FOR IMMEDIATE RELEASE
02/07/18

OUTDOOR WARNING SIRENS IN SOUTHEAST PORTION OF KENDALL COUNTY WERE INADVERTENTLY ACTIVATED.

On February 7th, 2018 at approximately 10:45am the outdoor warning sirens in southeast portion of Kendall County were inadvertently activated. The activation was accidental and not due to an emergency situation. KenCom Public Safety Dispatch is in the process of removing old console radio equipment. The activation of the sirens was triggered during the removal process. We apologize for any inconvenience this may have caused.

While Exelon provides these emergency sirens, they are operated by Kendall County. There are no issues at Exelon’s nuclear facilities.

Kendall County Emergency Management Agency Director Joseph Gillespie reminds all, any time you hear the outdoor warning sirens to go indoors and tune your radio or television station to the local Emergency Alert System (EAS) Station. In Kendall County, when you hear outdoor warning sirens. Please tune to our local Emergency Alert System (EAS) station for further information. The Primary EAS station for Kendall County is WSPY-107.1
