NEW BUSINESS
Request for Guidance Regarding 55 ILCS 5/5-12014 (c) Pertaining to Objections by Townships on Map Amendments and Text Amendments

Member Cullick arrived at this time (6:36 p.m.)
Mr. Asselmeier read his memo regarding the topic. Discussion occurred regarding unnecessarily delaying projects if a township chooses not to comment while still providing the townships an opportunity to comment. Mr. Asselmeier will draft a resolution for the Committee to consider at its next meeting requiring the Committee to wait thirty (30) days unless comments have been provided by the township(s) prior to the end of the thirty (30) day comment period.

Request for Guidance Regarding Gaming Machines in Gas Stations

Mr. Asselmeier reported that the County received a request for gaming machines in a gas station near Minooka. Presently, the County follows State regulations and does not have additional regulations related to gaming machines. Gaming machines are considered accessory uses in liquor license establishments allowed to have gaming machines. The Committee requested Staff to research the regulations of neighboring counties on the subject.

OLD BUSINESS

Village of Millbrook Related Items

Village of Millbrook Mayor Jackie Kowalski and Village Trustee Steve Moeller explained that Illinois Municipal League Risk Management Association, the Village’s insurance provider, did not want the Village to carry primary auto and liability insurance for County personnel when the County did inspections on behalf of the Village of Millbrook. Mayor Kowalski proposed language reading, “Each party will maintain their own auto liability and general liability with amounts not less than $1 Million per occurrence/$2 Million aggregate and each would name the other as additional insured.” The County will contact their insurance provider and see if an agreement can occur.

9111 Ashley Road Buffering Issue

Mr. Asselmeier explained that the County received complaints of noise coming from the banquet facility at 9111 Ashley Road. In addition, the Committee previously requested that the owner of the banquet facility attend a meeting to discuss the trees and berm.

Ron Walker, Yorkville, explained that they planted thirty (30) pine trees on the property and created a berm on the northeast corner of the open lot in front of the barn; the berm extends approximately fifty feet (50’) east to west and fifty feet (50’) north to south. Along the south exit, a one to two foot (1’-2’) berm was placed with thirty (30) lilac bushes. He and his wife attended all but one (1) of the ten (10) weddings at the venue this year. The decibel levels are checked every half hour to hour. Noise levels remain below sixty (60) dBA at all times. Twenty (20) weddings are booked for 2017 and approximately twenty-five (25) weddings are booked for 2018. Mr. Walker stated that all work is completed by 11:45 p.m. No guests are at the venue after 11:00 p.m.

Member Kellogg stated that he thought a “berm” should be taller and wider. Mr. Walker stated the height of the berm and trees were never defined. He also said that the purpose of the berm and trees were to prevent lights and sound from leaving the property and the trees and berm are blocking light and sound.

Hideaway Lakes Campground Discussion

Mr. Asselmeier reported that the Law, Justice & Legislation Committee requested that the special use permit be revoked due to the criminal activity and public health and safety concerns at the property. Mr. Asselmeier reported that Code Inspector Brian Holdiman inspected the property earlier this year and discovered forty-three (43) violations of the Junk and Debris
Ordinance. The owner has fixed thirty (30) of these issues and requested an additional thirty (30) days to remedy the thirteen (13) remaining issues. The consensus of the Committee was that the PBZ Department should grant the thirty (30) day extension.

Aaron Rybski, of the Kendall County Health Department, discussed the violations to health related ordinances. The violations include a septic issue, public health nuisances (junk and backflow prevention issues) and drinking water regulations. The next inspection is July 27th.

Attorney Dan Kramer spoke on behalf of Tom Tanner and stated Mr. Tanner has replaced ninety percent (90%) of the anti-siphon devices on all water risers, replaced ninety percent (90%) of the caps on sewer openings, removed tires, caps and risers installed on septic tanks and pumped the septic system as requested. Mr. Tanner, Yorkville, explained that most the work is finished. Mr. Rybski will send Mr. Asselmeier a copy of the report following the July 27th inspection.

Commander Michael Peters of the Kendall County Sheriff’s Department discussed the Pavlik Report on the activities at Hideaway Lakes. The calls for service included drug overdoses and domestic disputes. Approximately seventy-seven (77) vehicles are registered at the property. Some of the people at the campgrounds appear to be residing at the campground year-round. The Sheriff’s Department is not informed of events and festivals at Hideaway Lakes.

