

## KENDALL COUNTY TECHNOLOGY DIRECTOR JOB POSTING

Kendall County, IL (124,000) is a growing county on the far west of the Chicago Metro Area. The fastest growing county in the U.S. between 2000 - 2010, the County is still growing both residentially and commercially. The County has the highest median household income in Illinois as well as ranked second in Public Health.

After the previous Technology Director was promoted to the County Administrator, the County is seeking a collaborative, transparent, and energetic professional with excellent communication skills. Successful candidates will have a team-oriented management style; a vision for strategic growth; and a commitment to efficient and effective service delivery within a model workplace.

The position is primarily responsible for management of all matters pertaining to Technology Services and GIS including, but not limited to, staffing, system analysis, programming and developing enhancements based on the technology information needs of the County.

To be successful, the applicant should have knowledge of information technology computer systems and software and the ability to manage the entire spectrum of information technology operations, configuration of computer hardware, including but not limited to LAN and WAN capabilities; Knowledge of contracting, negotiating, and change management.

The Technology Director manages the Kendall County Technology Department. They supervise five (5) FTE and a FY18 budget of \$719,809. The goals of the Technology Department are:

Provide technology solutions and support for all County Offices with the goal to:

1. Maintain and improve the reliability of the Kendall County network procedures and technology.
2. Update County departments to current technologies and improved software solutions.
3. Enhance employee's effectiveness through training on new technology and software.
4. Implement projects that increase access to County services and information.
5. Design and implement new network structure for Technology data center.

The Technology Director also oversees the GIS division of Technology, with three (3) FTE and a FY18 budget of \$409,771.

### EDUCATION AND EXPERIENCE:

Required: Bachelor's degree in information technology or computer science or equivalent work experience; Four (4) or more years' experience as a manager or director of an information technology department; and prior experience in strategic planning, execution and implementation of information technology integration in a 50+-user environment

Preferred: Previous governmental experience in technology and information systems.

Salary range of \$88,000 – \$92,000 based upon experience and qualifications. Apply with cover letter, resume, five professional references, application, and salary history by February 21, 2018 to Andrez Beltran, Administrative Services Department, 111 West Fox Street, Yorkville, IL 60560, or email: [abeltran@co.kendall.il.us](mailto:abeltran@co.kendall.il.us) with TECHNOLOGY DIRECTOR APPLICATION in the subject.
