MINUTES
KENDALL COUNTY
ZONING BOARD OF APPEALS MEETING
111 WEST FOX STREET, Room 209 and 210
YORKVILLE, IL 60560
April 2, 2018 – 7:00 p.m.

CALL TO ORDER
Chairman Randy Mohr called the Zoning Board of Appeals meeting to order at 7:01 p.m.

ROLL CALL
Members Present: Scott Cherry, Karen Clementi, Tom LeCuyer, Randy Mohr, Dick Thompson, and One Vacancy
Members Absent: Dick Whitfield
Staff Present: Matthew Asselmeier, AICP, Senior Planner
Public: Robert Davidson, Dan Kramer, Barry Niles, Nick Porter, Russ Ginn, Steven Huey, and Jason Engberg

MINUTES
Ms. Clementi, seconded by Mr. Cherry, moved to approve the January 29, 2018, meeting minutes. With a voice vote of all ayes, the motion was approved.

PETITIONS
At this time Chairman Mohr swore in those members of the public that wished to speak on the petitions.

The Zoning Board of Appeals started their review of Petition 18-05 at 7:02 p.m.

18 – 05 – Keith and Kathleen Warpinski
Request: Map Amendment Rezoning Subject Property from A-1 to R-1
PIN: 05-21-400-011
Location: North Side of Walker Road Approximately 0.31 miles east of Route 47, Kendall Township
Purpose: Petitioner would like the Ability to Construct a Single-Family Home on the Property.

Mr. Asselmeier summarized the request. The Petitioners desire a map amendment in order to be able to construct a house on the property.

ZPAC reviewed the proposal on March 6th and unanimously recommended approval.

The Kendall Township Planning Commission and Kendall Township Board reviewed the proposal in February and recommended denial. Kendall Township will not be submitting a formal objection.

The United City of Yorkville’s Planning and Zoning Commission met on March 14th and recommended approval. The United City of Yorkville’s City Council met on March 27th and did not have any objections.

The Kendall County Regional Planning Commission reviewed this proposal on March 28th and unanimously recommended approval.
Mr. Asselmeier noted that the certificate of publication and green cards were on file in the Planning, Building and Zoning Department Office.

Mr. LeCuyer made a motion, seconded by Mr. Cherry, to open the public hearing. With a voice vote of all ayes, the motion carried. Chairman Mohr opened the public hearing at 7:07 p.m.

Dan Kramer, attorney for the Petitioners, agreed with the information contained in the Staff Report. Mr. Kramer noted that the Petitioners planted trees on the northern portion of the property. A one hundred (100) year flood mark is located south of the trees. Mr. Kramer stated that an easement would be placed on the property noting the location of future trails along the northern and southern portions of the property. A new house would have no difficulty meeting the setback requirements and avoiding the pipeline on the property. Mr. Kramer stated that the Kendall Township Planning Commission met on this proposal; this was the first time that the Kendall Township Planning Commission had met in several years. The opinion of the Kendall Township Planning Commission was they did not want additional houses in the area.

Mr. Cherry asked if the Petitioners intended to build a house at the site for themselves. Mr. Kramer responded that the Petitioners already owned a house and they are trying to sell the property. Mr. Cherry asked if the property would be worth more money if it was rezoned. Mr. Kramer responded that the property would be worth more money and would be usable for residential instead of agricultural uses.

Mr. Davidson asked how all of the neighboring houses were constructed and property was divided after providing a history of the property owners in the area. Mr. Kramer explained that all of the nearby properties are zoned A-1; the subject property is the only property to ask for a map amendment to R-1. Mr. Kramer explained the evolution of the forty (40) acre rule. Mr. Asselmeier explained the Plat Act exemptions that allow for five (5) acre divisions of land and the transferring of land between adjoining property owners without going through the subdivision process. The parcel immediately west of the subject property is a flag lot with the wide portion located on the Walker Road side of the property. The flag lot could not be built upon without a map amendment. Mr. Davidson expressed concerns that, by rezoning the subject property, the adjoining properties could also be rezoned. The lots surrounding the subject property could not be divided easily without a subdivision.

Chairman Mohr asked why the Petitioners chose the map amendment request instead of an A-1 Building Permit request. Mr. Kramer responded that the notification and publication requirements for a map amendment were stricter than the notification requirements for an A-1 Building Permit. Mr. Kramer also noted that the County Board favored a map amendment over an A-1 Building Permit in a similar case in 2017. Mr. Asselmeier also noted that people could use the five (5) acre and transferring property to adjoining owners exemptions in the Plat Act to get around the forty (40) acre rule. Mr. Asselmeier stated that Staff recommends rezoning for the surrounding parcels to R-1 to comply with the Land Resource Management Plan.

Mr. Davidson expressed a desire to have uniformity of zoning in area when a municipality annexes land in the area.

Chairman Mohr adjourned the public hearing on this matter at 7:23 p.m.

Mr. Davidson expressed concerns about the creation flag lots in the area.
Ms. Clementi made a motion, seconded by Mr. LeCuyer, to approve the Finding of Fact as presented.

The votes were as follows:

Ayes (5): Cherry, Clementi, LeCuyer, Mohr, and Thompson
Nays (0): None
Absent (1): Whitfield

The motion passed.

Mr. LeCuyer, seconded by Mr. Thompson, made a motion to recommend approval of the map amendment as proposed.

The votes were as follows:

Ayes (5): Cherry, Clementi, LeCuyer, Mohr, and Thompson
Nays (0): None
Absent (1): Whitfield

The motion passed. Kendall Township will be notified of the Board’s recommendation. This matter will go to the Kendall County Planning, Building and Zoning Committee on April 9th.

The Zoning Board of Appeals concluded review of Petition 18-05 at 7:24 p.m.

Petition 18-07
Petition 18-07 was referred to the Planning, Building and Zoning Committee by the Kendall County Regional Planning Commission.

The Zoning Board of Appeals started their review of Petition 18-08 at 7:28 p.m.

18 – 08 – Helmar Lutheran Church
Request: Variance Request from Section 7.01.G.2.a of the Kendall County Zoning Ordinance
Reducing the Rear Yard Setback from 50 Feet to 30 Feet at the Subject Property;
Property is Zoned A-1
PIN: 05-31-300-002
Location: 11951 Lisbon Road, Newark, Kendall Township
Purpose: Requested Variance to Allow Construction of an Attached Garage.

Mr. Asselmeier summarized the request.

Helmar Lutheran Church is requesting a variance in order to construct an attached garage thirty feet (30’) from the eastern property line of their property. The existing garage and breezeway will be removed.

Staff recommended approval of the proposal with the conditions that the Petitioner develop the site in accordance with the submitted site plan and that the Petitioner secure all applicable permits prior to the construction and use of the proposed attached garage.
Mr. Asselmeier noted that the certificate of publication and green cards were on file in the Planning, Building and Zoning Department Office.

Chairman Mohr asked about the septic system. Mr. Davidson stated that the septic needs to be relocated and is currently under review by the Health Department. The septic tank is only for the house.

Mr. Thompson made a motion, seconded by Mr. Cherry, to open the public hearing. With a voice vote of all ayes, the motion carried. Chairman Mohr opened the public hearing at 7:34 p.m.

Barry Niles, representing the Petitioner, stated that the house was built in the 1951. The existing garage is inadequate for today’s vehicle sizes. If the garage is constructed as proposed, the garage would be located approximately thirty-two feet (32’) from the property line. The Petitioner is working with the property owner to the east to formal convey land on the north and east side of the Petitioner’s property. The Petitioner’s leased the property from the adjoining property owner for fifty (50) years and they are working with the neighbor to resolve the matter. If the variance is granted and the land is not conveyed, the Petitioner would either need to secure another variance or they would be unable to build the garage as proposed.

Mr. Davidson asked when the land would be deeded to the Petitioner. Mr. Niles responded within the next two to three (2-3) weeks.

Chairman Mohr adjourned the public hearing on this matter at 7:40 p.m.

Mr. LeCuyer made a motion, seconded by Mr. Cherry, to approve the Finding of Fact as presented.

The votes were as follows:

Ayes (5): Cherry, Clementi, LeCuyer, Mohr, and Thompson
Nays (0): None
Absent (1): Whitfield

The motion passed.

Ms. Clementi, seconded by Mr. Thompson, made a motion to approve the variance as requested.

The votes were as follows:

Ayes (5): Cherry, Clementi, LeCuyer, Mohr, and Thompson
Nays (0): None
Absent (1): Whitfield

The motion passed. Kendall Township will be notified of the Board’s decision.

The Zoning Board of Appeals concluded review of Petition 18-08 at 7:41 p.m.

The Zoning Board of Appeals started their review of Petition 18-10 at 7:42 p.m.

18-10 – LaSalle National Trust #47016 Represented by Drew Daniels
Request: Variance Request from Section 4.19.2.b of the Kendall County Zoning Ordinance Reducing the Distance Requirement from 1000 Feet to 318 Feet Between An Occupied Principal Structure and a Temporary Concrete Ready-Mix or Asphalt Plant; Property is Zoned A-1

PINs: 02-30-200-023, 02-19-400-009, and 02-19-400-010

Location: 11443 U.S. Route 34, Yorkville, Kendall Township

Purpose: Request to Allow Polte Construction, Inc. to Operate a Temporary Concrete Plant at the Subject Property, Pending Approval of a Temporary Use Permit by the Kendall County Planning, Building and Zoning Committee, 318 Feet from the Nearest Occupied Principal Structure for Work Associated with the U.S. 34 Widening Project.

Mr. Asselmeier summarized the request.

The LaSalle National Trust #47016 owns three (3) parcels of the property on the north side of U.S. Route 34 across the street from the Fox Hill Subdivision. Plote Construction Company was awarded the Illinois Department of Transportation, U.S. Route 34 Reconstruction and Widening Project. Plote Construction Company desires to use a portion of the property owned by the LaSalle National Trust #47016 for an onsite concrete plant. At its closest point, the proposed facility will be three hundred eighteen feet (318') from the nearest occupied principal structure.

In addition to the requested variance, the proposal also requires a temporary use permit from the Kendall County Planning, Building and Zoning Committee.

Staff recommended approval of the requested variance subject to the following conditions:

1. The site shall be developed in accordance with the attached site plan.
2. The Petitioner shall resolve all outstanding alleged Zoning Ordinance violations prior to the commencement of operations.
3. The Petitioner shall secure all applicable permits prior to the construction and use of the proposed plant.
4. The Petitioner shall comply with any restrictions or conditions imposed as part of the temporary use permit.
5. The variance allowed by this Variance Ordinance shall expire at the same time as the temporary use permit expires.

Bristol Township has not submitted comments on the proposal.

The United City of Yorkville expressed no opposition to the proposal.

Mr. Asselmeier noted that the certificate of publication and green cards were on file in the Planning, Building and Zoning Department Office.

Ms. Clementi asked if the three point five foot (3.5') barrier wall had any noise protection. Mr. Asselmeier responded that the small barrier wall will not have much noise protection. The barrier wall on the south side of U.S. Route 34 will not be constructed until November. Ms. Clementi asked about the decibel level of the concrete crushing operations. Mr. Asselmeier did not have any information on the noise level of the proposed operation.
Chairman Mohr asked if the one thousand foot (1,000') setback was something the County created or if it is an industry practice. Mr. Asselmeier responded that he was unaware of how that distance was calculated.

Mr. Davidson discussed a concrete plant operation for work related to Route 47 that occurred in the 1990s. He had not objections to the proposal.

Ms. Clementi made a motion, seconded by Mr. Cherry, to open the public hearing. With a voice vote of all ayes, the motion carried. Chairman Mohr opened the public hearing at 7:58 p.m.

Steve Huey, 1519 Cottonwood Trail, Yorkville, lives south of the subject property. He requested clarification on where the three hundred eighteen feet (318') would be measured. Mr. Huey would like the variance be denied because he believes that Plote Construction Company has plenty of room to the north side of the property. Mr. Huey expressed concerns about the noise level. He would like the noise wall be at least fifteen feet (15') in height. Mr. Huey has lived in the area since the mid-1990s. The wall is not under the jurisdiction of Kendall County. Mr. Huey showed Ms. Clementi the location of his house on the aerial. Mr. Huey discussed the removal of several trees, bushes, and subdivision signs. The houses at 11443 U.S. Route 34 had asbestos. The three hundred eighteen feet (318') distance is to the batch plant. The stockpile is closer than three hundred eighteen feet (318').

Nick Porter, representing Plote Construction Company, stated his desire to have the plant close to the construction site. They are trying to lessen the footprint of the trucking routes. He hopes to get the project completed faster by having the plant at this location and the concrete will be a better product. If the variance is not awarded, Plote Construction Company would have to crush the concrete inside the work zone. They will start construction of the noise wall as soon as possible. Dust will be monitored closely by OSHA.

Mr. Davidson asked if a temporary turn lane would be installed on U.S. Route 34. Mr. Porter stated that no way exists to widen the existing turn lane. They will have proper signage and flaggers. No staging of trucks on U.S. Route 34 will occur.

Mr. Porter said that the project is from Center Road to Eldamain Road.

Mr. Porter said that they will try to push the plant further north.

Chairman Mohr asked about mud going onto U.S. Route 34. Mr. Porter said that Plote Construction Company will spread the site with asphalt grindings to prevent dirt from going onto U.S. Route 34.

Mr. Porter said that the Petitioner’s intent is to turn the land into corn field after the construction project is completed.

Plote Construction Company is not demolishing the structures; the property owner is responsible for the removal of those structures.