Member Gryder asked if the special use permit allows events. Mr. Asselmeier responded that the special use permit allows for campgrounds.

Member Gilmour asked about arrests at the property. Commander Peters did not have arrest numbers.

Attorney Kramer explained the history of how the property became a campground. He requested the names of problem individuals. People cannot stay longer than four (4) months at a time. Mr. Tanner stated only one (1) overdose occurred in 2016. He expressed concerns regarding the Sheriff’s Department patrolling the campground and counting those patrols as “service calls.”

Chairman Davidson asked about street signs and numbering in the campground. Mr. Tanner installed street signs and is working on numbers at each trailer spot; he is approximately halfway finished with the numbers.

Mr. Tanner said he was allowed a maximum four thousand six hundred (4,600) people in the campground.

Mr. Tanner did not believe that seventy-seven (77) vehicles were registered at the property.

Member Kellogg asked about campers using the address for mail and vehicle registration. Mr. Tanner said they could register at that campground address, but not live there full-time.
Chairman Davidson asked about the school bus picking up kids. Mr. Tanner said that he restricts the number of people living in a trailer, but he cannot prevent kids from staying in the trailers.

Amendments to Outdoor Shoot Range Regulations
Mr. Asselmeier read his memo on the subject. He noted that no members of the County Board submitted comments to date; the Sheriff’s Department submitted comments. Mr. Asselmeier noted that all of the existing ranges did not meet the requirements of the proposal. The State Park may also need to be exempted. The suggestion was made to lower the uninhabited downrange safety area for rifles with more or equal power to a .22 long rifle to seven thousand feet (7,000') and that baffles be constructed in such a way that bullets shot over the targets would not leave the site. The hours of operation need to be finalized. Noise regulations and road classification requirements are still required. Discussion occurred regarding whether ranges must be one thousand feet (1,000') from existing dwellings or one thousand feet (1,000') from setback lines. Clarification is needed related to down-range distances and including slugs in the definition of rifles. Discussion occurred regarding the distinction between tactical and stationary shooting; this portion of the regulations need to be finalized. The proposal will be back on the agenda at the August meeting.

Noxious Weed Related Procedures
Mr. Asselmeier read his memo on the subject. The State wants the County to designate someone as Noxious Weed Superintendent. The Thistle Commissioners for each township could be the County’s Noxious Weed Superintendents. Mr. Asselmeier will send a letter to the townships on the subject. A list of noxious weeds will be provided at a future meeting.

June 20, 2017 Letter from Daniel J. Kramer RE: Delaney Public Hearing Shooting Range Petition 16-14

June 27, 2017 Email from Robert Velazquez RE: Petition Withdrawal Email
Mr. Asselmeier reported that Mr. Delaney and Mr. Velazquez withdrew their applications for their respective special use permits.
Correspondence Related to Banquet Facility at 1996 Johnson Road
Mr. Asselmeier stated that the Planning, Building and Zoning Department received a letter dated July 5, 2017, from Daniel J. Kramer and a police report from the Sheriff’s Department regarding a call from a neighbor of the banquet facility at 1996 Johnson Road. No noise violations were found during the investigation.

Correspondence Related to Alleged Zoning Violation at 14207 Church Road
Mr. Asselmeier reported that the County Board members received an email on June 18, 2017. The address in question was found to be 14207 Church Road. The complaint stated that firearm classes were planned for the later in July at the site. Mr. Asselmeier stated that the classes have been removed from the website and that the owner is working with the class organizer to get the Groupon coupon removed from the Internet.

HIGHWAY COMMITTEE MINUTES

DATE: July 11, 2017
LOCATION: Kendall County Highway Department
MEMBERS PRESENT: Matt Kellogg, Scott Gryder, Judy Gilmour, Bob Davidson
STAFF PRESENT: Ginger Gates, Fran Klaas
ALSO PRESENT: P.J. Fitzpatrick and Jarrod Cebulski

The committee meeting convened at 4:01 P.M. with roll call of committee members. Lynn Cullick and Robert Davidson absent. Quorum established.

