RE: Making Maple Magic Fees and Charges

Date: December 19, 2017

This will be our third year holding our Making Maple Magic program at Hoover Forest Preserve. In 2016, we had 18 participants attend the program. In 2017, we had 43 people attend the program. This year, we are hoping to have 60 people attend Making Maple Magic. During this program participants take a guided hike through the woods at Hoover Forest Preserve to learn all about the basics of making maple syrup. After the hike, they enjoy a pancake breakfast with real maple syrup! The program will be $7 per person.

RE: Pickerill-Pigott House Inspection – Radon Mitigation Services
Date: December 19, 2017

Discovery Inspection Services of Oswego completed a full inspection of the Pickerill House. The inspection included testing for radon. Radon levels were slightly above permissible exposure limits and require mitigation.

Testing results were discussed with the Committee of the Whole on December 13, 2017.

Overall, the condition of the house is good, with only a few minor issues to be addressed prior to occupying the house for use as a primary residence for the Pickerill-Pigott Grounds Maintenance position.

Riemenschneider Electric completed a follow-up inspection of the house’s electrical system, and will submit a quote for improvements including installation of additional breakers for doubled-up wiring, installing ground wires, installation of GFI outlets in all washroom areas, and recommendations for electrical heating units that did not appear operable during the initial inspection.

Fire and carbon monoxide detectors will be installed on all floors.

Two radon mitigation firms located in Oswego have extended quotes for installation of a basement air venting system and installation of a vapor barrier, with quotes presented to the Committee of the Whole for consideration.

The lower-cost proposal was received Guardian Radon Mitigation and Electrical Services includes installation of a single radon venting system with two suction points in the basement including installation of a crawl space vapor barrier for $1,964.00, with in-house, low-cost follow-up testing performed post installation to determine whether an additional second active venting system is warranted for an additional $1,289.00, for a total potential cost of $3,253.00.

Recommendation

District staff recommends Commission consideration of a motion to approve the proposal from Guardian Radon Mitigation and Electrical Services for the mitigation of radon at the Pickerill House for an Initial Phase I cost of $1,964.00, plus an additional $1,289.00 if required as determined by supplementary air quality testing, for a total contract cost not-to-exceed $3,253.00.