Mr. Porter stated that Plote Construction Company has the specs for the concrete crusher, but the specs do not have the noise ratings.
Mr. Porter stated that the concrete would be stockpiled on the northeast corner of the property. The concrete plant would not be installed until August.

Chairman Mohr expressed concerns about the hours of operation of Monday-Friday from 7:00 a.m. until 5:30 p.m. Chairman Mohr believed that 7:00 a.m. was too early to start crushing. The consensus of the Board was that traffic congestion already exists.

Russ Ginn, Plote Construction Company, stated that the crusher will be on the north end of the property and additional construction noise will exist onsite. Neighbors will not be able to distinguish the crusher from other construction noise. Mr. Ginn explained dust control on other projects around O’Hare Airport. He noted that noise walls reflect sound; the north side of U.S. Route 34 will be noisier than the south side of U.S. Route 34. The project has an EPA permit.

Mr. Porter noted that lane closures should not be needed after the installation of temporary pavement.

If the variance is denied, Plote Construction Company would crush in the right-of-way which would be closer to the nearby houses.

Jason Engberg, Senior Planner, United City of Yorkville, said that the Yorkville Economic Development Committee, Planning and Zoning Commission, and City Council reviewed the proposal and expressed no objection to the proposal. The United City of Yorkville favored the variance because the crushing operations would be further away from homes and because the existing structures on the site would be demolished. Mr. Engberg indicated that the United City of Yorkville might get to pick the color of the sound wall.

Chairman Mohr adjourned the public hearing on this matter at 8:25 p.m.

Mr. LeCuyer made a motion, seconded by Mr. Cherry, to approve the Finding of Fact as presented.

The votes were as follows:

Ayes (5): Cherry, Clementi, LeCuyer, Mohr, and Thompson
Nays (0): None
Absent (1): Whitfield

The motion passed.

Mr. Cherry requested that top soil be hauled onto the property to return the property to an agricultural use.

Ms. Clementi suggested a condition limiting concrete crushing until after 8:30 a.m. until the noise wall is construction. Discussion occurred about the employment costs of implementing this requirement. This restriction was not added to the variance.

Mr. Thompson, seconded by Mr. LeCuyer, made a motion to approve the variance as requested with conditions recommended by Staff and with the requirement that between six inches (6”) and twelve inches (12”) of top soil be hauled onto the concrete crushing area upon conclusion of operations.
The votes were as follows:

Ayes (5): Cherry, Clementi, LeCuyer, Mohr, and Thompson
Nays (0): None
Absent (1): Whitfield

The motion passed. Bristol Township will be notified of the Board’s decision. The temporary use permit request will go the Planning, Building and Zoning Committee on April 9th.

The Zoning Board of Appeals concluded review of Petition 18-10 at 8:35 p.m.

NEW BUSINESS/OLD BUSINESS
Selection of Acting Chairman
Without objection, Ms. Clementi was selected as Acting Chairman.

Selection of Secretary
Without objection, Mr. Asselmeier was selected as Secretary.

Update on Proposed Changes to Future Land Use Map for Land Along Route 47 in Lisbon Township
Mr. Asselmeier provided an update on the proposed changes to the Future Land Use Map in this area and that the protection for the Prairie Parkway centerline was removed by the Illinois Department of Transportation. At last meeting of the Comprehensive Land Plan and Ordinance Committee, a mixed use business area was added west of the intersection of Routes 47 and 52 and would curve southwest towards the Village of Lisbon. This mixed use business area is already on the future land use map of the Village of Lisbon. Several property owners voiced their opposition to changing the future land use map in Lisbon Township when the Comprehensive Land Plan and Ordinance Committee met in Plattville in February.

REVIEW OF PETITIONS THAT WENT TO THE COUNTY BOARD
Mr. Asselmeier reported that Petition 17-33 transferring certain powers and duties from the Hearing Officer to the Zoning Board of Appeals passed at the County Board. Due to the passing of the text amendment, at the next Zoning Board of Appeals meeting, there will be nominations for amendments to the Board’s bylaws.

Mr. Asselmeier reported that Petition 17-29 regarding the notification requirements for special use permits in the A-1 District was reviewed by the Committee of the Whole and sent back to the Planning, Building and Zoning Committee for additional review.

PUBLIC COMMENT
None

Mr. Asselmeier reported a variance request in Boulder Hill will be coming before the Board on April 30th. A proposed change to the duties of ZPAC and the Kendall County Regional Planning Commission will be on the agenda. A proposed text amendment related to solar panel regulations will also potentially come before the Board on April 30th.

ADJOURNMENT OF THE ZONING BOARD OF APPEALS
Mr. Cherry, seconded by Ms. Clementi made a motion to adjourn. By voice vote of all ayes, the motion passed unanimously. The Zoning Board of Appeals meeting adjourned at 8:50 p.m.
Respectfully submitted by,
Matthew H. Asselmeier, AICP
Senior Planner

Exhibits
In order to be allowed to present any testimony, make any comment, engage in cross-examination, or ask any question during this public hearing, you must enter your name, address, and signature on this form prior to the commencement of the public hearing. By signing this registration sheet, you agree that you understand that anything you say will be considered sworn testimony, and that you will tell the truth, the whole truth and nothing but the truth.

Two (2) houses are located east of the property; one (1) house is located to the south of the property; one (1) house is located west of the property.

Commonwealth Edison also has a planned area along the east side of Route 47.

PHYSICAL DATA

ENDANGERED SPECIES REPORT
EcoCAT Report submitted and consultation was terminated.

NATURAL RESOURCES INVENTORY
LESA Score was 200 indicating a low level of protection.

ACTION SUMMARY
KENDALL TOWNSHIP
Petition information was sent to Kendall Township 2.20.18. The Kendall Township Planning Commission met on 2.7.18 and the Township Board met on 2.20.18. Both bodies recommended
denial of the request.

**UNITED CITY OF YORKVILLE**
Petition information was sent to the United City of Yorkville 2.20.18. The Yorkville Planning and Zoning Commission met on 3.14.18 and unanimously recommended approval of the proposal. The Yorkville City Council reviewed this proposal on 3.27.18 and expressed no objections.

**ZPAC**
ZPAC met on this proposal on 3.6.18 and unanimously recommended approval.

**KCRPC**
The Kendall County Regional Planning Commission reviewed this proposal on 3.28.18. They asked why the petitioners were pursuing a map amendment instead of an A-1 building permit. The petitioners’ attorney responded that the publication and notification requirements were stricter for map amendments. Also, the County Board had a similar petitioner in 2017 and favored the map amendment approach instead of an A-1 building permit. The Kendall County Regional Planning Commission unanimously recommended approval of the proposal.

**GENERAL INFORMATION**
The petitioner desires the map amendment in order to have the ability to construct a house on the property at some point in the future. The subject property does not have an allocation for the construction of a home and does not possess forty (40) acres. Therefore, a map amendment is required in order to construct a home onsite.

The petitioner does not believe that the property is large enough for farming. Pictures of the property are included.

The Land Resource Management Plan calls for this area to be rural residential in the future. Existing single-family homes are located around the subject property. For these reasons, Staff does not believe that the approval of this request would constitute spot zoning.

The property is currently for sale.

**BUILDING CODES**
Any new homes or accessory structures would be required to meet applicable building codes.

**ACCESS**
The property fronts Walker Road. Pending comments from Kendall Township, Staff has no concerns regarding the ability of Walker Road to support a proposed home at this location.

**ODORS**
No new odors are foreseen.

**LIGHTING**
Any new lighting would be for residential use only. Staff does not foresee any concerns regarding lighting.

**SCREENING**
No fencing or buffer is presently planned for the property. Any new fences or plantings would be for a residential use. Any new fences would have to follow applicable regulations.

**STORMWATER**
The northern portion of the property touches the Middle Aux Sable Creek. Any new homes would have to be constructed per Kendall County’s Stormwater Management Ordinance.

**UTILITIES**
Electricity is near the property. A new well and septic system would have to obtain applicable permits.
FINDINGS OF FACT

Existing uses of property within the general area of the property in question. The area is a mix of agricultural, farmstead, and rural estate residential uses.

The Zoning classification of property within the general area of the property in question. All of the adjacent properties are zoned A-1. However, six properties in the general area have a residential use.

The suitability of the property in question for the uses permitted under the existing zoning classification. The property is too small for most modern agricultural uses. Homes are located on adjoining properties and the subject property lacks an agricultural housing allocation which prevents the construction of a home on the property without a map amendment. The property would be suitable for most single-family residential related uses.

The trend of development, if any, in the general area of the property in question, including changes, if any, which may have taken place since the day the property in question was in its present zoning classification. The Zoning Board of Appeals shall not recommend the adoption of a proposed amendment unless it finds that the adoption of such an amendment is in the public interest and is not solely for the interest of the applicant. The Zoning Board of Appeals may recommend the adoption of an amendment changing the zoning classification of the property in question to any higher classification than that requested by the applicant. For the purpose of this paragraph the R-1 District shall be considered the highest classification and the M-2 District shall be considered the lowest classification. The proposed amendment fits the development of the area. This area will likely continue to become more residential if the United City of Yorkville continues to annex properties in the area. The proposed amendment benefits the petitioner by giving him the opportunity to sell the property for a residential purpose instead of a purely agricultural use.

Consistency with the purpose and objectives of the Land Resource Management Plan and other adopted County or municipal plans and policies. The proposed amendment is consistent with the Land Resource Management Plan.

RECOMMENDATION

Staff recommends approval of the proposed map amendment.

KENDALL COUNTY PLANNING BUILDING & ZONING
Please fill out the following findings of fact to the best of your capabilities. § 13.07.F of the Zoning Ordinance lists the Finding of Fact criteria the Zoning Board of Appeals must answer in order to make a recommendation to the County Board on any map amendment request. They are as follows:

Existing uses of property within the general area of the property in question.

There is a slow trend of residential uses surrounding both the east and west side of this property. There are single family residences that adjoin on each of the east and west side of the subject property which are farmette/rural residential type uses. The Hattner Property has been subject of an Annexation Agreement with the United City of Yorkville. South of the property is farmland and will continue to be farmland not interrupted by this proposed use.

The Zoning classification of property within the general area of the property in question.

The property within the general area is a mix of City R-2/R-1 Single Family Residential, Business; the County Zoning surrounding the property is Agricultural although the uses are mixed between Agricultural and Residential.

The suitability of the property in question for the uses permitted under the existing zoning classification.

The subject property is not suitable by site acreage nor site usage for current modern row crop farming practices due to its small acreage size. The owners of the property have planted substantial nursery stock on the property which would be thinned out and sold off over the years, although the highest and best use of the property would be for a single family residential non-business type use which is the intent of the parties. The single family residential use as a rural residence, would comport with the adjoining owners on the east and west.

The trend of development, if any, in the general area of the property in question, including changes, if any, which may have taken place since the day the property in question was in its present zoning classification. The Zoning Board of Appeals shall not recommend the adoption of a proposed amendment unless it finds that the adoption of such an amendment is in the public interest and is not solely for the interest of the applicant. The Zoning Board of Appeals may recommend the adoption of an amendment changing the zoning classification of the property in question to any higher classification than that requested by the applicant. For the purpose of this paragraph the R-1 District shall be considered the highest classification and the M-2 District shall be considered the lowest classification.

The trend of development in the area is moderate residential growth and continuing agricultural growth until the United City of Yorkville expands on property subject to previous Annexation Agreements. Further the Property is within the one and one half mile planning area of the United City of Yorkville and shows as being anticipated to be low density residential.

Consistency with the purpose and objectives of the Land Resource Management Plan and other adopted County or municipal plans and policies.

The proposal to develop the parcel as a one lot single family rural residence conports with the Kendall County Land Resource Management Plan in that the density would be lower than the contiguous growth area which would permit a higher density on the parcel.
This Mortgage dated July 25, 2016, is by Keith J. Warpinski (a/k/a Keith Warpinski) and Kathleen Warpinski (a/k/a Kathleen J. Warpinski), husband and wife (hereafter called "Mortgagor") whose mailing address is 23819 W Mill St., Plainfield, IL 60544 to 1st Farm Credit Services, PCA (hereafter called "Mortgagee") a federally chartered corporation whose address is 2000 Jacobson Drive, Normal, IL 61761.

For valuable consideration Mortgagor grants, sells mortgages and warrants to Mortgagee and assigns, forever the real estate in the county or counties of Kendall and Will, Illinois, described in Exhibit A to this Mortgage which is by this reference made a part of this Mortgage, together with all the fixtures, tenements, hereditaments and appurtenances belonging or in any way appertaining to this real estate. All of the preceding property and property rights including the real estate described in Exhibit A are after this collectively called "the premises." 