Motion Gryder, second Gilmour to approve agenda with Executive Session being moved to end of meeting, as agenda item #10. Motion carried unanimously.

Motion Gryder, second Gilmour to approve the Highway Committee meeting minutes from June 13, 2017. Motion carried unanimously.

Little Rock Township was not present to make petition for joint bridge funds for the Mitchell Road connection project; so Chairman Kellogg stated that this matter would be taken up at a later meeting. Motion Gryder to approve petition for joint bridge funds. Motion died for lack of a second.

Davidson joined meeting at 4:04 P.M.

Kendall County was approached by Village of Montgomery’s engineering consultant requesting installation of a traffic signal at the intersection of Galena Road and Concord Drive. Klaas indicated that there were some concerns about making an improvement at this location without looking at other intersections on the Galena Road corridor. The County has intersection improvements programmed for Galena & Kennedy, as well as Galena & Cannonball in the near future. Over the long term, there will likely be a half dozen major intersections on Galena Road between Ill. Rte. 47 and Orchard Road. For this reason, Klaas proposed to the Committee that a corridor study for Galena Road might help to identify the nature of the intersection improvements and the long-term footprint for Galena Road. He thought it might be appropriate to perform this corridor study in advance of the preliminary engineering for both Kennedy and Cannonball intersections, which is supposed to begin in FY 2018. He also proposed that EEI perform the corridor study because they are the consultant for both Village of Montgomery and City of Yorkville. This would save time and money on the investigation and provide direction for whatever consultant is chosen to perform the preliminary engineering on the intersection improvements. Davidson discussed the timeframe of just 6 months for the corridor study and the fact that it would put us into the next fiscal year anyway. Gilmour asked when the improvements to realign Mill Road in Yorkville and Gordon Road in Montgomery would occur. Klaas was uncertain when those improvements would be made, but stated that Kennedy and Cannonball intersections are programmed for engineering in 2018, engineering and land acquisition in 2019, and construction in 2020. Kellogg asked about the proposed cost, but Klaas said he really didn’t know until the scope of services was determined. Davidson asked what the traffic numbers were on Galena Road today. Current traffic is about 12,000 near Orchard Road, but only about 6000
near Route 47. Committee thought the corridor study generally made sense and asked the County Engineer to bring an agreement back to the committee for review.

P.J. Fitzpatrick provided an update on the Collins Road Extension project. They are still on track to have draft project development report prepared by November 2017.

Gryder asked about status of Little Rock Road. No work has begun on that project.

Committee discussed Millington Road Bridge repair project. Klaas stated that because of permitting requirements and the fact that LaSalle County is going to use federal money, the earliest letting for the project will be 3-9-18… which means that construction would likely not occur until summer of 2018. Estimated cost for the project is $1.5 million, which will be split between the two counties. Committee discussed different funding scenarios. Apparently LaSalle County is unable to commit local monies to the project, and has to use federal money. Klaas stated that no matter how the project is funded, it is apparent now that repairs will probably not occur until summer of 2018.

Eldamain Road project is still scheduled for September 22, 2018 letting.

Motion Davidson; second Gilmour to convene to Executive Session for the purpose of land acquisition. Motion approved unanimously at 4:24 P.M.

At 4:37 P.M., regular session reconvened with no action being taken.

Gryder stated that Oswego Township officials were interested in accessing TAP funds for sidewalk improvements in Boulder Hill Subdivision. Klaas stated that they are not eligible because those sidewalks are not along State or County Highways. He reminded the committee that the TAP Program was set up for linear-type projects along State and County Highways, in an effort to reduce vehicle trips. Sidewalks in Boulder Hill don’t really meet the intentions of the TAP Program. Only one exception has been made to the TAP policies, and that was for the multi-use path along Kennedy Road; but said project had regional significance. Davidson was concerned that giving money for Boulder Hill would encourage every municipality in Kendall County to start asking for sidewalk repair money.

Motion Gilmour; second Gryder to forward Highway Department bills for the month of July in the amount of $454,185.37 to the Finance Committee for approval.

Meeting adjourned at 4:37 P.M.

Respectfully submitted,

Francis C. Klaas, P.E.

