Chairman Bill Ashton called the meeting to order at 7:00 pm.

ROLL CALL  
Members Present: Bill Ashton, Claire Wilson (arrived at 7:02 pm), Tom Casey, Budd Wormley, Larry Nelson, Roger Bledsoe, and Angela Zubko  
Staff present: John Sterrett, Senior Planner  
Members Absent: John Shaw and Vern Poppen  
In the Audience: Robert Schneider; Attorney Dan Kramer; Suzanne Casey

APPROVAL OF AGENDA  
Ms. Zubko made a motion, seconded by Mr. Nelson, to approve the agenda with continuing petition 16-14 Robert Delaney to the September Plan Commission meeting at the request of the petitioner. With a voice vote of all ayes, the motion carried.

APPROVAL OF MINUTES  
Ms. Zubko made a motion, seconded by Ms. Wilson, to approve the July 27, 2016 with amending the time of adjournment to 9:59 pm. With a voice vote of all ayes, the motion carried.

PETITIONS  
16-18 LRMP Amendment  
The Kendall County Planning, Building, and Zoning Department was approached by a property owner located at the northwest corner of State Route 31 and Light Road regarding a proposed expansion of an existing indoor self-service storage facility. The expansion would consist of the construction of a 8,400sf self-service storage building as well as a proposed outdoor storage area. The existing facility is zoned as B-2 (General Business) with a special use to operate the indoor self-service storage facility. The special use was granted for the indoor self-service storage facility in 1976. The parcel immediately to the south of the existing facility, where the expansion is proposed, is zoned as B-1 (Local Shopping). The B-1 district does not permit indoor self-service storage facilities nor does it allow outdoor storage either by right or by special use. The B-2 district allows for an indoor self-service storage facility as a conditional use and allows for outdoor storage as a special use. The property owner therefore will need to seek a rezoning of the current B-1 zoned property to B-2 for this expansion.

When reviewing proposed zoning map amendments, the County’s Land Use Plan is taken into consideration to determine the proper zoning and uses for a specific area. The County’s Land Use Plan currently identifies the subject area at the northwest corner of State Route 31 and Light Road as suburban residential (max density 1.00 du/acre). The existing zoning in the subject area consists of a mix of commercial zoning: B-1 (Local Shopping), B-2 (General Business), B-3 (Highway Commercial) with the existing uses of a gas station, a commercial strip mall, the self-service storage facility, a decommissioned water treatment facility, and stormwater detention facilities to serve these commercial uses. The area totals 10.5 acres.
Staff is of the opinion that given the existing zoning classifications and existing commercial uses in this area that the County’s Land Use plan be amended to reflect commercial development for consistency with existing zoning and uses.

Mr. Nelson made a motion, seconded by Ms. Zubko, to open the public hearing.

No Comments from the public.

M. Nelson made a motion, seconded by Ms. Zubko, to close the public hearing.

Mr. Nelson made a motion, seconded by Ms. Wilson, to approve the LRMP Amendment. With a voice vote of all ayes, the motion carried.

**16-20 – Stor-Mor, Inc. – Zoning Map Amendment – B-1 to B-2**

Mr. Sterrett outlined the request for a zoning map amendment for the property at 1317 Route 31 in Oswego Township. Stor Mor Inc is requesting a zoning map amendment to rezone the 3.2 acre property from B-1 to B-2 to allow for an expansion of the enclosed self service storage facility and to allow outdoor storage. The county’s Land Use Plan identifies this area as Suburban Residential. A rezoning of this property will require an amendment to the County’s Land Use Plan to allow for commercial development. The County’s Regional Plan Commission discussed this potential change at their June and July meetings and will hold a public hearing on the amendment in August. The existing zoning classifications and land uses in the area are consistent with a commercial category and would benefit from a change in the land use plan to accommodate any future commercial redevelopment at the intersection.

Mr. Nelson made a motion, seconded by Ms. Zubko, to recommend approval of the zoning map amendment.

Mr. Sterrett called the roll. With all present members voting aye, the motion carried.

