Ms. Johnsons explained the process that is required for FOIA’s, and the time it takes to research, redact, and copy documentation for FOIA requests. Ms. Johnson stressed the need for a FOIA program that will assist with standardizing of forms, online posting of FOIA’s, the ability to share FOIA’s between offices/departments, complete record tracking, reduction in postage, and reduction of time spent responding to FOIA requests, and direct FOIA requests to the appropriate office, department or jurisdiction.

Koeppel stated that the software cost quoted is approximately $10,000 per year depending on the number of modules needed. STATUS REPORTS

➢ Board of Health – No report

➢ Health Department – Dr. Tokars distributed copies of the NACO Prescription Discount Card, and a flyer regarding the Low-fee Dental Discounts and Low-fee Health Discounts that are now being offered to Kendall County residents. Dr. Tokars also provided an update on NACO, and stated that her staff will contact local medical and dental offices with information about the new programs being offered.

Steve Curatti updated the committee on West Nile Virus, and how the Health Department has continued to educate the community on the disease. Mr. Curatti stated that is eighty degrees and eighty percent humidity are the prime settings for mosquito infestations and breeding increase.

This year there are fourteen traps set throughout the County, and they have detected the disease in the County every year that they have had traps set. The best time for the disease to take affect is in dry, yucky weather where warm water just sits and stagnates. So far this season, Environmental Health has performed 46 individual tests on our traps. From those 46 tests, there have been three positive pools. The Health Department continues its work with
the forest preserve district, park districts, and other local entities, as well as posting information on Facebook and local newspapers about the importance of protecting yourself from mosquito bites, and seeking treatment as needed. Mr. Curatti stated there have been over 3,200 dogs in Illinois that have been infected with West Nile disease this year.

Mr. Curatti also reported that the Health Department has increased Lyme Disease surveillance in the past two years by the use of tick drags in Forest Preserves and on trails, where they collect ticks that have jumped onto a cloth. Ticks are known to be in tall grass and bushes where ticks do “questing”, where they seek carbon dioxide and heat, and become active in temperatures of 43 degrees and above. The tick dragging allowed the Health Department to identify nine deer ticks last year that tested positive with Lyme Disease. This year the Health Department has collected 16 ticks that they will send for testing. The Health Department continues to meet with Rush Copley and other local entities to educate physicians about Lyme Disease and treatment of the disease.

Kendall County Soil and Water District – Megan Andrews reported that Jenny Wold is busy with additional preparations for the Summer Ag Institute that is held for local teachers. Last week the teachers toured a local mint farm, a couple of dairy farms, as well as tours of food processing and food flavoring.

Ms. Andrews and Ms. Wold will participate once again in the annual Kendall County Fair from August 3 – 6, 2017. They are normally stationed in the Family Fun Activity Tent located near the chicken and duck building on the fairgrounds, and Ms. Andrews invited the committee to stop by.

Ms. Andrews stated that the Summer Conference is an annual business meeting where all of the State Soil & Water Districts meet in Springfield. This year they will continue work on strategic planning at meetings next Monday and Tuesday. In addition to the state-wide effort, the KC Soil & Water is having their own strategic planning conducted by someone from Northern Illinois University this fall.

Ms. Andrews also reported that state funds were allocated for soil & water districts, but have not been released as yet. They continue waiting for information on when the funding will be released.

From Planning, Building & Zoning Committee:

- Petition 17-14-Kendall County Zoning Board of Appeals Request: Text Amendment to Section 13.01.B.9 of the Kendall County Zoning Ordinance

newspaper 15-days in advance before the committee could meet. The PBZ committee voted 0-5 against the recommendation, but state statute requires the item to be voted on by the full County Board.

Petition 17-15-Kendall County Zoning Board of Appeals
Request: Text Amendment to Section 13.01.B.11 of the Kendall County Zoning Ordinance
Purpose: Amendment would Reduce the Number of Votes Required for the Zoning Board of Appeals to Reverse any Order, Requirements, Decision or Determination of the Zoning Administrator, or to Decide in Favor of the Applicant any Matter upon which It Is Authorized by the Ordinance to Render Decisions from Four to Three on Boards Consisting of Five Members and from Five to Four on Boards Consisting of Seven Members – Mr. Asselmeier stated that the Zoning Board of Appeals has seven members and under state law they are supposed to have four votes to take action on matters that come before them, but state law was changed a few years ago from five to four members. Mr. Asselmeier stated there were concerns about meeting requirements, the number needed for a quorum, the number needed for a vote to reverse any items, and compliance with state law. There was a 3-2 vote by the PBZ Committee.

The State’s Attorney’s Office will review the petition regarding the County’s ability to make the proposed changes and relay the information to the County Board prior to the next Board meeting.

Approval to Sign and Send Letter RE: Illinois Noxious Weed Law to Mayors and Township Supervisors – Matt Asselmeier explained the content of the letter, and the reasoning for sending it to the County Mayors and Township Supervisors.

Chief Mike Vessing, Oswego Fire Chief, provided insight on the struggles that his district faces when responding to calls for the campground, including: access bridges unable to withstand the weight of the fire trucks, and the need to bring in extra, lighter equipment to handle situations occurring onsite, ongoing concerns over potential for injury to fire personnel and campers, and inadequate signage that would direct fire personnel to the appropriate areas of the facility.

Mr. Tanner answered questions from the Board on events that occur at the facility, large capacity crowds for events held onsite, the maximum capacity of the facility, long-term residents on the property, inadequate signage, unregistered vehicles onsite, registered voters listing the campground as their permanent home address, criminal history of the campground, and the increased number of responses by the Kendall County Sheriff Deputies to the campground for called in complaints.