*Kendall County Facilities Management Committee Meeting Minutes – July 3, 2017*
XI. ANIMAL BITES

Policy
Kendall County Animal Control monitors any animal bite to a human that occurs in Kendall County. See 510 ILCS 5/13. The role of Kendall County Animal Control in cases of bites is not to establish blame but rather ensure rabies control as well as public health and safety.

Medical care providers are required by law to submit a bite report to Kendall County Animal Control any time a patient is seen for a bite by an animal that occurs in Kendall County. Id.

Procedure
When a bite report is received, Kendall County Animal Control will contact the victim and owner of the animal (when applicable) to get statements as to what led up to the bite, the location and severity of the injury, and any critical details.

When an owner is identified and the biting animal is a dog or cat, Animal Control will verify whether or not the animal had a current rabies vaccine at the time of the bite. Animal Control will also check its database to determine whether the animal has a bite history.

If the animal was current it will need to be examined by a licensed veterinarian within 24 hours. The animal must then be on 10 day home confinement which means the animal must be supervised by an adult and contained on leash or fence when it goes outside. Interaction with the public during this time should be avoided. The animal will return to the veterinarian at the end of the 10 days to be examined, determined to be free of disease, and microchipped if has not been already, at the expense of the owner.

If the animal was not current it will need to be placed into 10 day confinement within 24 hours at a licensed veterinarian hospital or clinic. At the end of the confinement period, the animal will need to be examined and determined to be free of disease by the veterinarian, inoculated against rabies, if eligible, and microchipped if has not been already, at the expense of the owner.

If the owner chooses, they may have the animal euthanized prior to the 10 day period by a licensed veterinarian and have a specimen sent into the state lab to insure the animal is free of rabies. However, the owner cannot “conceal the whereabouts, euthanize, sell, give away, or otherwise dispose of” the animal until it has been released by the Animal Control Administrator. 510 ILCS 5/13 (a)

Upon completion of the confinement, the veterinarian will submit their findings to Animal Control. Animal Control shall notify the person who was bitten and, in the case of confirmed
rabies in the animal, the attending physician or responsible health agency advising of the clinical
condition of the animal.

Based on the severity and circumstances of the bite, as well as the frequency of bite incidents for
that dog, Animal Control and the Veterinarian Administrator may determine the dog to be
dangerous or vicious per 510 ILCS 5/15 –15.4. Animal Control and the Veterinarian
Administrator may present this determination to the court for disposition. The court will order
the appropriate disposition, which may include euthanasia.

Bite reports and results will be entered into the computer database and paper copies will be filed
by month and year.

If Animal Control is confronted with circumstances that indicate an animal has been bitten by a
rabid animal, it will follow the procedure identified in the Illinois Administrative Code. 8 Ill.
rabies inoculation would compromise an animal's health, then the animal shall be exempt from the rabies inoculation shot requirement, however, the owner is still responsible for the tag fees.

If a bite occurs from an exempt animal, the exempt animal shall be treated as an unvaccinated animal. If the animal is exempt, the animal shall be re-examined by a licensed veterinarian on no less than an annual basis and be vaccinated against rabies as soon as the animal's health permits.

