Mr. Hoffman noted he would raise the issue with the applicant. Fran Klaas asked if the plan to submit for a two lot subdivision, and noted a potential issue with right-of-way dedication along Douglas Road with how it might impact the setback of the existing home. **PHYSICAL DATA**

**ENDANGERED SPECIES REPORT**
EcoCAT Report submitted and consultation was terminated.

**NATURAL RESOURCES INVENTORY**
Application submitted, but none received. Required prior to RPC.

**ACTION SUMMARY**

**KENDALL TOWNSHIP**
Petition information was sent to Kendall Township 2.23.17. No comments have been received from Kendall Township.

**UNITED CITY OF YORKVILLE**
Petition information was sent to the United City of Yorkville 2.22.17. This matter will be discussed on 3.8.17 at their PZC meeting.

**BUSINESS OPERATION**
DKR Group, Inc., operated by Kevin Manning, desires to operate K & D Enterprise Landscape Management, Inc. at the subject property. The business will employ a maximum of three (3) people onsite. The anticipated hours of operation shall be from 7:00 A.M. until 5:00 P.M., Monday-Friday, and no work will be conducted on the premises. Business related equipment includes trucks, trailers, and skid loaders. The property is intended to be used for seasonal storage of equipment; the petitioner intends to continue operating the main portion of his business in Joliet.

Mr. Manning possesses twenty-five (25) years of industry experience and has a degree in Horticulture from the University of Illinois. Mr. Manning also sits on the Illinois Landscape Contractors Association (ILCA) Board.

**BUILDING CODES**
Attachment 1-Zoning Plat showed an approximately 5,800 square foot building and an approximately 24,600 square foot house proposed for construction on the property. The building used for the business shall be an FBI pole building. The building will have two (2) bays. Electricity will be in the building and the petitioner desires to run plumbing to the building at some point in the future. Elevations of the building were included as Attachment 13. The petitioner hopes to start construction of the building in Fall 2017. The petitioner plans to live in the house and hopes to construct the house in the next five (5) years. The buildings will require building permits.

**ACCESS**
The property fronts Walker Road. The petitioner proposes installing an approximately 575 foot in length gravel driveway. The driveway would be six inches (6") of three inch (3") stone and six inches (6") of CA6, approximately twelve to fourteen feet (12’-14’) wide.

**TRAILS**
The United City of Yorkville’s Integrated Transportation Plan and Kendall County’s Multi-Use Trail Plan call for trails along Walker Road and along the Middle Aux Sable.

**PARKING**
The petitioners did not provide a specific parking plan. All equipment and vehicles are required to park indoors during non-business hours. According to the Attachment 1-Zoning Plat, a parking area could be located immediately south of the proposed FBI building.

**LIGHTING**
The petitioner said that he would install security lighting on the buildings.
SIGNAGE
The petitioner does not plan to install any business related signage on the property.

SCREENING
The Zoning Ordinance requires all vehicles, equipment and materials associated with a landscaping business shall be stored entirely within an enclosed structure, unless otherwise permitted under the terms of this Special Use Permit. The petitioner indicated all equipment will be stored within the proposed building satisfying this requirement.

STORMWATER
The northern portion of the property touches the Middle Aux Sable Creek (See Attachment 8). WBK Engineering reviewed this proposal and expressed suggestions for handling the area near the Middle Aux Sable Creek. WBK requested that the applicant depict the regulatory floodplain limits on their plans and should be restricted from any activity within the floodplain. They further recommended that any landscaping not extend into the floodplain without a permit from the County and that a fence be erected along the floodplain as a precaution against inadvertent encroachment. Their letter is included as Attachment 12. The petitioner requested that, in lieu of a fence, he place posts every fifty feet (50’) along the edge of the floodplain with signage indicating a floodplain is present.

CONCLUSION
The proposed use of the property for a landscaping operation is considered permitted as special use in the A-1 District with certain requirements.