**16-20 – Stor-Mor, Inc. – B-2 Special Use – Outdoor Storage and Enclosed Self-Service Storage**

Mr. Sterrett outlined the request for a special use for an outdoor storage as well as enclosed self-service storage for the property at 1317 Route 31 in Oswego Township. Stor Mor Inc intends to construct a 8,400sf enclosed self-storage facility just south of the three existing buildings. In addition to this enclosed structure, twenty-nine (29) angled parking stalls are proposed for RV storage outdoors. Staff notes that the drive aisle leading to twelve (12) of these parking stalls is a dead end and the angled parking stalls will require any vehicle stored to be backed out completely down the access aisle. Prior to construction, approval from the Oswego Fire Protection District should be received that this dead end access drive will not require a turnaround for emergency vehicles.

To address the screening of the outdoor storage area from adjacent properties, the petitioner is proposing to install emerald green arborvitae along the south and west property line. Evergreen trees along a portion of the east property line will be installed to screen from State Route 31. The storage area will be completely fenced in. The petitioner has indicated that no vehicle will be accepted to store on site that is not in working condition. The hours of operation would remain the same as they are currently for the existing self-service storage facility which has office hours of 8:00am to 5:00pm and gate hours of 7:00am to 7:00pm.

If the Land Use plan is amended to commercial for the subject parcel and immediately surrounding properties and approval is granted for the zoning map amendment request from B-1 to B-2, staff recommends the following conditions be placed on the controlling ordinance for the special use:

1. The property will be developed in accordance with the site plan
2. A building permit shall be secured prior to construction of the proposed storage building
A stormwater management permit shall be secured prior to the development of the property. The outdoor storage and expansion of the enclosed self-service storage facility shall be effectively screened from adjacent properties. Office hours of operation shall be limited to 8:00am to 5:00pm and gate hours of operation shall be limited to 7:00am to 7:00pm. No more than twenty-nine (29) vehicles may be stored on site at a time. All vehicles stored on site shall be located within a designated stall. All lighting shall comply with Section 11 of the Kendall County Zoning Ordinance.

Ms. Zubko made a motion, seconded by Mr. Bledsoe, to recommend approval of the special use request with staff’s recommendations subject to submittal of a revised landscape plan. Mr. Sterrett called the roll. With all present members voting aye, the motion carried.

16-21 – High Grove Subdivision – Zoning Map Amendment – RPD-2 to R-2

Mr. Casey informed Chairman Ashton that he will recuse himself from discussion on this petition. Mr. Sterrett outlined the request for a zoning map amendment for the property on the west side of Grove Road, approximately 1 mile north of Route 52 in Seward Township. The petitioners, Tom and Suzanne Casey, are requesting a zoning map amendment to rezone the 9.9 acres from RPD-2 to R-2. The County Land Use Plan identifies this area as Rural Residential with a maximum density of 0.65 dwelling units per acre. With a proposed four (4) lot subdivision, the property will have a density of 0.40 dwelling units per acre. This is less than the proposed density of the original 48 lot development on the 109 acre tract of land. The Village of Plattville’s Comprehensive Plan identifies this area as low density residential with a maximum density equivalent to the County of 0.65 dwelling units per acre. The City of Joliet identifies this area as residential with a maximum density of 2.5 dwelling units per acre. The property was originally approved in 2006 as a 48 lot single family home subdivision with lots of open space on an overall 109 acre tract of land. The final plat of subdivision was not recorded thus voiding the approval. Since that time the Joliet Park District has acquired 97 of the 109 acres from the petitioners. Of the remaining 12 acres from the original development, the petitioner is requesting to rezone 9.9 acres to R-2 Single-family Residential.

Mr. Nelson made a motion, seconded by Ms. Zubko, to recommend approval of the zoning map amendment. Mr. Sterrett called the roll. With all present members voting aye, the motion carried.