(510 ILCS 5/13) (from Ch. 8, par. 363)
Sec. 13. Dog or other animal bites; observation of animal.
(a) Except as otherwise provided in subsections (b) and (c) of this Section, when the Administrator or, if the Administrator is not a veterinarian, the Deputy Administrator receives information that any person has been bitten by an animal, the Administrator or, if the Administrator is not a veterinarian, the Deputy Administrator, or his or her authorized representative, shall have such dog or other animal confined under the observation of a licensed veterinarian for a period of 10 days. The confinement shall be for a period of not less than 10 days from the date the bite occurred and shall continue until the animal has been examined and released from confinement by a licensed veterinarian. The Administrator, if the Administrator is not a veterinarian, the Deputy Administrator Department may permit such confinement to be reduced to a period of less than 10 days.
(b-5) The owner, or if the owner is unavailable, an agent or caretaker of an animal documented to have bitten a person shall present the animal to a licensed veterinarian within 24 hours. A veterinarian presented with an animal documented to have bitten a person shall make a record of report the clinical condition of the animal immediately, with confirmation in writing to the Administrator or, if the Administrator is not a veterinarian, the Deputy Administrator within 24 hours after the animal is presented for examination, giving the owner's name, address, the date of confinement, the breed, description, age, and sex of the animal, and whether the animal has been spayed or neutered, on appropriate forms approved by the Department. The Administrator or, if the Administrator is not a veterinarian, the Deputy Administrator shall notify the attending physician or responsible health agency. At the end of the confinement period, the animal shall be examined by a licensed veterinarian, inoculated against rabies, if eligible, and microchipped, if the dog or cat has not been already, at the expense of the owner. The veterinarian shall submit a written report listing the owner's name, address, dates of confinement, dates of examination, species, breed, description, age, sex, and microchip number of the animal to the Administrator or, if the Administrator is not a veterinarian, the Deputy Administrator advising him or her of the clinical condition and the final disposition of the animal on appropriate forms approved by the Department. The Administrator shall notify the person who has been bitten, and in the case of confirmed rabies in the animal, the attending physician or responsible health agency advising of the clinical condition of the animal. When evidence is presented that the animal was inoculated against rabies within the time prescribed by law, it shall be confined in a house, or in a manner which
will prohibit it from biting any person for a period of 10
days, if a licensed veterinarian adjudges such confinement
satisfactory. The Department may permit such confinement to be
reduced to a period of less than 10 days. At the end of the
confinement period, the animal shall be examined by a licensed
veterinarian.

(a-10) When the Administrator or, if the Administrator is
not a veterinarian, the Deputy Administrator or his or her
authorized representative receives information that a person
has been bitten by an animal and evidence is presented that the
animal at the time the bite occurred was inoculated against
rabies within the time prescribed by law, the animal may be
confined in a house, or in a manner which will prohibit the
animal from biting a person, if the Administrator, Deputy
Administrator, or his or her authorized representative
determines the confinement satisfactory. The confinement shall
be for a period of not less than 10 days from the date the bite
occurred and shall continue until the animal has been examined
and released from confinement by a licensed veterinarian. The
Administrator or, if the Administrator is not a veterinarian,
the Deputy Administrator may instruct the owner, agent, or
caretaker to have the animal examined by a licensed
veterinarian immediately. The Administrator or, if the
Administrator is not a veterinarian, the Deputy Administrator
may permit the confinement to be reduced to a period of less
than 10 days. At the end of the confinement period, the animal
shall be examined by a licensed veterinarian and microchipped,
if the dog or cat is not already, at the expense of the owner.
The veterinarian shall submit a written report listing the
owner's name, address, dates of examination, species, breed,
description, age, sex, and microchip number of the animal to
the Administrator advising him or her of the clinical condition
and the final disposition of the animal on appropriate forms
approved by the Department. The Administrator shall notify the
person who has been bitten and, in case of confirmed rabies in
the animal, the attending physician or responsible health
agency advising of the clinical condition of the animal.

(a-15) Any person having knowledge that any person has been
bitten by an animal shall notify the Administrator or, if the
Administrator is not a veterinarian, the Deputy Administrator
within 24 hours promptly.

(a-20) It is unlawful for the owner of the animal to
conceal the whereabouts, euthanize, sell, give away, or
otherwise dispose of any animal known to have bitten a person,
until it is examined and released from confinement by the
Administrator or, if the Administrator is not a veterinarian,
the Deputy Administrator, or licensed veterinarian or his or
her authorized representative. It is unlawful for the owner of
the animal to refuse or fail to immediately comply with the
reasonable written or printed instructions made by the
Administrator or, if the Administrator is not a veterinarian,
the Deputy Administrator, or his or her authorized
representative. If such instructions cannot be delivered in
person, they shall be mailed to the owner of the animal by
regular mail. Any expense incurred in the handling of an animal
under this Section and Section 12 shall be borne by the owner.
The owner of a biting animal must also remit to the Department
of Public Health, for deposit into the Pet Population Control
Fund, a $25 public safety fine within 30 days after notice.

(b) When a person has been bitten by a police dog that is
currently vaccinated against rabies, the police dog may continue to perform its duties for the peace officer or law enforcement agency and any period of observation of the police dog may be under the supervision of a peace officer. The supervision shall consist of the dog being locked in a kennel, performing its official duties in a police vehicle, or remaining under the constant supervision of its police handler.