THIS MORTGAGE SECURES (a) the repayment of indebtedness in the principal sum of $150,000.00 evidenced by promissory notes as follows:

<table>
<thead>
<tr>
<th>Date of Note(s)</th>
<th>Face Amount(s)</th>
<th>Maturity Date(s)</th>
</tr>
</thead>
<tbody>
<tr>
<td>July 25, 2016</td>

</tbody>
</table>

and any other indebtedness payable to Mortgagee evidenced by promissory notes secured by prior liens on the real estate described in Exhibit A, with interest as provided in the promissory notes, which may be variable or fixed and which may be converted from one to the other from time to time at the option of Mortgagor with the consent of Mortgagee and all extensions, renewals and modifications thereof. (b) the repayment of all additional advances which Mortgagee may make from time to time to any one or more Mortgagor or to any one or more of the makers of the promissory notes prior to the release of this Mortgage, whether made before or after the maturity of the promissory notes and whether evidenced by the same or other promissory notes given after this Mortgage and any other future obligations of any one or more Mortgagor or these makers to Mortgagee whether absolute or contingent with interest as provided in the promissory notes which may be variable or fixed as stated above and all extensions, renewals and modifications thereof. However, the maximum principal amount secured by this Mortgage at any one time exclusive of interest shall not exceed $150,000.00 in the aggregate. If the unpaid principal amount at any one time exceeds this sum, this Mortgage shall secure that portion of the unpaid principal amount that does not exceed this sum and interest thereon, (c) notwithstanding the above limitation the repayment of all other amounts with interest to which Mortgagee may become entitled under this Mortgage, and (d) the performance by Mortgagee of all the warranties, agreements and terms contained in this Mortgage.

By execution of this Mortgage, Mortgagor hereby acknowledges receipt of all of the proceeds of the loan evidenced by the above promissory note(s) as follows:

All principal, interest and other sums or charges payable to Mortgagee and secured by this Mortgage are after this called the "Indebtedness." If the Indebtedness is paid to Mortgagee when due and Mortgagor keeps and performs all the warranties, agreements and terms contained in this Mortgage, then this Mortgage shall be void. 

MORTGAGOR WARRANTS THAT (a) Mortgagor has fee simple title to the premises and good right to convey them. (b) Mortgagee shall quietly enjoy and possess the premises, and (c) except as expressly set forth in this Mortgage, the premises are free from all encumbrances and Mortgagor will warrant and defend title to the premises against all lawful claims.

MORTGAGOR AGREES AS FOLLOWS

1. Discharge Liens: To pay and discharge when due all present and future taxes, assessments, judgments, mortgages and liens on the premises and to perform every obligation imposed upon Mortgagor by the instruments creating these liens.
2. **Insurance** To keep insured all buildings and improvements now or later located on the premises against loss or damage by fire, wind, flood (if Mortgagor requires) and extended coverage perils, in companies and amounts satisfactory to Mortgagor and to provide on request satisfactory proof of insurance. The insurance policy shall contain a loss payable clause in favor of Mortgagor providing all risks customarily granted under the standard mortgage clause. At Mortgagor's option insurance proceeds may be applied to the indebtedness or be used for reconstruction of the damaged property or be released to Mortgagor for reconstruction. If this Mortgage is foreclosed, Mortgagor's interest in policies shall pass to Mortgagor.

3. **Protective Advances** If Mortgagor fails to pay taxes, assessments judgments, mortgages, or other liens on the premises or to maintain the premises as required by this Mortgage, Mortgagor may do so as required by this Mortgage.

4. **Pro Rata Payments** Mortgagor may, at its option, require Mortgagor to pay to Mortgagor at the same time as each regular installment of principal and interest an amount equal to a pro rata portion of the taxes, assessments, and insurance premiums next to become due as estimated by Mortgagor.

5. **Protective Actions** In any collection or foreclosure activities or proceedings, or if Mortgagor fails to perform any agreement or term contained in this Mortgage or if any proceeding is commenced which affects Mortgagor's interest in the premises (including but not limited to eminent domain, insolvency, bankruptcy, code enforcement or oral land), Mortgagor may (but is not obligated to) make such appearances, disburse such sums and take such actions as Mortgagor believes are necessary to protect its interest and preserve the value of the premises. This includes, but is not limited to the expenditure of reasonable attorneys' fees, court costs, costs of environmental audits and compliance, costs of appraisals and title evidence, and making repairs and maintenance. Mortgagor may inspect the premises at reasonable times including investigating the environmental condition of the premises and taking soil and water samples.

6. **Additions to Indebtedness** All amounts incurred or advances by Mortgagor under paragraph 3 or 5 of this Mortgage shall be due immediately, shall bear interest as provided in the promissory note described in this Mortgage or the promissory note with the latest maturity date if more than one is described, and shall be secured by this Mortgage.

7. **Maintain Premises** (a) To not remove or permit to be removed any buildings, improvements or fixtures from the premises; (b) to maintain the premises in good repair and condition; (c) to evict the premises in a good, husbandlike manner; (d) to use the premises for farm purposes (if used for farm purposes on the date of this Mortgage), (e) to not cut or remove wood or timber from the premises except for domestic use and (f) to not commit any forceful waste of the premises. If the premises are abandoned or left unoccupied, Mortgagor may (but is not obligated to) go upon the premises to protect them against waste, vandalism or other damage with necessary authority to trespass.

8. **Complete Improvements** To complete in a reasonable time any improvements now or later under construction on the premises.

9. **Use of Loan Proceeds** The proceeds of the indebtedness shall be used solely for (a) the purposes specified in the loan application or (b) other purposes Mortgagor may require or agree to in writing.

10. **Assignment of Rents** Mortgagor assigns to Mortgagor to further secure the payment of the indebtedness the rents, issues and profits of the premises now or which may later become due. Upon default under this Mortgage by Mortgagor, Mortgagor (a) shall immediately and without any further action to enforce its interest have an enforceable and perfected right to receive such rents, issues and profits and (b) may in its sole discretion notify any or all tenants to pay directly to Mortgagor all such rents, issues and profits. This assignment shall be enforceable with or without appointment of a receiver and regardless of Mortgagor's lack of possession of the premises.

11. **Minerals and Eminent Domain** In this paragraph 11 minerals include but is not limited to oil gas, coal, lignite rock, stone gravel sand clay, peat and earth. Mortgagor shall at its option receive all sums which may accrue to Mortgagor from eminent domain or other proceedings or from the sale lease development or removal of minerals in and under the premises. These sums shall be applied to the indebtedness as Mortgagor elects. Nothing in this Mortgage prevents Mortgagor from accepting these sums or constitutes consent to the sale lease development or removal of minerals. Mortgagor may receive any payment during foreclosure or a redemption period. If a lawful claimant enters or asserts a right of entry on the premises for the purpose of exploration development or removal of minerals under reservation or conveyance paramount to this Mortgage, to the exclusion of and without compensation to Mortgagor, then, at the option of Mortgagor, the entire indebtedness shall become due and payable.

12. **Actions Not Affecting Lien or Liability** Without affecting the priority of the lien of this Mortgage or the liability of Mortgagor or for the payment of the indebtedness, Mortgagor may from time to time without notice to Mortgagor (a) release all or part of the premises from the lien of this Mortgage, (b) extend and defer the maturity of and renew and reamortize all or any part of the indebtedness, (c) adjust interest rates as provided in the promissory note(s) and (d) release from liability for payment of the indebtedness one or more parties who are or become liable for its payment.

13. **Hazardous Substances** To comply with all federal, state and local laws and the recommendations of all courts and government agencies concerning the generation use discharge release storage and disposal of hazardous substances petroleum products, farm chemicals and general waste on the premises. Mortgagor warrants that no hazardous substances have previously been discharged, released, stored or disposed of on the premises and will take all remedial action necessary to remove any hazardous substance found on the premises during the term of this Mortgage or after default by Mortgagor. Mortgagor will indemnify Mortgagor's directors, officers, employees and agents against all claims and losses including court costs and attorneys' fees arising directly or indirectly out of Mortgagor's failure to comply with this paragraph. This warranty and indemnity shall survive termination of this Mortgage.

14. **Events of Default** Each of the following constitutes a default of this Mortgage by Mortgagor (Default) (a) failure to pay when due any part of the indebtedness, (b) failure to perform or observe any warranty agreement or term contained in this Mortgage or in any promissory note(s) evidencing the indebtedness or in any related loan agreement(s) (c) the appointment of a receiver receiver pendente lite or liquidator whether voluntary or involuntary, for any Mortgagor or for any of the property of any Mortgagor, (d) the commencement of any proceeding or by or against any Mortgagor under the provisions of any bankruptcy or insolvency laws, (e) the making by any Mortgagor of any assignment for the benefit of creditors (f) the sale or transfer without Mortgagor's prior written consent of all, any part of, or any interest in, the premises or any beneficial interest in a land trust hereinafter to be created by Mortgagor, (g) the transfer without Mortgagor's prior written consent of stock in a corporation holding title to all or any part of the premises by any stockholder of such corporation, (h) the sale of the stock, (i) any sale, transfer, or assignment of all or any part of the premises by any stockholder of such corporation, and (k) the sale or transfer of all or any part of the premises by any stockholder of such corporation, and (l) the sale or transfer of all or any part of the premises by any stockholder of such corporation.

15. **Remedies on Default** Mortgagor may do any one or more of the following if a Default occurs under paragraph 14 (a) The entire indebtedness may become immediately due without notice and bear interest as provided in the promissory note(s) evidencing
the Indebtedness and Mortgagee may collect this amount in a suit at law or by foreclosure of this Mortgage. (b) Take possession of the premises upon filing a foreclosure action and have full authority to operate, manage, lease and conserve the premises to collect the rents, issues and profits from the premises to obtain hazard insurance to pay taxes and assessments when due, to employ counsel, custodians and other assistants to make necessary repairs to exercise all the usual powers of receivers in like cases and to continue in possession of the premises until expiration of the statutory period of redemption. All rents, issues and profits collected as Mortgagee in possession may, without prior approval of the court, be applied first to payment of the costs of management of the premises and then to the Indebtedness and Mortgagee shall be accountable only for those proceeds actually received. (c) All any sale held pursuant to a court decree of all the premises may be sold as one parcel and any bid to the contrary is waived by Mortgagee. (d) Mortgagee may retain out of the sale proceeds amounts due Mortgagee under this Mortgage, the costs of the sale and attorneys' fees as provided by statute or court practice or in a reasonable amount. (e) In any foreclosure action or other proceeding the court may appoint a receiver and receiver pendente lite for the premises with the usual powers provided by statute, and Mortgagor hereby consents to the appointment. (f) If there is any security other than this Mortgage for the Indebtedness then Mortgagee may proceed upon this and the other security either concurrently or separately in any order it chooses. (g) If this Mortgage secures multiple promissory notes, Mortgagee may apply foreclosures sale proceeds to the notes in the order and amounts it elects.

18 Cumulative Rights All rights and remedies of Mortgagee in this Mortgage are cumulative and are in addition to other rights and remedies given in this Mortgage or provided by law.

17 Waiver The failure or delay of Mortgagee to exercise any rights shall not be a waiver of that right.

16 Successors This Mortgage shall bind and benefit the parties to this Mortgage and their respective heirs, executors, administrators, successors and assigns.

19 Waiver of State Rights Mortgagor waives and relinquishes all rights given by the homestead and exemption laws of the State of Illinois.

An electronic reproduction of this fully-executed document shall be as valid as the original.

Proposed Water Supply: well  
Proposed type of Storm Water Management: septic

Type of Request
☑️ Change in Zoning from A-1 to R-1 for 1 Single Family Home
☐ Variance (Please describe fully on separate page)
☐ Special Use Permit (Please describe fully on separate page)

Name of County or Municipality the request is being filed with:

In addition to this completed application form, please including the following to ensure proper processing:
☑️ Plat of Survey/Site Plan – showing location, legal description and property measurements
☐ Concept Plan – showing the locations of proposed lots, buildings, roads, stormwater detention, open areas, etc.
☐ If available: topography map, field tile map, copy of soil boring and/or wetland studies
☐ NRI fee (Please make checks payable to Kendall County SWCD)

The NRI fees, as of July 1, 2010, are as follows:
Full Report: $375.00 for five acres and under, plus $18.00 per acre for each additional acre or any fraction thereof over five.
Executive Summary Report: $300.00 (KCSWCD staff will determine when a summary or full report will be necessary.)

Fee for first five acres and under $375.00
2 Additional Acres at $18.00 each $36.00
Total NRI Fee $411.00

NOTE: Applications are due by the 1st of each month to be on that month’s SWCD Board Meeting Agenda. Once a completed application is submitted, please allow 30 days for inspection, evaluation and processing of this report.

I (We) understand the filing of this application allows the authorized representative of the Kendall County Soil and Water Conservation District (SWCD) to visit and conduct an evaluation of the site described above. The completed NRI report expiration date will be 3 years after the date of receipt.

Natural Resource Review Results

Consultation for Endangered Species Protection and Natural Areas Preservation (Part 1079)

The Illinois Natural Heritage Database contains no record of State-listed threatened or endangered species, Illinois Natural Area Inventory sites, dedicated Illinois Nature Preserves, or registered Land and Water Reserves in the vicinity of the project location.

Consultation is terminated. This consultation is valid for two years unless new information becomes available that was not previously considered; the proposed action is modified; or additional species; essential habitat; or Natural Areas are identified in the vicinity. If the project has not been implemented within two years of the date of this letter, or any of the above listed conditions develop, a new consultation is necessary. Termination does not imply IDNR's authorization or endorsement.

Location
The applicant is responsible for the accuracy of the location submitted for the project.

Disclaimer
The Illinois Natural Heritage Database cannot provide a conclusive statement on the presence, absence, or condition of natural resources in Illinois. This review reflects the information existing in the Database at the time of this inquiry, and should not be regarded as a final statement on the site being considered, nor should it be a substitute for detailed site surveys or field surveys required for environmental assessments. If additional protected resources are encountered during the project’s implementation, compliance with applicable statutes and regulations is required.

Terms of Use
By using this website, you acknowledge that you have read and agree to these terms. These terms may be revised by IDNR as necessary. If you continue to use the EcoCAT application after we post changes to these terms, it will mean that you accept such changes. If at any time you do not accept the Terms of Use, you may not continue to use the website.