16-21 – High Grove Subdivision – Preliminary and Final Plat of Subdivision

Mr. Casey informed Chairman Ashton that he will recuse himself from discussion on this petition. Mr. Sterrett explained that the petitioner’s have contemporaneously submitted a Preliminary and Final Plat for a four (4) lot subdivision. Each of the four lots has a lot size of 94,207 square feet. These lot sizes meet the minimum lot size requirement of 90,000 square feet of the R-2 district. Grove Road currently has a seventy (70) foot right-of-way. As a major collector roadway, 120’ of right-of-way is required. An additional fifteen (15) feet of ROW will be dedicated on the west side of Grove Road for future widening as well as a no access strip easement along lots 1 and 2 and the 2.1 acres north of the proposed development. The four (4) lots are proposed to be served by a private road within proposed lot 5 having a width of 40’. It is staff’s understanding that the private road has an easement for ingress and egress granted to the Joliet Park District for access to a future park site. Attorney Dan Kramer, representing the petitioner’s, stated that the Joliet Park District will construct and maintain the drive.
The Preliminary and Final Plat include the location and orientation of septic system envelopes on each individual residential lot as well as the location of well envelopes on each individual residential lot. Soil classifications are currently being reviewed by the Health Department.

Ms. Zubko made a motion, seconded by Ms. Wilson, to recommend approval of the preliminary and final plat of subdivision. With a voice vote of all ayes, the motion carried.

**OLD BUSINESS**

PHYSICAL DATA
The property generally drains north to south towards Little Rock Creek. The land is fairly gently sloping near Frazier Road, and a significant drop in topography occurs along the heavily wooded creek bluff near the limits of the subject site. A double row of evergreen trees has recently been planted along both Creek Road and Frasier Road which will provide a significant buffer once the trees mature.

ENDANGERED SPECIES REPORT
No Endangered or Threatened Species have been identified in the vicinity of the project area. (EcoCat report attached)

NATURAL RESOURCES INVENTORY
None received.
ACTION SUMMARY

LITTLE ROCK TOWNSHIP
Little Rock Township reviewed the proposal at both the Zoning Board and Township Board levels, and both voted unanimously to support the petition. The Township Road Commissioner, Richard Wade Jr., was present at both meetings, and was also in favor of the request and was comfortable with the proposed access points and circulation.

CITY OF PLANO
Petition information was sent to the City of Plano 8.24.16, and the City responded that they saw no problem with the proposed development.

LITTLE ROCK/FOX FIRE PROTECTION DISTRICT
LRFFPD has no objections as long as the roadways are ‘commercial’ in nature and maintain turning radiiuses suitable for standard straight trucks.

ZPAC
The project was reviewed at the September 6th. The project was recommended to move forward, with a request for submission of a concept plan (which was done and is included in this packet). The Health Department suggested the applicant should work closely with them to address septic system requirements early on to avoid potential problems. The need for a variance from the parking setback requirements was identified, and the application was amended to include that request.

Oblique View Looking North
GENERAL
The L&P Nelson Trust #103 is requesting an A-1 Special Use to operate a U-Pick Orchard offering commodities grown on and off the site, food produced from the commodities along with other food and refreshments, entertainment and activities will also be provided. Specific uses will include a banquet hall, a micro distillery, a nano-brewery, production and sale of sweet cider, and a year-round seasonal festival. As these special uses are addressed under different sections of the code, each is listed separately below, along with their conditions.

The Land Resource Management Plan was amended in 2015 to show commercial use along the south side of Creek Road between Little Rock Road and Frazier Road. While the proposed uses clearly have an agricultural theme, they also are clearly commercial in nature and will attract commercial traffic – particularly during seasonal events or for functions at the proposed banquet facility. As illustrated on the right, traffic is relatively light on surrounding roads today, with an Average Daily Traffic (ADT) of 1,550 on Creek Road and 1,300 ADT on Frazier Road. There is clearly capacity on the local roads to accommodate additional traffic. To-date, several barn-like structures have been (re) constructed on the property, as well as an improved access drive from Creek Road. Five-hundred apple trees have been planted to-date, with another 4,500 trees planned to be added in Spring, 2017.

