Kendall County Regional Planning Commission

Annual Meeting

Saturday, February 5, 2011
9:00 AM
County Board Room (Rooms 209-210)
111 West Fox Street
Yorkville, IL 60560

The Kendall County Regional Planning Commission is proud to announce its annual meeting will take place on Saturday, February 5, 2011 at 9:00am. One of the main objectives of this meeting is to give the public and any other interested parties an opportunity to comment on the County’s existing Land Resource Management Plan (LRMP) and to make suggestions and recommendations on proposed changes or modifications. As always, refreshments will be provided.

The Annual Meeting is also an opportunity for the Planning, Building and Zoning Department (PBZ) Staff to provide the Plan Commission and interested members of the public with an overview of the department’s activities and accomplishments during the previous calendar year. The PBZ department also presents the Commission with an overview of the goals and objectives for the coming year.

This year we are also extending an invitation to all of the townships, communities, and other various districts to share with everyone the planning activities they are working on in their jurisdictions. Copies of any land use plans or plan updates that are currently being worked on or recently completed will be welcomed to be shared.

During the meeting, the Regional Planning Commission will also hold a public hearing for discussion and recommendation to proposed revisions of the text contained in Sections 1 thru 5 of the LRMP.

For additional information, please contact the Kendall County Planning, Building and Zoning Department at (630) 553-4141. We hope to see you on the 5th!