1. The IDNR EcoCAT website was developed so that units of local government, state agencies and the public could request information or begin natural resource consultations on-line for the Illinois Endangered Species Protection Act, Illinois Natural Areas Preservation Act, and Illinois Interagency Wetland Policy Act. EcoCAT uses databases. Geographic Information
Areas Preservation Act, and Illinois Interagency Wetland Policy Act. EcoCAT uses databases, Geographic Information System mapping, and a set of programmed decision rules to determine if proposed actions are in the vicinity of protected natural resources. By indicating your agreement to the Terms of Use for this application, you warrant that you will not use this web site for any other purpose.

Natural Resource Concerns

SOIL INFORMATION:
Based on information from the United States Department of Agriculture-Natural Resources Conservation Service (USDA-NRCS) 2008 Kendall County Soil Survey, this parcel is shown to contain the following soil types (please note this does not replace the need for or results of onsite soil testing; please refer to onsite soil test results for planning/engineering purposes):

Table 1:

<table>

</table>
**Hydrologic Soil Groups**: Soils have been classified into four (A, B, C, D) hydrologic groups based on runoff characteristics due to rainfall. If a soil is assigned to a dual hydrologic group (A/D, B/D or C/D), the first letter is for drained areas and the second letter is for undrained areas.

- **Hydrologic group A**: Soils have a high infiltration rate (low runoff potential) when thoroughly wet. These consist mainly of deep, well drained to excessively drained sands or gravelly sands. These soils have a high rate of water transmission.
- **Hydrologic group B**: Soils have a moderate infiltration rate when thoroughly wet, consist chiefly of moderately deep to deep, moderately well drained to well drained soils that have a moderately fine to moderately coarse texture. These soils have a moderate rate of water transmission.
- **Hydrologic group C**: Soils having a slow infiltration rate when thoroughly wet. These consist chiefly of soils having a layer that impedes the downward movement of water or soils of moderately fine texture or fine texture. These soils have a slow rate of water transmission.
- **Hydrologic group D**: Soils having a very slow infiltration rate (high runoff potential) when thoroughly wet. These consist chiefly of clays that have a high shrink-swell potential, soils that have a high water table, have a claypan or clay layer at or near the surface, and soils that are shallow over nearly impervious material. These soils have a very slow rate of water transmission.

**Hydric Soils**: A soil that formed under conditions of saturation, flooding, or ponding long enough during the growing season to develop anaerobic conditions in the upper part of the soil profile. Of the soils found onsite, 152A Drummer silt loam is classified as a hydric soil.

**Prime Farmland**: Prime farmland is land that has the best combination of physical and chemical characteristics for agricultural production. Prime farmland soils are an important resource to Kendall County and some of the most productive soils in the United States occur locally. Of the soils found onsite, two are designated as prime farmland: 152A Drummer silt loam and 145B Saybrook silt loam.

**Table 2:**

<td>January - May&lt;br&gt;None</td>
</tr>
</tbody>
</table>

**Surface Runoff**: Refers to the loss of water from an area by flow over the land surface. Surface runoff classes are based upon slope, climate and vegetative cover. Indicates relative runoff for very specific conditions (it is assumed that the surface of the soil is bare and that the retention of surface water resulting from irregularities in the ground surface is minimal).

**Ponding**: Ponding is standing water in a closed depression. Unless a drainage system is installed, the water is removed only by percolation, transpiration or evaporation. Duration is expressed as very brief (less than 2 days), brief (2 to 7 days), long (7 to 30 days), very long (more than 30 days). Frequency is expressed as none (ponding is not probable), rare (unlikely but possible under unusual weather conditions), occasional (occurs, on average, once or less in 2 years) and frequent (occurs, on average, more than once in 2 years).

**Flooding**: Temporary inundation of an area caused by overflowing streams, by runoff from adjacent slopes, or by tides. Water standing for short periods after rainfall or snowmelt is not considered flooding, and water standing in swamps and marshes is considered ponding rather than flooding. Duration expressed as brief is 2 to 7 days and a frequent frequency means that it is likely to occur often under normal weather conditions.
SOIL LIMITATIONS:
According to the USDA-NRCS, soil properties influence the development of building sites, including the selection of the site, the design of the structure, construction, performance after construction and maintenance. This report gives ratings for proposed uses in terms of limitations and restrictive features. The tables list only the most restrictive features. Ratings are based on the soil in an undisturbed state, that is, no unusual modification occurs other than that which is considered normal practice for the rated use. Even though soils may have limitations, an engineer may alter soil features or adjust building plans for a structure to compensate for most degrees of limitations. The final decision in selecting a site for a particular use generally involves weighing the costs for site preparation and maintenance.

- **Not Limited**: Indicates that the soil has features that are very favorable for the specified use; good performance and low maintenance can be expected.
- **Somewhat Limited**: Indicates that the soil has features that are moderately favorable for the specified use. The limitations can be overcome or minimized by special planning, design or installation; fair performance and moderate maintenance can be expected.
- **Very Limited**: Indicates that the soil has one or more features that are unfavorable for the specified use. The limitations generally cannot be overcome without major soil reclamation, special design, or expensive installation procedures; poor performance and high maintenance can be expected.

**Conventional Septic System Rating Criteria:**
The factors considered are the characteristics and qualities of the soil that affect the limitations for absorbing waste from domestic sewage disposal systems. Soils that are deemed unsuitable for installation of an on-site sewage disposal system per the Kendall County Subdivision Control Ordinance may necessitate the installation of a non-conventional onsite sewage disposal system. For more information please contact: Kendall County Health Department located at 811 W. John Street, Yorkville, IL; (630)553-9100 ext. 8026.

Limitations are listed below for dwellings with basements, dwellings without basements, and conventional sewage disposal systems. Please note this information is based on information compiled as part of the USDA-NRCS 2008 Soil Survey of Kendall County, IL and the Kendall County Subdivision Control Ordinance; this does not replace the need for site specific soil testing or results of onsite soil testing.

**Kendall County Land Evaluation and Site Assessment (LESA):**
Decision-makers in Kendall County use the Land Evaluation and Site Assessment (LESA) system to determine the suitability of a land use change and/or a zoning request as it relates to agricultural land. The LESA system was developed by the United States Department of Agriculture-Natural Resources Conservation Service (USDA-NRCS) and takes into consideration local conditions such as physical characteristics of the land, compatibility of surrounding land-uses, and urban growth factors. The LESA system is a two-step procedure that includes:

- **LAND EVALUATION (LE)** – The soils of a given area are rated and placed in groups ranging from the best to worst suited for a stated agriculture use, cropland or forestland. The best group is assigned a value of 100 and all other groups are assigned lower values. The Land Evaluation is based on data from the Kendall County Soil Survey. The Kendall County Soil and Water Conservation District is responsible for this portion of the LESA system.

- **SITE ASSESSMENT (SA)** – The site is numerically evaluated according to important factors that contribute to the quality of the site. Each factor selected is assigned values in accordance with the local needs and objectives. The Kendall County LESA Committee is responsible for this portion of the LESA system.

**Table 4a: Land Evaluation Computation**

</tr>
</tbody>
</table>

The LESA Score for this site is 200 which indicates a low level of protection for the proposed project site. Note: Selecting the project site with the lowest total points will generally protect the best farmland located in the most viable areas and maintain and promote the agricultural industry in Kendall County.
**Wetlands:** The U.S. Fish & Wildlife Service’s National Wetland Inventory map does not indicate the presence of a wetland on the project site. If a wetland is present and will be impacted by the project, a wetland delineation specialist, who is recognized by the U.S. Army Corps of Engineers, should determine the exact boundaries and value of the wetlands.

**Floodplain:** A portion of the parcel is located within the floodplain.

**Sediment and Erosion Control:** Development on this site should include an erosion and sediment control plan in accordance with local, state and federal regulations. Soil erosion on construction sites is a resource concern because suspended sediment from areas undergoing development is a primary nonpoint source of water pollution. Please consult the Illinois Urban Manual (http://www.aiswcd.org/illinois-urban-manual/) for appropriate best management practices.
LAND USE OPINION:

The Kendall County Soil and Water Conservation District (SWCD) Board has reviewed the proposed development plans for Petitioner Keith & Kathleen Warpinski for the proposed Warpinski project. This parcel is located in Section 21 of Kendall Township (T.36N.-R.7E. of the 3rd Principal Meridian) in Kendall County. Based on the information provided by the petitioner and a review of natural resource related data available to the Kendall County SWCD, the SWCD Board has the following opinions and recommendations.

The Kendall County SWCD has always had the opinion that Prime Farmland should be preserved whenever feasible. A land evaluation, which is a part of the Land Evaluation and Site Assessment (LESA) was conducted on this parcel. The soils on this parcel scored a 99 out of a possible 100 points indicating the soils found on the project site are predominately prime farmland well suited for agricultural production. Overall, the LESA score was 200 indicating a low level of protection as selecting a project site with the lowest total points will generally protect the best farmland located in the most viable areas and maintain and promote the agricultural industry in Kendall County. Of the soils identified onsite, two (145B and 152A) are designated as prime farmland; the remaining soil (60C2) is noted as farmland of statewide importance.

For proposed land uses, soils can have potential limitations. This report indicates that for soils located on the parcel, 72% of the soils are very limited for dwellings with basements; 68% of the soils are very limited for dwellings without basements, small commercial building and conventional septic systems. This information is based on the soil in an undisturbed state and does not replace the need for site specific soil testing. Some soil reclamation, special design, or maintenance may be required to obtain suitable soil conditions to support development with significant limitations. Additionally, if the scope of the project includes the use of onsite septic systems, please consult with the Kendall County Health Department.

This site is located within the Illinois River Watershed and Middle Branch Aux Sable Creek subwatershed. This development should include a soil erosion sediment control plan to be implemented during construction. Sediment may become a primary non-point source of pollution. Eroded soils during the construction phase can create unsafe conditions on roadways, degrade water quality and destroy aquatic ecosystems lower in the watershed.

For intense project uses it may be necessary to have a drainage tile survey completed on the parcel to locate any subsurface drainage tile if suspected onsite. Drainage tile expedites drainage and facilitates farming. It is imperative that these drainage tiles remain undisturbed. Impaired tile may affect a few acres or hundreds of acres of drainage.

The information that is included in this Natural Resources Information Report is to assure the Land Developers take into full consideration the limitations of that land that they wish to develop. Guidelines and recommendations are also a part of this report and should be considered in the planning process. The Natural Resource Information Report is required by the Illinois Soil and Water Conservation District Act (Ill. Complied Statutes, Ch. 70, Par 405/22.02a).

ZONING, PLATTING & ADVISORY COMMITTEE (ZPAC)
March 6, 2018 – Unapproved Meeting Minutes

Senior Planner Matt Asselmeier called the meeting to order at 9:03 a.m.

Present:
Aaron Rybski – Health Department
Sgt. Ray Eberhardt – Sheriff’s Department
Don Clayton – GIS
Fran Klaas – Highway Department
Pam Herber – PBZ Department
Matt Asselmeier – PBZ Department

Absent:
Greg Chismark – WBK Engineering, LLC
David Guritz – Forest Preserve
Megan Andrews – Soil and Water Conservation District
Robert Davidson – PBZ Committee Chair

Audience:
Dan Kramer representing Keith and Kathleen Warpinski

AGENDA
Mr. Klaas made a motion, seconded by Mr. Clayton, to approve the agenda as proposed. With a voice vote of all ayes the motion carried.

MINUTES
Mr. Klaas made a motion, seconded by Mr. Rybski, to approve the February 6, 2018 meeting minutes. With a voice vote of all ayes the motion carried.

PETITIONS
Petition 18-05 Keith and Kathleen Warpinski – Map Amendment Rezoning the Subject Property from A-1 to R-1; Property is Located on the North Side of Walker Road Approximately 0.31 Miles East of Route 47 (PIN: 05-21-400-011) in Kendall Township
Attorney Dan Kramer summarized the request. The property is slightly over six (6) acres. There are approximately six (6) homes around the property. All of the adjoining properties are zoned A-1. Mr. Kramer noted that his client was open to an A-1 Conditional Use Permit for a house, but chose the map amendment route because of the stricter publication requirements. Mr. Kramer noted that property owner was open to dedicating land for a trail on both the north and south sides of the property. Mr. Kramer also noted that the property was subject to a special use request in 2017 for a landscaping business; this proposal was withdrawn. The property does not have prospective buyer at this time. Mr. Kramer reported that the Kendall Township Planning Commission and Kendall Township Board issued negative recommendations.

Mr. Klaas requested that page 5 of the report be corrected to show Walker Road as a township road.

Mr. Klaas asked about the pipeline easement. Mr. Kramer responded that the pipeline easement remains active.

Mr. Rybski noted that an alternative sewer system will be required at the time of development because of soil issues.

Mr. Klaas asked, if the proposal is approved, could a landscape business go on the site. The answer to this question was no.

Mr. Rybski made a motion, seconded by Mr. Klaas, to recommend approval of the proposal.