At our request, the applicant has provided a conceptual plan to show the general layout of proposed activities. The circulation plan is for cars to enter from Creek Road and exit onto Frazier Road. This approach has been reviewed and approved by the Little Rock Township Road commissioner, who has jurisdiction over these roadways. The applicant noted in their ZPAC presentation that what they are planning is similar to the Kuiper’s Family Farm near Maple Park - http://www.kuipersfamilyfarm.com/. Activities planned for Cider Creek include apple picking, a pumpkin patch, a store and bakery, kids activities such as a petting zoo and train, and a cider mill with a nano-brewery and micro-distillery. A banquet facility is also planned in the future. Build-out is anticipated to take several years, with the orchard and cider mill coming first (Spring, 2017), followed by the store latter in 2017 and the banquet facility in 2018.

The zoning code has a number of conditions outlined for each of the requested special uses, and these are summarized on the following pages.

Banquet Hall
Banquet Halls are permitted subject to the following conditions:

### Production and Sale of Sweet Cider

Production and sale of sweet cider, hard cider, wine, jams, wine jams, jellies, pies, pickles, honey, sauces and similar items utilizing crops grown on the same property or in combination with crops grown off-site where such production takes place on the premises is permitted as a special use subject to the following conditions:
### Condition

The tasting of and wholesale or retail sale of items produced on site as well as the sales of ancillary items and products related to crops and products produced on site shall be permitted provided all required licenses and permits have been secured.

A condition should require appropriate licenses and permits.

The total retail sales area on site within any building or combination of buildings shall not exceed one thousand (1,000) square feet. Said sales areas shall be set back at least ninety (90) feet from the center line of all adjacent roads with off-street parking for a minimum of five (5) cars.

The applicant has requested the ability to have a larger retail sales area, although a specific size has not yet been provided. The proposed location for the retail sales building far exceeds the setback requirement.

**HEALTH CODES**
The petitioner has not provided details for any of the proposed uses. These items must be evaluated and permitted through the Kendall County Health Department prior to construction.

**BUILDING CODES**
Any future buildings will need to be evaluated by the Building Department for determination of any required building permits.

**ACCESS**
The property is at the corner of Creek Road and Frazier Road. A concept plan has been submitted showing an entrance from Creek Road and an exit onto Frazier Road. The existing access location has been approved by the Township Road Commissioner, and appears well located given topography and sight lines.

**PARKING**
As the plans are conceptual at this point, specific parking requirements are difficult to calculate. However, the concept plan shows three sizable areas for parking. The smaller area by the cider mill could potentially accommodate in the range of 50 cars, and the main and overflow lots could – based on their area, accommodate well over 1,000 cars.

**LIGHTING**
No information has been provided regarding proposed lighting.

**SIGNAGE**
No information has been provided regarding proposed signage.

**PUBLIC COMMENTS**
Mr. and Mrs. Scott Francis Cosentino of 2490 Creek Road have submitted a letter in opposition to the project. One other resident came into the office to review the application, and stated they may attend the meetings and hearings, but provided no formal comment.

**RECOMMENDATION**
The proposed uses are consistent with the LRMP, will help to celebrate the agricultural heritage of Kendall County, and is a clear positive from an economic development perspective drawing visitors and tourists from throughout the region. At this time, the nearest neighbors are over a ½ mile away,
and the site has a significant landscape buffer planted to provide screening should additional development occur in the area. Given these factors, we recommend approval subject to the following conditions:

1. The property shall be developed in substantial compliance with the submitted concept plan
2. The maximum number of patrons for events shall be limited to 225, including any vendors working on the property for an event.
3. All events shall end no later than 12:00am
4. Lighting shall comply with Section 11 02.F.12 of the Zoning Ordinance
5. Parking reserved for ADA accessibility shall be marked and constructed with a hard surface adjacent to the proposed retail store/bakery
6. Any food prepared or sold on site, shall conform to the regulations of the Kendall County Health
7. Retail sales are permitted provided that the retail sales will be ancillary to the main operation. Such sales may occur year around.
8. Noise generated on-site shall comply with the following:
   a. Please fill out the following findings of fact to the best of your capabilities. § 13.07.F of the Zoning Ordinance lists the Finding of Fact criteria the Zoning Board of Appeals must answer in order to make a recommendation to the County Board on any map amendment request. They are as follows:

Existing uses of property within the general area of the property in question.

