritz stated that opportunities will be explored for eliminating the card issued to the Ellis Events Coordinator.