Ayes (6): Klaas, Eberhardt, Rybski, Clayton, Herber, and Asselmeier
Nays (0): None
Absent: (4) Guritz, Andrews, Davidson, and Chismark

The motion passed unanimously. This matter will go before the Kendall County Regional Planning Commission on March 28th.
Petition 18-07 Kendall County Planning, Building and Zoning Committee – Text Amendment to Section 13.08 Adding Sub-Section R Pertaining to Renewal of Special Use Permits

Mr. Asselmeier provided a summary of this proposed text amendment. The proposal clarifies the procedure for renewing a special use permit. If a special use permit holder does not violate the terms of their special use permit, the special use permit shall be automatically renewed. If a special use permit holder is found guilty of violating the terms of their special use permit, the holder would have to go through the special use permitting process in full in order to renew the special use permit. The County Board could request changes to the special use permit, but the County would have to pay for all applicable notification requirements. Twenty-seven (27) special use permits exist that require some form of review. The proposal contains a provision allowing those special use permit holders to forfeit grandfathering.

Mr. Rybski asked if the special use permits would be actively renewed. Mr. Asselmeier noted that the existing special uses are exempt the proposal. Also, if an existing special use permit holder wants an amendment to their special use, the County could require that they follow this new regulation.

Mr. Rybski made a motion, seconded by Mr. Clayton, to recommend approval of the proposal.

Ayes (6): Klaas, Eberhardt, Rybski, Clayton, Herber, and Asselmeier
Nays (0): None
Absent: (4) Guritz, Andrews, Davidson, and Chismark

The motion passed unanimously. This matter will go before the Kendall County Regional Planning Commission on March 28th.

REVIEW OF PETITIONS THAT WENT TO COUNTY BOARD

Mr. Asselmeier reported that Petition 17-30 was approved by the County Board. Mr. Asselmeier also reported that the petition transferring the power and duties to hear special use permits from the Hearing Officer to the Zoning Board of Appeals and the petition increasing notification distances for A-1 special use permits will go to the Planning, Building and Zoning Committee on March 12th and could go to the County Board on March 21st.

OLD BUSINESS/NEW BUSINESS

None

PUBLIC COMMENT

None

ADJOURNMENT

Mr. Klaas made a motion, seconded by Mr. Rybski, to adjourn. With a voice vote of all ayes, the motion carried. The ZPAC, at 9:22 a.m., adjourned.

Respectfully Submitted,
Matthew H. Asselmeier, AICP
Senior Planner
KENDALL COUNTY
REGIONAL PLANNING COMMISSION

Kendall County Office Building
Rooms 209 & 210
111 W. Fox Street, Yorkville, Illinois

Unapproved Meeting Minutes of March 28, 2018

Chairman Ashton called the meeting to order at 7:00 p.m.

ROLL CALL
Members Present: Bill Ashton, Roger Bledsoe, Larry Nelson, Ruben Rodriguez, Claire Wilson, Budd Wormley, and Angela Zubko
Members Absent: Tom Casey and John Shaw
Staff Present: Matthew H. Asselmeier, Senior Planner
In the Audience: Dan Kramer, Pat Kinnally, Roger Smith, and George Ostreko

APPROVAL OF AGENDA
Mr. Wormley made a motion, seconded by Mr. Bledsoe, to approve the agenda as presented. With a voice vote of all ayes, the motion carried.

APPROVAL OF MINUTES
Mr. Nelson made a motion, seconded by Mr. Wormley, to approve the February 28, 2018, joint meeting minutes with the Comprehensive Land Plan and Ordinance Committee and the February 28, 2018, Kendall County Regional Planning Commission meeting minutes as presented. With a voice vote of all ayes, the motion carried.

PETITION
Petition 18-05-Keith and Kathleen Warpinski
Mr. Asselmeier summarized the request. The petitioners desire a map amendment in order to be able to construct a house on the property.

ZPAC reviewed the proposal on March 6th and unanimously recommended approval.

The Kendall Township Planning Commission and Kendall Township Board reviewed the proposal in February and recommended denial. Kendall Township will not be submitting a formal objection.

The United City of Yorkville’s Planning and Zoning Commission met on March 14th and recommended approval. The United City of Yorkville’s City Council met on March 27th and expressed no objections to the proposal.

Dan Kramer, attorney for the petitioners, stated that Kendall Township recommended denial because at least one (1) planning commissioner objected to the construction of another house in the area.

Mr. Kramer stated that the petitioners did not pursue an A-1 building permit because the Kendall County Board had a similar case last year and they required the property owner to obtain a map amendment. In addition, the notification and publication requirements for a map amendment are stricter than the rules for an A-1 building permit.

Mr. Kramer also noted that easements for the proposed trails will be recorded.
Mr. Wormley asked about the pipeline easement running through a portion of the property. Mr. Kramer explained how the pipeline easement was created.

Mr. Nelson asked the width of the property. The width is approximately two hundred thirty-seven feet (237').

Mr. Wormley asked about the water table. Mr. Kramer stated the soil was classified for septic.

Ms. Wilson noted that certain agricultural uses would be more restrictive if the property were rezoned to R-1.

There were no public comments on this proposal.

Mr. Asselmeier stated that he did not receive anything in writing from Kendall Township. There were no calls from any surrounding residents.

Ms. Wilson made a motion to recommend approval of the map amendment as proposed, seconded by Ms. Zubko.

Yes – Ashton, Bledsoe, Nelson, Rodriguez, Wilson, Wormley and Zubko (7)
No – None (0)
Absent – Casey and Shaw (2)

The motion passed. This proposal will go to the Zoning Board of Appeals on April 2nd.

Petition 18-07 Kendall County Planning, Building and Zoning Committee

Mr. Asselmeier summarized the request.

The Zoning Ordinance does not have a clear procedure for renewing special use permits. In reviewing all of the existing special use permits, twenty-seven (27) require some form of review or renewal. Additionally, in the future, the County Board may impose time limits on future special use permits. Therefore, Staff prepared the attached proposal establishing procedures for renewing special use permits.

The Planning, Building and Zoning Committee reviewed this proposal on February 13th and unanimously approved initiating the text amendment process.

This proposal was mailed to each township on February 15th. To date, none of the townships have submitted comments.

This proposal was mailed to each existing special use permit holder that has a review/renewal provision in their special use permit on February 16th. To date, only (1) special use permit holder had detailed questions. Three (3) others were satisfied with the proposal after the proposal was explained.

ZPAC reviewed this proposal on March 6th and unanimously recommended approval.

Several Commissioners expressed concerns about the ability of the County Board to amend special use permits without the request or approval of the property owner, even though the property owner complied with the terms of the special use permit. This action could have negative consequences for business owners that invested large sums of money into their businesses. Concerns were raised that such changes could be arbitrary.
The Hearing Officer still exists for administrative adjudication; the Planning, Building and Zoning Committee could refer an alleged violations to the Hearing Officer or the State’s Attorney’s Office.

Several Commissioners expressed concerns regarding the language about previous owners of special use permits. Commissioners felt that the automatic renewal provisions should apply to the current owner and the current owner should not have the special use permit jeopardized by the actions or violations of previous owners.

Ms. Wilson asked if the County Board could request changes at any time. Mr. Asselmeier stated that the intent of the proposal was that the County Board could do amendments at the time of renewal. Item 2.b would be amended to reflect that change.

Roger Smith, Tyler Road, provided a history of his special use permit for a mobile home on his property. He was not in favor of the proposed changes.

Pat Kinnally, attorney for Bryan Holdings, Aurora, expressed concerns about the lack of clarity for grandfathering. He also expressed concerns about the difference between minor and major amendments to special use permits and the power of the Zoning Administrator. Mr. Kinnally did not want the actions of previous property owners to have an impact on whether or not a special use permit is revoked or renewed.

George Ostreko, East Beecher Road, said that he has not been inspected by Kendall County since he bought the property in the 1984. His special use permit is for mining.

Dan Kramer said that he agreed with changes proposed by Mr. Nelson.

Mr. Nelson moved to table the proposal and to have the proposal sent to Commissioners as a Word document. Discussion occurred regarding the intent of the Planning, Building and Zoning Committee in proposing the text amendment. The motion died for lack of second.

Mr. Rodriguez asked about the procedures of other counties. Mr. Asselmeier will investigate this matter.

Mr. Wormley made a motion to refer the proposal back to the Planning, Building and Zoning Committee for additional study, seconded by Ms. Wilson.

Yes – Ashton, Bledsoe, Nelson, Rodriguez, Wilson, Wormley and Zubko (7)
No – None (0)
Absent – Casey and Shaw (2)

The motion passed.

**Petition 18-03 Kendall County Planning, Building and Zoning Committee**

Mr. Asselmeier summarized the request.

In 2017, the Kendall County Board created a Boards and Commissions Review Ad-Hoc Committee to examine the number, type, and duties of the various committees utilized by the County. This Ad-Hoc Committee evaluated the roles and responsibility of each of the committees associated with the Planning, Building and Zoning Department. The Ad-Hoc Committee expressed concerns about the number of meetings certain applicants had to attend in order to obtain approval of map amendments and special use permits. In addition to
County meetings, applicants for map amendments and special use permits might need to attend various
township and municipal meetings.

Accordingly, the Board and Commissions Review Ad-Hoc Committee, at their meetings on August 29th and
November 30th recommended the following applications not require formal meetings of ZPAC or the Kendall
County Regional Planning Commission:

1. Map Amendments
2. Special Use Permits
3. Major Amendments to Special Use Permits
4. Text Amendments to the Zoning Ordinance Not Impacting the Powers and Duties of ZPAC and/or
Kendall County Regional Planning Commission

Members of ZPAC and the Kendall County Regional Planning Commission would continue to receive
notifications of the above types of applications and individual members of these committees could submit
comments on the proposals, but neither body would be required to meet and issue recommendations on these
types of applications.

ZPAC would continue to meet for the following types of applications:

1. Site Plan Reviews
2. Text Amendments to the Zoning Ordinance Impacting Its Powers and Duties
3. Amendments to the Kendall County Subdivision Control Ordinance
4. Preliminary Plat Approval
5. Final Plat Approval
6. RPD Related Plat Approvals

The Kendall County Regional Planning Commission would continue to meet for the following types of
applications:

1. Text Amendments to the Zoning Ordinance Impacting Its Powers and Duties
2. Changes to the Land Resource Management Plan
3. Amendments to the Kendall County Subdivision Control Ordinance
4. Preliminary Plat Approval
5. Final Plat Approval
6. RPD Related Plat Approvals
7. Requests by the County Board and/or Planning, Building and Zoning Committee for Research on
Planning, Zoning, and Development Related Topics

The Committee of the Whole discussed this proposal at their meeting on December 14th and no one objected to
the proposal.

The Planning, Building and Zoning Committee reviewed this matter at their meeting on January 8th and
unanimously recommended approval of initiating the text amendment as proposed.

ZPAC reviewed this proposal on February 6th and unanimously recommended approval.

Ms. Wilson asked, if this proposal was implemented, would the Kendall County Regional Planning
Commission meet on petitions similar to Petition 18-07. Mr. Asselmeier responded that the Kendall County
Regional Planning Commission would not meet for similar proposals.
Mr. Nelson asked, if the Kendall County Regional Planning Commission did not meet, would the timeframe for adopting a proposal be shortened. Mr. Asselmeier said that the timeframe for adopting a proposal would not be shortened unless the Kendall County Regional Planning Commission requested additional information.

Ms. Zubko asked if ZPAC members receive each petition and submit comments. Mr. Asselmeier responded that petitions are emailed to ZPAC members, but most ZPAC members wait until the meeting before stating their comments.

Ms. Zubko asked if the County Board was aware that the Planning, Building and Zoning Committee did not need to meet to review petitions under State law. Mr. Asselmeier responded that the Ad-Hoc Commissions and Committees Committee was informed which zoning related committees were required by State law and which ones were of the County’s discretion.

Chairman Ashton expressed concerns about the RPD subdivisions approval. He believed that the terms of RPDs should be reviewed by the Kendall County Regional Planning Commission.

Mr. Nelson explained his experience with obtaining a special use permit.

Commissioners noted that one (1) of the reasons for transferring special use hearings to the Zoning Board of Appeals was to obtain more input and opinion. This proposal seems contradictory to that previous opinion.

Mr. Nelson made a motion to refer the proposal to the Comprehensive Land Plan and Ordinance Committee. The motion died for lacked of a second.

Mr. Asselmeier stated that the Planning, Building and Zoning Committee, as the petitioner, was the only entity that could approve amendments to the petition.

Ms. Wilson made a motion to recommend approval of the proposal, seconded by Ms. Zubko

Yes – None (0)
No – Ashton, Bledsoe, Nelson, Rodriguez, Wilson, Wormley and Zubko (7)
Absent – Casey and Shaw (2)

The motion failed. The petition received a negative recommendation from the Planning Commission.

The reasons for the negative recommendation were:

1. The Kendall County Regional Planning Commission would like the proposal to go to the Comprehensive Land Plan and Ordinance Committee to work out issues.

2. The Kendall County Regional Planning Commission had concerns regarding the due process for petitions.

3. The Kendall County Regional Planning Commission felt that Kendall County Regional Planning Commission meetings were the appropriate setting for creating conditions and restrictions for special use permits (express the values of the community).

4. Removing the Kendall County Regional Planning Commission meeting from the timeline for adoption does not slow down the approval process; the Senior Planner indicated that no extra time was needed for Kendall County Regional Planning Commission meetings.
5. The Kendall County Regional Planning Commission had concerns about a lack of thorough vetting of the implications of proposals if the Kendall County Regional Planning Commission did not meet and review proposals.

CITIZENS TO BE HEARD/ PUBLIC COMMENT
None

NEW BUSINESS
None

OLD BUSINESS
Consideration and Action on Amendments to Petition 18-04 Regarding Amending the Future Land Use Map for Property Near Route 47 in Lisbon Township - Commission Could Vote to Schedule a Public Hearing on the Petition
Chairman Ashton noted that changes were made to the proposal. A mixed use business area will be added along U.S. Route 52 down to the Village of Lisbon.

