The proposed use shall make adequate provisions for appropriate buffers, landscaping, fencing, lighting, building materials, open space and other improvements necessary to insure that the proposed use does not adversely impact adjacent uses and is compatible with the surrounding area and/or the County as a whole. Dickson Valley has had great relationships with all neighbors, never causing any negative situations and quite often benefiting neighbors with the use of the land and resources.

That adequate utilities, access roads and points of ingress and egress, drainage, and/or other necessary facilities have been or are being provided. Of the 160 acres of mostly wooded land, only about 25% has been developed, leaving a lot of great natural resources. The township road has been updated and has always proved adequate for our traffic and still is a seldom traveled road.

That the special use shall in all other respects conform to the applicable regulations of the district in which it is located, except as such regulations may in each instance be modified by the County Board pursuant to the recommendation of the Hearing Officer. Dickson Valley has had 30+ years in the county with no problems in following regulations.

That the special use is consistent with the purpose and objectives of the Land Resource Management Plan and other adopted County or municipal plans and policies. Dickson Valley has worked with many local agencies on resource management and other plans and continues to follow through and work within them.

WHEREAS, the Kendall County Board has considered the findings and recommendation of the Hearing Officer and finds that said petition is in conformance with the provisions and intent of the Kendall County Zoning Ordinance; and
WHEREAS, this special use shall be treated as a covenant running with the land and is binding on the successors, heirs, and assigns of the property owner as to the same special use conducted on the property; and

NOW, THEREFORE, BE IT ORDAINED, that the Kendall County Board hereby repeals Kendall County Ordinances #02-12, #00-24, #00-17A & #83-17 in their entirety and grants approval of a major amendment to their existing special use zoning permit to continue operation of their camp and retreat center at 8250 Finnie Road in accordance to the submitted Site Plan included as “Exhibit A” attached hereto and incorporated herein subject to the following conditions:

1. The property can be utilized all year long.
2. At such time if the not-for-profit status is discontinued for any reason a new special use shall be applied for if the property is to be used for profit.
3. The number of overnight campers shall be limited to no more than 350 at any one time.
4. No more than 8 hook-ups for RV’s.
5. The sign shall be in conformance with the standards of sign illumination as set forth in the Kendall County Zoning Ordinance and can be externally lit.

Failure to comply with the terms of this ordinance may be cited as a basis for amending or revoking this special use permit.

IN WITNESS OF, this ordinance has been enacted on March 19th, 2014.

Mediation agreement

Member Prochaska made a motion for the approval of a Mediation Agreement between the Illinois Fraternal Order of Police Labor Council (Corrections Sergeants), the County of Kendall and the Kendall County Sheriff to use the mediation services of the Federal Mediation and Conciliation Services if mediator services are required. Member Gilmour seconded the motion.

Assistant State’s Attorney, Leslie Johnson stated that the Illinois Labor Relations Board has certified the bargaining unit for the Corrections Sergeants. In the event that they are unable to reach a collective bargaining agreement in this round or in future rounds of negotiations; first step is would be to utilize a mediator who would try to assist the parties in reaching a resolution in an agreement on a union contract. The Labor Board either requires the use of the services of the Labor Board or the services of the Federal Mediation & Conciliation Service. This agreement is done once a unit is certified by the Labor Board and lasts for perpetuity.

Member Wehrli seconded the motion.

County Engineer, Fran Klaas explained that it is not listed as a specific line item in the budget because it is proposed to come out of the County Bridge Fund which has 2 expenditure line items (Construction of County Bridges and Township Bridge Program). The project is related to oversize and overweight permits. The county issues them for anything over 80,000 pounds, over length, height and width. They have not been able to give permits on many structures. The consulting company has a program where they can analyze our structures based on the data collected in Will County. The Highway Department has had to turn the 130,000 plus loads away, this would allow some of the loads that can go over the bridges, go over the bridges.