Ag - Ag wholesale sales, transportation, commercial, school

The Zoning classification of property within the general area of the property in question.

Ag, commercial, residential

The suitability of the property in question for the uses permitted under the existing zoning classification.

The requested A-SU is within the existing zoning classification A-1

The trend of development, if any, in the general area of the property in question, including changes, if any, which may have taken place since the day the property in question was in its present zoning classification. The Zoning Board of Appeals shall not recommend the adoption of a proposed amendment unless it finds that the adoption of such an amendment is in the public interest and is not solely for the interest of the applicant. The Zoning Board of Appeals may recommend the adoption of an amendment changing the zoning classification of the property in question to any higher classification than that requested by the applicant. For the purpose of this paragraph the R-1 District shall be considered the highest classification and the M-2 District shall be considered the lowest classification.

The trend of development has been for A to Business and Residential including the Plano high school campus and a Business node just south adjoining the property.

Consistency with the purpose and objectives of the Land Resource Management Plan and other adopted County or municipal plans and policies.

The LRMP of Kendall County shows much of the 45 acres as Commercial/Business.
Cider Creek

Cider Creek will be developed over a number of years as a hybrid use of agriculture, entertainment, food and family fun. Typically known as a U Pick Orchard, offering commodities grown on and off the site, food produced from the commodities along with other food and refreshments, entertainment and activities will also be provided.

We are requesting A-1 SU of the 45 acre parcel in the application to Permit Section 7.01 D – Ag Special Uses Permitted; D-10 Banquet Halls, D-29 Micro Distillery; D-30 Nano Breweries; and D-42 (which is labeled as 32 (duplicated)) Production and sale of sweet cider (with the restriction of “Total retail area not to exceed 1,000 square feet” removed) and “E Conditional Use” as provided in JXV – to be a year round usage and removing restrictions IV, IX, X, XI.

Additionally, we are requesting a variance from the requirement the facility be located on a major collector or arterial roadway and if needed a variance removing restrictions on D-42 “retail area not to exceed 1,000 sq feet”, and the restriction on “E Conditional Use” J to be year round usage and removing restrictions IV, IX, X, XI.

Note: Cider Creek is a dba of The Bluffs, Inc., an Illinois corporation owned by the Nelson family.

Re: Proposed Athletic Fields by Parkview Christian Academy

Parkview Christian Academy has inquired about the potential to seek an A-1 Special Use for Athletic Fields on a property on the west side of Route 47, north of Ament Road (see location map below). The property is just south of the IDOT facility, and contains 18.2 acres. It is currently part of a larger parcel owned by the Hiller Family Limited Partnership and totaling 98.6 acres (PIN #05-16-100-014). It is current zoned A-1.
The Land Resource Management Plan shows the property as commercial. I believe the intent of the plan was to see some commercial development along Route 47, likely uses similar to what currently exists to the north (Grainco FS, or office uses like the Kendall County Ag Extension office), or potentially more retail uses – particularly near the Ament/Route 47 intersection. However, the County does have a Commercial Recreation Zoning District (B-4) which lists Non-Profit recreational facilities and related uses as a permitted use.

Kendall County LRMP Future Land Use Plan

Prior to proceeding with a formal application, I suggested the applicant might want to seek an informal review of the proposal by the KCRPC to get initial feedback on their proposal. Specific questions would be:

1. Is this use consistent with your overall vision for the area?
2. If yes, what would be the preferred zoning approach?
   a. Rezone to B-4 Commercial Recreation
   b. Seek a Special Use within the existing A-1 District for Athletic Fields

A representative from Parkview Christian Academy will be at the meeting to provide a brief presentation and answer any questions.