(c) When a person has been bitten by a search and rescue dog that is currently vaccinated against rabies, the search and rescue dog may continue to perform its duties for the handler or owner or agency and any period of observation of the dog may be under the supervision of its handler or owner. The supervision shall consist of the dog being locked in a kennel, performing its official duties in a vehicle, or remaining under the constant supervision of its handler or owner.

NEW BUSINESS - None

PUBLIC COMMENT – None

QUESTIONS FROM THE MEDIA – None

CHAIRMANS REPORT

Chairman Gryder informed the committee about the following:

1. Mr. Gryder stated that Highway Engineer Klaas provided an update on the Millington Bridge situation, and it appears that it will be March 9, 2018 before we will have a letting, so it will be the end of 2018 before the bridge can be built because LaSalle County is using federal funding for their portion of the bridge which requires additional timeframe.

2. Mr. Gryder stated that there was a lengthy discussion on Hideaway Lakes, and that the Law, Justice and Legislation Committee sent a letter to the PBZ Committee requesting that the committee review the Special Use Permit, and there was a meeting on Monday evening with the owner of the facility. Hideaway Lakes has complied with two-thirds of the open violations, and the Health Department plans to re-visit the facility on July 27, 2017, and the PBZ Committee will discuss these findings at their next meeting. Member Davidson stated that the PBZ staff are also planning to revisit the site to evaluate building violations. Mr. Davidson stated that the biggest concerns are the restrictions of the Fire Protection District in entering the property, and locating people without proper signage. Member Hendrix asked if the committee could have an official tour of the property. Mr. Gryder stated they will look into that and report back.

3. Mr. Gryder attended the Northwest Water Planning Alliance meeting on Thursday, with a presentation on Illinois Groundwater Flow Model: New Application Insights for Northern Illinois by Dr. Daniel Abrams, with the Illinois State Waster Survey. One of the primary focuses Dr. Abrams had was on southern Kendall County and Joliet area, where he indicated that currently there are 16 million gallons of water a day from Joliet, and if they dig another well further west, there is a good chance that it will drain the water in southern Kendall
County down to the Arrington Galesville service which basically means that anyone with a well down there will have to dig an additional 1,000 feet further at a tremendous cost, and also require more of a pump to bring water back to the surface. Mr. Gryder stated that we need to have a serious discussion with Kendall, Will, and Joliet (our region) because we are now in a grave situation. We now have a monitoring well on Townhouse Road south of Newark that was installed by the State in 2015, and in the last year or so, there haven’t been any noticeable changes, and there also hasn’t been any tremendous building at this point either. Mr. Gryder stated this is an issue that we need to continue to monitor. One suggestion was to have a well-injection to put water back down there, and there is discussion on the best way to proceed with that corrective procedure, and the need for capital investment.

**From the Highway Committee:** Member Kellogg informed the committee about the proposed Resolution authorizing the use of Eminent Domain to acquire certain parcels of land for roadway purposes along Grove Road from Sherrill Road to U. S. Route 52. Mr. Kellogg stated this would be an authorization to use this resolution during negotiations to provide encouragement to owners to settle. A number of owners have been unresponsive to the County and so it may be necessary to use eminent domain to acquire these parcels. There are a total of 30 parcels to be acquired. Twelve have been acquired, 9 have settled but not closed, and another 9 have been unresponsive. Any action to file suit would be brought back individually to the County Board for approval.

**REVIEW BOARD ACTION ITEMS** – Chairman Gryder asked the committee to review the agenda for any updates or changes.

  PBZ Process – Member Prochaska asked that the committee review the entire process, and possibly streamlining the process so that citizens aren’t answering the same questions for three or four different committees.

  Public Aid Appeals Committee: Member Prochaska explained that committee members are appointed by the local township supervisors, and that the County Board Chair serves on the committee.
Townships – Member Giles asked about the purpose of a township, the committees/boards responsibilities, whether the townships are still needed in the County, and whether townships could be absorbed into the County to remove an additional layer of government. Farmland Protection Commission - Member Prochaska stated that this commission has never met, and doesn’t have any funding. He said its original purpose was to purchase agricultural rights to farmland, and the reason it was created was to follow what Kane County was doing, but Kane County’s Board was funded by the casino.