The Village President of Lisbon attended the Comprehensive Land Plan and Ordinance Committee meeting earlier in the evening.

Ms. Wilson expressed her surprise about the opposition to the proposal from the residents of the area.

Update on Petition 17-28 Pertaining to text Amendments to Outdoor Target Practice or Shooting Ranges (Not Including Private Shooting in Your Own Yard)
Mr. Asselmeier stated that the Planning, Building and Zoning Committee met on March 12th and the proposal has changed drastically. The proposal was sent to the State’s Attorney’s Office for review.

REVIEW OF PETITIONS THAT WENT TO COUNTY BOARD
Mr. Asselmeier reported that Petition 17-33 transferring certain powers and duties from the Hearing Office to the Zoning Board of Appeals passed at the County Board. Petition 17-29 increasing the notification requirements for applications for special use permits on properties zoned A-1 was sent back to the Planning, Building and Zoning Committee from the Committee of the Whole.

OTHER BUSINESS/ANNOUNCEMENTS
None

ADJOURNMENT
Ms. Wilson made a motion, seconded by Mr. Wormley, to adjourn. With a voice vote of all ayes, the motion passed unanimously. The Kendall County Regional Plan Commission meeting adjourned at 8:31 p.m.

Respectfully submitted by,
Matthew H. Asselmeier, AICP
Senior Planner

INTRODUCTION
The petitioner, Helmar Lutheran Church, would like to construct an approximately nine hundred twelve (912) square foot, three (3) car garage attached to the east side of the existing parsonage at the subject property. The proposed garage would replace the existing one (1) car garage and breezeway. If constructed as proposed, the new garage would encroach twenty feet (20’) into the required fifty foot (50’) rear yard setback. The property is zoned A-1 (Agricultural) District.

The variance application is attached as Attachment 1. The application mentions a side yard setback; the requested setback is the rear yard setback; both setbacks are fifty feet (50’). Also the application lists the address as 11935 Lisbon Road. The correct address is 11951 Lisbon Road. Both the setback location and address were corrected before the notice was sent to neighbors and newspaper.

GENERAL INFORMATION

Pictures of the subject property are included as Attachments 3-7. The diagram of the proposed garage is included in Attachment 1. The proposed garage will be twenty-three feet (23’) in height. The proposed attached garage would be located on the east side of the property in approximately the same location as the existing one (1) car garage.

According to information provided by the petitioner, the existing home was constructed in the 1950s.

On the site plan (see Attachment 2), the existing septic system is located underneath the patio located north of the existing breezeway. The existing well is located southwest of the house. The petitioner plans to relocate the septic system.

The side yard setback in the A-1 is the same as the rear yard setback; both are fifty feet (50’). The petitioner does not have any space on the south side of the lot to construct a garage of this size without seeking a variance.

KENDALL TOWNSHIP

The Kendall Township Board was emailed this proposal on 3.12.18.

ZBA Memo – Prepared by Matt Asselmeier – March 12, 2018
FINDINGS OF FACT
§ 13.04.A.3 of the Zoning Ordinance outlines findings that the Zoning Board of Appeals must make in order to grant variations. They are listed below in italics. Staff has provided findings in bold below based on the recommendation:

That the particular physical surroundings, shape, or topographical condition of the specific property involved would result in a particular hardship or practical difficulty upon the owner if the strict letter of the regulations were carried out. True, a practical difficulty exists because the existing house is approximately forty-nine feet (49’) from the south property line. A similar variance, possibly even larger variance, would be required to construct a garage on the south side. Constructing the garage north of the proposed location would impact the septic system.

That the conditions upon which the requested variation is based would not be applicable, generally, to other property within the same zoning classification. This is partially true. Other properties zoned A-1 could have similar configurations (i.e. location of the home on the parcel, the size of the parcel, location of well and septic, etc.) limiting the location of potential additions and causing encroachments in the setback. The number of properties sharing similar characteristics is unknown.

That the alleged difficulty or hardship has not been created by any person presently having an interest in the property. True, the Petitioner acquired this property at a time when standard garage and house sizes were smaller than modern standards. At the time of construction in the 1950s, the Petitioner could not have foreseen changes in lifestyles that caused demand for garages and homes to grow to present sizes.

That the granting of the variation will not materially be detrimental to the public welfare or substantially injurious to other property or improvements in the neighborhood in which the property is located. True, the construction of the proposed addition will not be detrimental to the public welfare or injurious to other properties. The proposed addition will not negatively impact lines-of-sight on adjoining roadways. In addition, ample space still exists between the Petitioner’s proposed garage and the adjoining field to allow the farmer to continue farming operations on the neighboring property.

That the proposed variation will not impair an adequate supply of light and air to adjacent property, or substantially increase the congestion in the public streets or increase the danger of fire, or endanger the public safety or substantially diminish or impair property values within the neighborhood. True, the proposed garage will not block light or air from adjacent properties. The proposed garage will not cause an increase in congestion on public streets. The proposed variance will not diminish property values in the area. Provided the garage is constructed to the building code, no increase of fire or public safety concerns are anticipated by this proposal.

RECOMMENDATION
Staff recommends approval of the variance request for the construction of an attached garage as shown in Attachment 2 to be setback approximately thirty feet (30’) from the eastern property line requiring a variance of twenty feet (20’) subject to the following conditions:

1. The site shall be developed in accordance with the attached site plan.
2. The petitioner shall secure all applicable permits prior to the construction and use of the proposed attached garage.

PUBLIC NOTICE
KENDALL COUNTY
**ZONING BOARD OF APPEALS**

Notice is hereby given that Zoning Board of Appeals will hold a public hearing on April 2nd, 2018 at 7:00 P.M.

The location of the meeting is at the Kendall County Office Building, Rooms 209 & 210 at 111 West Fox Street, Yorkville, IL.

The purpose of this hearing is to consider testimony and make a determination regarding Petition #18-08, The Helmar Lutheran Church is seeking a variance from Section 7.01.G.2.a of the Kendall County Zoning Ordinance to reduce the side yard building setback distance from 50 feet to 30 feet.

The property is located at the Northeast intersection of Lisbon Road and Helmar Road (11951 Lisbon Road, Newark, IL 60541) and is identified by Parcel Identification Number 05-31-300-002 and is legally described in Exhibit “A” attached.

The petitioner is acting for himself.

The petitioner is not a corporation.

The petitioner is not a business or entity doing business under an assumed name.

The petitioner is not a Partnership, Joint Venture, Syndicate or Unincorporated Voluntary Association.

This petition and related documents may be reviewed at the Planning, Building and Zoning Department, Room 203, 111 West Fox Street, Yorkville, IL 60560 or the Kendall County Website: http://www.co.kendall.il.us/planning-building-zoning/peitons. Questions can be directed to the same department at phone number (630) 553-4139.

All interested persons may attend and be heard. Written testimony should be directed to the Department but shall only be entered as part of the record at the discretion of the Kendall County Zoning Board of Appeals.

If special accommodations or arrangements are needed to attend this County meeting, please contact the Administration Office at (630) 553-4171, a minimum of 24-hours prior to the meeting time.

[Signature, Richard L. Niles] Vice-Chairman, Helmar Lutheran Church
TO THE
KENDALL COUNTY ZONING BOARD OF APPEALS
"FINDINGS OF FACT"

The Helmar Lutheran Church requests the Kendall County Board of Appeals to grant a variance in the A-1 zoning from a 50 foot side yard set-back to a 30 foot side yard set-back on the East side of the Helmar Lutheran Church Parsonage. The Church would like to make improvements to their Parsonage by removing a small single car garage and breezeway, in order to replace it with an attached three car garage. However, making this improvement to the Parsonage would be in violation of the A-1 Kendall County Zoning Ordinance.

The Parsonage was built in the 1950’s, and the Church has never made any improvements to the home since it was built. The Parsonage is used for the purpose of supplying a home for the Church’s minister and family. The existing garage is so small that it is not adequate to house most 21st Century cars. It is time to make necessary improvements in order to modernize the Parsonage; and we believe that the addition of a three car garage is in the best interest of the Helmar Lutheran Church, its minister and his family.

Included in this request is a satellite view of the Parsonage and the surrounding properties. The Parsonage is located on the Northeast corner, at the intersection of Lisbon and Helmar Roads. As one can see from this satellite perspective, there are no adjacent buildings. The granting of this variance would not impair an adequate supply of light and air to adjacent property, or increase the congestion in the public streets or increase the danger of fire, or endanger the public safety or substantially diminish or impair property values within the neighborhood. Conversely, neighborhood property values would actually benefit by the enhanced improvements to the Parsonage.

In researching public records and after much difficulty, the DEED of RECORD No 111 and recorded at the Kendall County Recorders office was found in their archives. The deed was recorded on August 1st, 1953, and in this Quit Claim Deed, it was found that an additional 30 feet along the Northern most property line and 20 feet along the Eastern most property line was included in the deed as a lease. This was for a period of 50 years and the lease expired in 2003. Consequently, the current owners of the property are Central Sod Farms. The General Manager and
CEO of Central Sod Farms is Richard Warpinsky who has recently been contacted and is willing to Quit Claim Deed this portion of their property to the Helmar Lutheran Church. Because of the closeness of time, and that this application needed to be submitted to the Kendall County Board of Appeals by March 2\textsuperscript{nd}, it is not possible to included the legal drafts in this application. However, the legal paper work showing this transaction will be submitted to the Kendall County Board of Appeals as soon as it will be available.

The parishioners of the Helmar Lutheran Church voted almost unanimously to allocate the funds to make this improvement to the Parsonage and so would humbly request the Kendall County Zoning Board in their wisdom to grant this variance.

DEED RECORD No. 111

LEASE INDEMNITY

Chicago-Kent College of Law

to

Helmar Evangelical Lutheran Church

THIS INDEMNITY, made this 1st day of August, A.D. 1953, between CHICAGO-KENT COLLEGE OF LAW, being an educational corporation, incorporated not for pecuniary profit under the laws of the State of Illinois, having its principal and registered office in the City of Chicago, County of Cook and State of Illinois, party of the first part, and HELMAR EVANGELICAL LUTHERAN CHURCH, a religious corporation of the County of Kendall and State of Illinois, having its principal office and place of worship in said County and State, party of the second part.

WITNESSETH, that the party of the first part does hereby demise and lease to the party in
of the second part, to be used for parsonage purposes only, the premises situated in the Town of
Kendall, County of Kendall and State of Illinois, known and described as follows:

Commencing at a point on the West line of Section thirty one (31), Township thirty-six
(36) North, Range seven (7), East of the Third Principal Meridian, in said Kendall County,
Illinois, being in the center of the public road and eight rods North of the South West
corner of said Section 31, thence North along the center of the road 30 feet, thence East
at right angles with the first course 30 rods, thence South and at right angles with the
second course 30 feet, thence Westerly parallel with the second course 30 rods, more or less,
to the place of beginning, situated in the South West quarter of the South West quarter of
said Section 31.

TO HAVE AND TO HOLD the same, unto the party of the second part, from the 1st day of
August, A.D. 1953, until the 31st day of July, A.D. 2003, unless said term is sooner terminated, as
hereinafter provided. And the party of the second part in consideration of said demise, does
concur and agrees with the party of the first part, as follows:

FIRST: To pay to Lessee as rent for said leased premises for said term the sum of One
Dollar ($1.00), payable in advance, receipt whereof is hereby acknowledged by the party of the first
part.

SECOND: That it has examined and knows the condition of said premises; and has received
the same in good order and repair, and that it will keep said premises in good order and repair
during the term of this lease, at its own expense; and, upon the termination of this lease, will
yield up said premises to said party of the first part in good condition and repair.

THIRD: That it will not sub-let said premises, nor any part thereof, nor assign this lease
without the written consent of the party of the first part.

FOURTH: To pay in addition to the rents above specified, all water rents, taxes, levied or
charged on said demised premises, and all other taxes, assessments or impositions levied or charged
against said premises during the term of this lease.

FIFTH: The term herein created shall terminate forthwith if at any time hereafter the party
of the second part (a) shall cease to be a Lutheran Church having its present denominational
affiliations; (b) shall fail, for a period of one year or more, to continue to conduct its Lutheran
religious services in its church located at the Northwest corner of the parcel of real property
lying immediately South of the premises herein demised; (c) shall, in connection with the operation
of its said religious services at Helmar, as aforesaid, fail, for any period of ninety days, to occupy
and use as a parsonage for the residence of its minister the parcel of real property lying
immediately South of the premises herein demised; (d) shall erect or construct any improvements
or structures in or upon the premises herein demised; (e) shall fail, at any time during the
demised term, to erect and maintain at its own expense a
fence, upon the North and East boundaries of the herein demised premises; (f) shall, at
any time, use said premises, or any part thereof, for any purpose other than the parsonage or yard
DEED RECORD No. 111

purposes for which said premises are herein described.

All the parties to this lease agree that the covenants and agreements herein contained shall be binding upon, apply and inure to, their respective successors and assigns.

IN WITNESS WHEREOF the party of the first part has caused these presents to be executed in its corporate name, by its President, its corporate seal to be hereto affixed, attested by its Secretary, and the party of the second part has caused these presents to be executed in its corporate name by its proper officers and its corporate seal to be hereeto affixed, said officers being duly authorized thereunto, all on the day and year first above written.

