RE: Request for Return of a Wedding Security Deposit – Extenuating Circumstances

Date: May 3, 2017

The District received a request for return of a $1,000 security deposit for a cancelled wedding event (Wargowsky-Mancuso) scheduled for June 7, 2017.

In accordance with District policy, the signed contract states:

“Requests to change an event date will be accommodated up to 6 months prior to the original event date based on availability without penalty. In the event of a cancellation 6 months prior to the scheduled event, the KCFPD will retain 50% of the security deposit. In cases where cancellation is less than 6 months prior to the scheduled event, the KCFPD will retain the entire security deposit.”

On January 18, 2017 Tina Villarreal, Events Coordinator was contacted by the client and informed that the event was being cancelled due to an unexpected death in the family (groom’s father). As the cancellation occurred less than six months prior to the event date, the entire security deposit has been retained in accordance with District policy.

Rescheduling was offered as a courtesy (District policy allows for rescheduling up to 6 months prior to the event date. The client informed the District they did not wish to reschedule the event.

The District has not rescheduled another event for June 7, 2017.

Recommendation:

District staff requests Programming and Events Committee direction in responding to the request for a return of the $1,000.00 security deposit for the cancelled June 7, 2017 wedding event.
LESSON CANCELLATION POLICY

Your appointment time is valuable and has been reserved specifically for you. If it is necessary to cancel or reschedule your appointment, please provide us with a minimum of 48 hour notice. Otherwise a charge of one riding lesson will be incurred.

As a courtesy to you, we at Ellis House will also provide you with at least a 48 hour notice if we have a need to cancel or reschedule any lessons.

*Exceptions may be made in the cases of illness, extreme weather, or other emergency situations.*

If you have any questions or concerns, please don’t hesitate to let us know!

Sign: __________________________ Date: ______

Please provide a signature on the above line to acknowledge that you have received and understand the updated cancellation policy.

RE: Recommendation for Extending Promotional Discounts for Marketing Purposes
Date: May 3, 2017

Ellis Equestrian Center Program Coordinators recommend offering discounted camp registration fees for returning clients to increase registrations for camps this summer.

Returning Camper Discount $5 OFF a single camp registration
Returning Party Guest Discount $5 OFF a single camp registration
Returning Field Trip Guest Discount $5 OFF a single camp registration
Returning Lesson Student Discount $5 OFF a single camp registration

Party Host Discount 20% OFF a single camp registration ($8 - $39 value)
*The average party host spends between $200 and $350 on a party

In order for this to effectively support registration increases, the promotional discounts will need to be marketed this month.

Discounts will not be offered through the other ad promotions planned.

Recommendation:

Provide direction to implement the pilot discount promotional program.

Debbie Mika  
President, Whitetail Ridge HOA  
7671 Clubhouse Dr.  
Yorkville, IL 60560

Dear Debbie:

Please extend our appreciation to the Whitetail Ridge HOA Board for consideration of our request to access Henneberry Forest Preserve from the Whitetail Ridge Drive and Fairway Drive corner parcel (Photo Exhibit 1). We enjoyed the opportunity to meet with your board members and residents, and to hear about your interests and concerns.

The Kendall County Forest Preserve District will consider landscape improvements to the access parcel and construction of a mowed trail spur in Henneberry Forest Preserve to provide resident access. This project would include:

1. Restoration of the existing limestone screenings parcel pathway (see Photo Exhibit 1).

2. Construction of a mowed-turf trail spur that would connect to the other mowed turf trails within the preserve (Photo Exhibit 2).

3. Planting of 15-trees, 10-shrubs, and seeding native perennials with the “Pollinator-palooza” seed mix within the access parcel.

In order to complete this additional scope of work, the Whitetail Ridge HOA will need to grant the following permissions to the District:

   a. Permission to mow and herbicide (with existing tree protection) the entire 3-acre parcel in late summer / early fall.

   b. Permission to till and broadcast seed within the 3-acre parcel area.

   c. Permission to selectively apply herbicides and conduct a controlled burn of the parcel within the 5-year maintenance window.
Per request, the District’s Commission will consider funding a 5-year establishment plan. Maintenance costs after 5-year establishment should consist of an annual herbicide application to the access parcel trail, and perhaps installation of additional path screening material from time to time.

During the HOA presentation, Board members also requested additional information about the level of vehicular activity required to complete this project.

Based on discussions with SemperFi Land, Inc. President Robert Velazquez, access is requested Monday through Friday from 7:00 am to 4:00 pm from October 15 through November 30 for the initial construction phase.

Vehicles used in the initial construction phase will include:

1) A track skid steer
2) Farm tractor
3) Small dump truck
4) Pickup truck and trailer

Some equipment will remain on site for the duration of the project in an organized, clean and safe staging area. The construction workforce will include a 4 to 6 man team working for 15-20 work days.

In addition to the equipment below, the District is requesting access for 1-2 days that will involve use of a backhoe to disrupt the tile system prior to October 15, 2017, and access for up to two District vehicles assisting with project management over the initial construction project period.

The District and SemperFi plan to keep traffic to a minimum, and will support street cleaning at the end of each work day.

Following completion of the restoration project, watering trucks will need to visit the site on an as-needed basis in summer 2018. It is difficult to predict the number of watering events, but should be limited to 3-4 dates between rain events.

After first-year establishment, District restoration technician(s) and grounds maintenance staff will visit the preserve from time to time to insure that we are controlling for invasive species for the following two-year establishment period. This will include control for invasive species within the improved access parcel.

Post-establishment, the District will need access to the preserve and restoration site from time to time for turf trail mowing, seed collection, general cleanup, and prescription burns. For ongoing restoration activities, we will use a small utility vehicle (John Deere Gator) or District pickup truck to transport supplies and equipment.

Out of respect for resident concerns regarding the possibility of public draw into your community, the District will not publish the location of the spur trail.
The temporary corral fencing will be removed following the initial three-year establishment period (Photo Exhibit 3).

Please don't hesitate to contact me should you need any additional information to support your discussions.

Once the District receives word on your final decision(s), we can dedicate time to answer your remaining questions.

Sincerely,

Dave Guritz

The Conservation Foundation and Morton Arboretum invite you to provide input on the Chicago Region Trees Initiative

"The Future of Our Forest in Kendall County"

We hope you can plan to attend this informative session
May 16th, 5:00 – 7:00 pm
Hoover Forest Preserve, Meadowhawk Lodge, Yorkville

Discussion topics for your input will include:

• We only have 30% of our oak ecosystem remaining in Kendall County. What do we want to do protect and preserve?
• How much tree canopy do we need to improve air and water quality, reduce flooding or improve mental and physical health?
• What do we need to do so that we don’t have another problem like emerald ash borer?
• Buckthorn, an invasive species, comprises nearly 30% of our urban forest across the 7-county region. What can we do to keep the buckthorn population low or eliminate it before it takes over?
