

### ***Prescription Drug Discount Program***

Americans are paying more for prescription drugs than ever before. But there are now a number of prescription drug assistance programs in place to help decrease the costs.

Kendall County is pleased to provide a beneficial program that offers discounts on prescription drugs to all county residents. Through our partnership with the National Association of Counties (NACo), we offer prescription drug discount cards for residents to use at participating pharmacies.

While this program is not insurance, it does offer significant savings to those who present the discount card at one of 57,000 participating retail pharmacies nationwide. Using the card is easy: simply present the card at the time of purchase to receive the lowest price. If the discount card price is lower than the retail price, you will be charged the discount card price.

#### **Free Enrollment for County Residents**

- Average savings of 20%