LEGAL DESCRIPTION OF 0.2942-ACRE TRACT TO BE CONVEYED TO HELMAR LUTHERAN CONGREGATION:
The South 187 feet of the West 185 feet of the Southwest Quarter of Section 31, Township 36 North, Range 7 East of the Third Principal Meridian (except the South 132 feet of the West 165 feet thereof) in Kendall Township, Kendall County, Illinois.

LEGAL DESCRIPTION OF SUBJECT PROPERTY:
The South 132 feet of the West 165 feet of the Southwest Quarter of Section 31, Township 36 North, Range 7 East of the Third Principal Meridian, in Kendall Township, Kendall County, Illinois.

FLOODPLAIN STATEMENT:
The Subject Property is located in Zone X (areas determined to be outside the 0.2% annual chance floodplain) as depicted on Fema Flood Insurance Rate Map Number 1709301250 with an effective date of February 4, 2009.

WETLANDS STATEMENT:
The National Wetlands Inventory Map shows no designated wetlands on the Subject Property.
INTRODUCTION
The LaSalle National Trust #47016 owns three (3) parcels of the property on the north side of U.S. Route 34 across the street from the Fox Hill Subdivision. Plote Construction Company was awarded the Illinois Department of Transportation, U.S. Route 34 Reconstruction and Widening Project. Plote Construction Company desires to use a portion of the property owned by the LaSalle National Trust #47016 for an onsite concrete plant. At its closest point, the proposed facility will be three hundred eighteen feet (318’) from the nearest occupied principal structure.

In addition to the requested variance, the proposal also requires a temporary use permit from the Kendall County Planning, Building and Zoning Committee.

The variance application is attached as Attachment 1. The plat is attached as Attachment 2 and the Site Plan is attached as Attachment 3.

GENERAL INFORMATION
Pictures of the subject property are included as Attachments 4-8.

CURRENT LAYOUT
The subject area for the proposed operations currently has two (2) abandoned houses, one (1) garage, one (1) collapsed shed, one (1) concrete silo approximately fifty feet (50’) in height, two (2) driveways onto U.S. Route 34, several trees and brush, and trash and debris of various types. The field on the east, north, west sides of the property will be planted in the spring, according to the Petitioner. The property currently has open junk and debris violations and unsecured structure violations (V17-023) from the Kendall County Planning,
Building and Zoning Department.

PROPOSED OPERATIONS
According to the information provided to the County, the property owner would remove all of the structures, junk and debris, and trees from the property.

Upon removal of the above items, Plote Construction Company would setup a concrete batch plant in the layout shown in Attachments 1 and 3. The property would be used to recycle the existing asphalt and concrete to use for the subbase for the reconstructed and widened roadway. The specs for the mobile concrete and asphalt crushing equipment are included in Attachment 1. Plote Construction Company’s operations would consist of a material stockpile, a batcher, control trailers, material conveyors, a concrete pad, three (3) cement pigs, a generator trailer, an admin trailer, a concrete washout, and a concrete crushing area. No permanent structures would be placed onsite; however, a permit will be required for the admin trailer. The tallest structure onsite would be approximately fifty feet (50’) in height; the same height as the existing grain silo.

If the temporary use permit was approved, Plote Construction Company plans to start operations in April and operate the plant until December 2019. Usually, two to three (2-3) employees will be onsite, but this number could increase to ten (10) people during high activity periods. Unless amended by the temporary use permit. Plote Construction Company’s intended operations are Monday–Friday from 7:00 a.m. until 5:30 p.m. In their application materials, Plote Construction Company says, “actual production days of the concrete plant are estimated between 60 and 80 days for the next two seasons. Actual days of crushing operations are estimated between 40 to 50 days for the next two seasons.” Plote Construction Company plans to remove the plant within two (2) weeks of completion of the project at which time the property could be converted back to agricultural purposes.

Plote Construction Company chose this site because of its proximity to the project site (U.S. Route 34). The portion of the property planned for Plote Construction Company’s operations is currently not farmed. If the operations were pushed outside the proposed area, the farm field would be impacted. Plote Construction Company’s operations will be a small amount of land currently used for growing crops.

If the requested variance is denied, Plote Construction Company would move their operations in the right-of-way, pending approval by the United City of Yorkville. This move could cause the operations to be closer to the houses in the adjoining subdivision.

TEMPORARY USE PERMIT
Pursuant to Section 4.19 of the Kendall County Zoning Ordinance, the operation of a concrete ready mix or asphalt plant, when necessary or incidental to a major construction project in any Agricultural, Business, or Manufacturing District is a temporary use and must meet the following criteria or obtain a variance:

1. Each such permit shall be valid for a period of not more than one (1) year and shall not be renewed for more than two (2) successive periods at the same location.
2. **The plant shall be located a minimum of one thousand (1,000) feet from any occupied principal structure. (emphasis added)**
3. All facilities placed or located on the site shall be removed and the site restored to its original condition within the time frame of the permit. The operator of the facility shall guarantee the proper removal of all facilities with good and sufficient security as approved by the Zoning Administrator.
4. The plant shall produce product only for the specific parcel for which the temporary use is permitted. For plants constructed to support a major road project, the plant shall be located adjacent to the roadway.
5. Hours of operation must be 7am-5:30pm Monday thru Saturday unless otherwise permitted.
6. Before the issuance of the temporary use permits, the septic field shall be roped off and the water well shall be clearly staked to allow for the protection of both of these utilities. The areas shall remain marked or roped off through the duration of the project.

If the variance is approved, this proposal will move to the Kendall County, Planning, Building and Zoning Committee for a final decision on the temporary use permit request.
UTILITIES
A Commonwealth Edison power hookup is the desired electricity source for the plant. A generators will be used as a secondary option.

Pending approval by the United City of Yorkville, a fire hydrant will be used a water source for operations.

One (1) Porta-potty with an eye washing station will be placed onsite.

TRAFFIC CONTROL PLAN
Plote Construction Company’s permit from the Illinois Department of Transportation allows Plote Construction Company to close lanes on U.S. Route 34 from 8:30 a.m. until 2:30 p.m. At least one (1) lane of traffic will remain open.

On the subject property, the western driveway will be used for exiting the site and the eastern driveway will be used to enter the site. The driveways will not be paved, but asphalt grindings will be installed to reduce dust.

BARRIERS and NOISE WALLS
If the temporary use permit is approved, starting in the second week of April, a three point five foot (3.5’) barrier wall will be installed on the north side of U.S. Route 34 from Center Street to Eldamain Road. This wall will have an opening at the entrance and exit driveways of the subject property.

A noise wall will be installed on the south side of U.S. Route 34 north of the Fox Hill Subdivision starting in November 2018. The wall will average ten feet (10’) in height. The majority of the trees currently located on the berm south of U.S. Route 34 will be removed.

Plote Construction Company believes that these walls will reduce noise, dust, and the other negative impacts of the construction on the neighboring residential properties.

DUST CONTROL
Plote Construction Company submitted a dust control plan to the Illinois Department of Transportation. This plan will be revised upon completion of the wall on the south side of U.S. Route 34. In addition, Plote Construction Company will use a baghouse to catch the majority of dust particles generation from the plant. According to the information provided to the County, “Plote will constantly monitor duct (sic) and will use a water truck to spray haul roads when needed.” Plote Construction Company will also sweep the road as necessary.

BRISTOL TOWNSHIP
The petitioner mailed this proposal to Bristol Township on 3.8.18. Staff emailed Bristol Township this report on 3.14.18.

UNITED CITY OF YORKVILLE
The petitioner mailed this proposal to the United City of Yorkville on 3.8.18. Staff emailed the United City of Yorkville this report on 3.14.18.

FINDINGS OF FACT
§ 13.04.A.3 of the Zoning Ordinance outlines findings that the Zoning Board of Appeals must make in order to grant variations. They are listed below in italics. Staff has provided findings in bold below based on the recommendation:

That the particular physical surroundings, shape, or topographical condition of the specific property involved would result in a particular hardship or practical difficulty upon the owner if the strict letter of the regulations were carried out. The Petitioner currently leases the adjacent farm ground to a farmer that has already planted crops. If the location of the proposed plant were located one thousand feet (1,000’) from the nearest occupied principal structure, more farm land would be taken out of service for growing crops.

That the conditions upon which the requested variation is based would not be applicable, generally, to other property within the same zoning classification. This is partially true. Other properties zoned A-1 could have similar configurations (i.e. location of the home site(s) on the parcel, the size of the parcel,
location of occupied principal structures on neighboring properties, etc) limiting the location of concrete and asphalt plants. The exact number of properties sharing similar characteristics is unknown, but any farm located next to a road and near houses could have similar conditions.

That the alleged difficulty or hardship has not been created by any person presently having an interest in the property. The petitioner did not cause the construction of the homes on the south side of U.S. Route 34 and did not cause the widening of U.S. Route 34. However, the petitioner could have chosen to take additional farm ground out of production so that the proposed plant could have been located further away from the nearby houses.

That the granting of the variation will not materially be detrimental to the public welfare or substantially injurious to other property or improvements in the neighborhood in which the property is located. The proposed variance and temporary use permit will be effective for less than two (2) years. The placement of the proposed use at the subject property should cause the completion of the U.S. Route 34 project in a timely manner. Plote Construction Company has approval from the Illinois Department of Transportation to periodically close traffic lanes and Plote Construction Company has a dust control plan approved by the Illinois Department of Transportation. The various walls constructed along U.S. Route 34 should also address noise, sight, and dust issues.

That the proposed variation will not impair an adequate supply of light and air to adjacent property, or substantially increase the congestion in the public streets or increase the danger of fire, or endanger the public safety or substantially diminish or impair property values within the neighborhood. The proposed variation is temporary and a part of public transportation project. Increased congestion will occur in this area for the duration of construction whether or not the variance is approved. Given that the proposal is temporary, there should be no long term damage to public safety or property values.

RECOMMENDATION
Because the requested variance is for temporary use and because the requested variance is sought to expedite a public project on a highly trafficked State-maintained highway, Staff recommends approval of the variance request for the placement of a temporary concrete ready-mix or asphalt plant necessary and incidental to a major construction project in the Agricultural District to be located at its closest point approximately three hundred eighteen feet (318’) from an occupied principal structure requiring a variance of six hundred eighty-two feet (682’) to the following conditions:

1. The site shall be developed in accordance with the attached site plan.
2. The petitioner shall resolve all outstanding alleged Zoning Ordinance violations prior to the commencement of operations.
3. The petitioner shall secure all applicable permits prior to the construction and use of the proposed plant.
4. The petitioner shall comply with any restrictions or conditions imposed as part of the temporary use permit.
5. The variance allowed by this Variance Ordinance shall expire at the same time as the temporary use permit expires.

Yorkville, IL  60565
Temporary Concrete Batch Plant – IDOT Contract #66993

VARIANCE APPLICATION REQUEST

Mr. Asselmeier,

On behalf of our client, LaSalle National Trust #47016, we respectfully submit the following Variance Request Application and associated documents for the above-referenced site. The following items are enclosed for review and request to be on agenda for the April 2, 2018 Kendall County Zoning Board of Appeals meeting,

1. Completed Application Form
2. Variance Application fee of $425.00 made payable to “Kendall County Treasurer”
3. Legal Description of parcel as described in Wheatland Guaranty Company’s Title Commitment WTG No. 13-2013KL-2189.0
4. Proof of Ownership Wheatland Guaranty Company’s Title Commitment WTG No. 13-2013KL-2189.0
5. Beneficiary Disclosure Statement for Property for LaSalle National Trust #47016
6. Variance Findings of Fact as completed by Plote Construction – IDOT Contractor for Contract #66993
7. Project Summary for proposed Variance Request completed by Plote Construction, Inc. dated March 1, 2018
8. Twelve (12) folded full size copies of the Plat of Survey prepared by DLZ Industrial Surveying, LLC dated March 2, 2018
9. Twelve (12) folded full-size copies of the Proposed Siteplan – Temporary Concrete Batch Plant prepared by Cook Engineering Group dated March 2, 2018
10. Dropbox link below for PDF format of all documents listed in this submittal,

https://www.dropbox.com/sh/4yqgkq7ldhi0nmh/AAA9Zy4FkC9qRxIAt4fJFM-a?dl=0
11. Letter of Notification for Public Notice for “Zoning Board of Appeals”, executed by owner

Please review the above-listed and enclosed items at your earliest convenience, and feel free to contact me directly if you should have any questions.

Sincerely,
Cook Engineering Group

Michael D. Cook, P.E.
President

RE: IDOT Contract #66993: F.A.P Route 591 (US-34 in Yorkville)
Project #: NHPP-NCII-0591(030)
Section #: (13) R-2[(13BR) C, (13BR-1) BR]
Plote Job #: 170450
Variance Request for a Temporary Concrete Batch Plant & Materials Crushing Site

Matt,

Plote Construction is seeking approval from Kendall County and the City of Yorkville to install a temporary concrete batch plant located at 11443 Route 34, Yorkville, IL 60560, as depicted in the attached drawing. In addition to using the parcel as a temporary batch plant, Plote would also be using this area to recycle the existing asphalt and concrete roadway by crushing the material and producing stone which will be used as the proposed future roadway subbase. This property (old farm site) currently holds two (2) abandoned houses, three (3) sheds, one (1) garage, one (1) collapsed shed, one (1) concrete silo, and a large amount of miscellaneous debris. Upon Kendall County approval, all above ground structures will be removed by the land owner. Once Plote is finished using this property it will be restored to agricultural farm land. This property is located within the construction limits of Plote’s IDOT project #66993, but it is just north of the new proposed ROW as part of Kendall County Zoning.