RECOMMENDATION
If approved, staff recommends the following conditions be included in the approving special use ordinance:
1. The granting of this special use is only for a landscape operation.
2. No outside storage of vehicles, equipment, or materials is allowed. All vehicles and equipment associated with the business must be parked indoors during non-business hours.
3. Landscape plantings, permanent, and temporary structures shall not be installed in the floodplain without the issuance of a permit from the County. To assist with compliance with this restriction, the petitioners shall install posts every fifty feet (50’) along the floodplain with signage indicating that a floodplain exists at that location. The posts and signage shall be erected within thirty (30) days of the petitioner acquiring the property. Thereafter, the posts and signage shall remain on the property for the duration of the special use permit.
4. Except for the signage listed in restriction 3, no other commercial related signage shall be allowed on the property.
5. The maximum number of employees for the business allowed on the property at one time by this special use permit shall be three (3).
6. The hours of operation for the business allowed by this special use permit shall be restricted to Monday-Friday between the hours of 7:00 A.M. and 5:00 P.M. local time.
7. Trail ROW Dedication
8. Landscaping for Neighboring Structure
9. The owner of the business allowed by this special use permit shall follow all applicable Federal, State, and Local laws as they relate to this type of business.
10. Failure to follow the above restrictions could result in the revocation of the special use permit as allowed by the Zoning Ordinance of Kendall County.

The results of an NRI report must be submitted prior to the issuance of the special use permit.

Please fill out the following findings of fact to the best of your capabilities. §13.08.J of the Zoning Ordinance outlines findings that the Hearing Officer shall consider in rendering a decision, but is not required to make an affirmative finding on all items in order to grant a special use. They are as follows:

*That the establishment, maintenance, and operation of the special use will not be detrimental to, or endanger, the public health, safety, morals, comfort, or general welfare.*

The requested special use is consistent with the agricultural use presently permitted in the A-1 zoning classification and will not be detrimental to the rural area.

*That the special use will not be substantially injurious to the use and enjoyment of other properties in the immediate vicinity for the purposes already permitted, nor substantially diminish and impair property values within the neighborhood. The Zoning classification of property within the general area of the property in question shall be considered in determining consistency with this standard. The proposed use shall make adequate provisions for appropriate buffers, landscaping, fencing, lighting, building materials, open space and other improvements necessary to insure that the proposed use does not adversely impact adjacent uses and is compatible with the surrounding area and/or the County as a whole.*

The construction of a farm storage building and its use from time to time of the farm building for storage of landscape equipment will be consistent with the present uses in the area. No outdoor storage will be requested or utilized.

*That adequate utilities, access roads and points of ingress and egress, drainage, and/or other necessary facilities have been or are being provided.*

Access is from Walker Road and utilities are in the area.

*That the special use shall in all other respects conform to the applicable regulations of the district in which it is located, except as such regulations may in each instance be modified by the County Board pursuant to the recommendation of the Hearing Officer.*

The proposed use is consistent with construction and use of a farm building in the A-1 District.

*That the special use is consistent with the purpose and objectives of the Land Resource Management Plan and other adopted County or municipal plans and policies.*

The use is consistent and with the Plan and there is no difference between the Plan, the current use under A-1 and the use proposed by the Special Use application.

Subject: Walker Road – Warpinski Application Petition 17-05  
Kendall County (WBK Project No. 16-0100.J)

Dear Mr. Asselmeier:

WBK Engineering LLC has completed a review of the proposed project on the north side of Walker Road Approximately 0.31 miles east of Route 47, Kendall Township (PIN 05-21-400-011). The following material was provided to us for review:

- Project Application, Aerial Photo of property limits, EcoCat and Applicant’s Findings of Fact

In addition we evaluated the presence of floodplain as identified by the FEMA regulatory maps.

The disturbance as a result of the project application appears to be less than an acre including the long access drive from Walker Road. The proposed impervious area is also below the threshold which would require a County stormwater permit.

It is noted that floodplain is present on the parcel along the north property line. We recommend the applicant depict the regulatory floodplain limits on their plan and should be restricted from any activity within the floodplain. It is noted that trees are planted at the north end of the parcel. We recommend that landscape plantings do not extend into the floodplain without a permit from the County. If appropriate, the special use may want to include that condition. Furthermore, a fence along the floodplain should be considered as a precaution to minimize inadvertent encroachment into the floodplain.

If you have any questions or comments, please contact me at (630) 443-7755.

Sincerely,