Section 4 - General Provisions listed in the Kendall County Zoning Ordinance manual states, “b.) The plant shall be located a minimum of one thousand (1,000) feet from any occupied principal structure.” Plote is requesting a variance from section b. As shown in the attached map, the temporary batch plant and crushing operations would be located a minimum of 400’ to 500’ from the nearest occupied structure (south of Route 34). Plote will stockpile materials in a way which established a partial barrier between the concrete plant and the houses located in Fox Hill subdivision, south of Route 34. In addition, Plote will follow the other stipulations outlined in the Counties Ordinance Manual. The south side of the property will be used as an equipment and material staging area.

The anticipated use of this property would be from present, March 2018, through December 2019. For the plant and crushing operations, Plote will follow the working hours of 7AM to 5:30PM detailed in the counties manual, unless written approval from the County and City is granted. The materials produced from this property will only serve IDOT project #66993, roadway reconstruction on Rt. 34 from Center Rd. to Eldamain Rd.,
and IDOT project #87666, roadway reconstruction on Eldamain Rd. from Rt. 34 to River Rd. While construction equipment and material stockpiles will be located on the property for the duration of the project, actual production days of the concrete plant are estimated between 60 to 80 days for the next two seasons. Actual days of crushing operations are estimated between 40 to 50 days for the next two seasons.

Plote understands that air pollution and construction dust is a concern for the County, City, and residents. Plote has submitted a dust control plan to IDOT which will be followed as part of this property use. In addition, the mobile batch plant is equipped with a “baghouse”. A baghouse is an air pollution control device that entraps the majority of dust particles. In addition to the baghouse, Plote will constantly monitor duct and will use a water truck to spray haul roads when needed. Attached are specs for the mobile crusher which would be on site.

IDOT project #66993, includes building a Noise Wall between the houses in Fox Hill subdivision and Route 34. The start of construction of this Noise Wall could begin as early as November 2018. The goal is to work on this Noise Wall during the winter months of 2018/ 2019, into spring of 2019. Once this wall is finished, visual blight and construction noise to project activities will be minimized drastically.

Power for the concrete plant will either be hard wired off the Rt. 34 ComEd lines or a temporary generator. The preferred water source for the concrete plant would be the water hydrant located in the South East corner of Diehl Farm Rd and Rt. 34. Approval through Yorkville with use of a meter will be needed. Plote would bore a rigid conduit under Rt. 34 from the hydrant to the north ROW and run a 3” hose inside the conduit. The conduit would be abandoned and filled when complete using flowable fill or an approved IDOT material.

Ingress and Egress to the site would be coordinated with IDOT utilizing IDOT traffic standards. Plote Construction will be responsible for ensuring vehicle track out onto Route 34 is maintained through the use of aggregate construction entrances and street sweeping if needed.

Sincerely,
Plote Construction, Inc.

Nick Porter

Project Manager
Proposed Temporary Concrete Batch Plant & Material Crushing Site
Plote Construction - IDOT Project #66993
11443 Route 34, Yorkville, IL 60560
MOBIREX MR 130 Z/130 Zi EVO2

**TECHNICAL HIGHLIGHTS**

- Optimised material flow as a result of extending system widths
- Hydraulic gap setting
- Simple and intuitive SPECTIVE control concept
- Efficient and powerful diesel-direct drive
- High-performance secondary screening unit with oversize grain returning (option)

**TECHNICAL INFORMATION MR 130 Z/130 Zi EVO2**

### Feeding unit
- Feed capacity up to approx. (t/h)\(^1\) 450
- Feed size max. (mm) 1,100 x 700
- Feed height (with extension) (mm) 4,340 (4,700)
- Hopper volume (with extension) (m\(^3\)) 5.0 (9.0)
- Width x Length (with extension) (mm) 2,250 x 3,700 (3,000 x 3,700)

### Vibrating feeder
- Width x Length (mm) 1,200 x 2,600

### Prescreening
- Type double-deck heavy-piece screen
- Width x Length (mm) 1,200 x 2,300

### Side discharge conveyor (optional)
- Width x Length (extended) (mm) 650 x 4,000 (6,000)
- Discharge height approx. (mm) 2,900 (3,650)

### Crusher
- Impact crusher type SHB 130 - 090
- Crusher inlet width x height (mm) 1,300 x 900
- Crusher weight approx. (kg) 16,500
- Rotor diameter (mm) 1,200
- Crusher drive type, approx. (kW) direct, 260
- Adjustment of impact toggles infinitely variable, fully hydraulic

### Crushing capacity with demolished concrete up to approx. (t/h)\(^1\) 300\(^1\)
- Crushing capacity with rubble up to approx. (t/h)\(^1\) 300\(^1\)
- Crushing capacity with broken asphalt up to approx. (t/h)\(^1\) 260\(^1\)
- Crushing capacity with limestone up to approx. (t/h)\(^1\) 270\(^1\)

### Vibrating extractor
- Width x Length (mm) 1,400 x 2,700

### Crusher discharge conveyor
- Width x Length (mm) 1,400 x 9,700
- Discharge height approx. (mm) 3,700

### Power supply unit
- Drive concept
  - MR 130 Z EVO2: Scania (Tier 3/Stage IIIA) (kW) 371 (1,800 rpm)
  - Scania (LRC) (kW) 410 (1,800 rpm)
  - MR 130 Zi EVO2: Scania (Tier 4f/Stage IV) (kW) 368 (1,800 rpm)
- Generator (kVA) 135

### Secondary screening unit (optional)
- Type single-deck lightweight screen
- Width x Length (mm) 1,550 x 4,550
- Return conveyor (extended) (mm) 500 x 9,750 (650 x 9,750)
- Discharge height of fine grain discharge conveyor approx. (mm) 3,600

### Transport\(^5\)
- Transport height approx. (mm) 3,750
- Transport length without (with) screening unit approx. (mm) 18,400 (21,750)
- Transport width without (with) screening unit max. (mm) 3,000 (3,150)
- Transport weight without (with) screening unit approx. (kg) 49,200 (58,200)
- Transport weight of screening unit approx. (kg) 6,400
- Transport width with hydraulically foldable side discharge conveyor (mm) 3,100
- Transport width with secondary screening unit 500 / 650 (mm) 3,150 / 3,350
- Transport width with secondary screening unit 500 / 650 and hydraulically foldable side discharge conveyor (mm) 3,250 / 3,450

\(^1\) dependent on the type and composition of the feed material, the feed size, the prescreening, as well as the desired final grain size

\(^2\) for final grain size 0 - 45 mm with approx. 10 - 15% oversize grain

\(^3\) for final grain size 0 - 32 mm with approx. 10 - 15% oversize grain

\(^4\) all secondary drives electrically

\(^5\) no options
MOBIREX MR 130 Z/130 Zi EVO2

The mobile impact crushers of the EVO-Line can be deployed universally and produce first class final product quality. Despite their comparatively compact crusher inlet widths of 1,100 mm or 1,300 mm (MR 110 EVO2 / MR 130 EVO2), they achieve outputs that up to now were only known to be possible with distinctly larger crushing plant systems. This is made possible by outstanding cost effectiveness and performance with a variety of technical highlights. Thanks to their compact design, the plant systems are easy to transport and can be assembled and disassembled again quickly.

STANDARD FEATURES

- Hydraulically foldable feed hopper, can be operated from the ground
- Frequency-controlled vibrating feeder
- Frequency-controlled prescreen
- Prescreen with slotted grate or punched plate (upper deck) and wire cloth mesh (lower deck)
- Impact crusher with blow bars set manganese
- Continuous Feed System CFS: for optimal and continuous crusher feed
- Automatic gap setting
- Integrated overload protection

OPTIONS

- Lock & Turn (rotor turning and locking device): Device for safely turning and locking the rotor for service purposes or blockages
- Swivel arm for changing blow bars
- Control concept SPECTIVE: menu-guided user interface, 12 inch operator panel
- Lockable control cabinet, protected against dust and vibrations
- Lighting LED
- Eye hooks
- Spray system for dust reduction
- Climate packages: Hot or cold package
- Electromagnetic separator, permanent magnet or magnet preparation
- Secondary screening unit, in comfortable container dimension, suitable for hook and lift available with 500 or 650 mm return conveyor
- Belt scale, available for crusher discharge conveyor and fine grain conveyor (secondary screening unit)
- Wind sifter for removing foreign material and light elements from the oversize grain by means of an 11 kW blower with air outlet below the transfer. Only available in conjunction with the secondary screening unit.
- Socket 110 V
- Track pads for the crawler chassis to protect subsurface

- Hopper extension: hydraulically foldable
- Side discharge conveyor 4 m: can be mounted on left or right, discharge height approx. 2,900 mm; disassembled for transport, inclusive spray system
- Extended side discharge conveyor 6 m: can be mounted on left or right, discharge height approx. 3,650 mm, disassembled for transport, inclusive spray system
- Belt cover side discharge conveyor (sheet, metal) in conjunction with rigid side discharge conveyor
- Side discharge conveyor, hydraulically folding can be used on both sides, discharge height 3,390 mm, remains on the plant while transport, incl. spray system
- Different loose screen coverings: slotted grates, punched plate, wire cloth meshes
- Wide portfolio of blow bars and impact plates
SPARE PARTS

Cost-effective operation of the machine also requires selection of the correct wear parts. KLEEMANN original parts are ideally tuned to the requirements of users and machines. They are characterised by a long service life, superior quality, high availability and trouble-free assembly. We support our customers with our application know-how and competent advice, which allows them to find the optimum wear part for their specific application.

IMPACT PLATES

1. All wear plates from the main wear zone with mounting hardware are included in the service package for easy exchange.
2. Thick-walled KLEEMANN Resistant Steel wear plates protect the housing.
3. The wear plates are for the most part interchangeable, greatly reducing the spare parts stock.
4. The mounting hardware includes all necessary screws for a secure fit.
5. Example of a manganese cast impact plate, which is individually replaceable depending on the machine and requirement.*

* 2 qualities available: manganese and martensitic

MINUTES OF CONDEMNATION

In order that we may guarantee title after completion of any proceedings for condemnation in exercise of the proposed insured’s right of eminent domain, we note the following.

I. Upon the filing of complaint a proper Lis Pendens Notice should be recorded in the appropriate Recorder’s office.

II. Our Policy, when issued, will be subject to direct attack upon any decrees and or judgments entered in the proceedings.

III. The following persons are necessary parties to any such proceedings.

A. All parties acquiring rights in the premises subsequent to the date of the report and prior to a complete Lis Pendens.

B. Any person other than those herein named known to the Plaintiff or the Plaintiff’s attorney to have or claim an interest in the premises.

C. If it is known that any of the necessary parties named herein are deceased, their heirs or devisees should be made parties by name, if known, and if unknown, then by the name and description of Unknown Heirs and Devises of such deceased person or persons.

D. If it is not known or cannot be ascertained whether any of said necessary parties be living or dead, then such parties should be made parties by name, also such parties should be their heirs or devisees, should be made parties to the proceedings as UNKNOWN OWNERS.

E. All persons in possession of any part of the premises in question and all persons whose rights would be disclosed by an inspection of the premises.

F. All parties claiming by through or under lease agreements whether oral or written, for premises.

G. All parties claiming by or through or under installment contracts for deed or like agreements.
WTG Number: I3-2013KL-2189.0

MINUTES OF CONDEMNATION CONTINUED

IV. The following persons are noted of record and are necessary parties to any proceedings:

H. The Plaintiff is:

The People of the State of Illinois, Department of Transportation

I. The Defendants are:

1. Chicago Title Land Trust Company successor to LaSalle National Bank, as Trustee under the provisions of a Trust Agreement dated December 1, 1973, and known as Trust Number 47016

J. Any parties named above who have executed all necessary documents for the Grant of Easement and Right of Way after payment of agreed consideration theretofore need not be joined as party defendants for our policy to be issued.

   MY COMMISSION EXPIRES: 04/04/22
Please fill out the following findings of fact to the best of your capabilities. § 13.04 of the Zoning Ordinance outlines findings that the Zoning Board of Appeals shall take into consideration the extent to which the following conditions have been established by the evidence:

See attached Narrative for more information on this Variance Request.

That the particular physical surroundings, shape, or topographical condition of the specific property involved would result in a particular hardship or practical difficulty upon the owner if the strict letter of the regulations were carried out.

The property owner has an existing lease with a farmer who has already planted the surrounding acreage.

That the conditions upon which the requested variation is based would not be applicable, generally, to other property within the same zoning classification.

The conditions upon which the requested variations is based would not be applicable to other property within the same zoning classification.

That the alleged difficulty or hardship has not been created by any person presently having an interest in the property.

The difficulty in citing the use on the Property has not been created by any person having an interest in the Property.

That the granting of the variation will not materially be detrimental to the public welfare or substantially injurious to other property or improvements in the neighborhood in which the property is located.

The proposed use and variation is temporary for only 20 months and is only operational during actual concrete pours and actual days of crushing. Given the limited use and duration of the concrete plant, it offer no harm to the public or surrounding properties.

That the proposed variation will not impair an adequate supply of light and air to adjacent property, or substantially increase the congestion in the public streets or increase the danger of fire, or endanger the public safety or substantially diminish or impair property values within the neighborhood.

The proposed use and variation is temporary in nature for the purpose of a public improvement project. It will not substantially increase congestion given the use is only operational during concrete pours and days of crushing, the plant itself is not combustible nor does it create a public safety concern. Given the temporary nature of the use it also will have no impact on property values.
