

The Kendall County Technology Services Department is seeking qualified applicants for the position of Computer Support Specialist.

The primary job responsibilities of the Computer Support Specialist are supporting and maintaining in-house computer systems. The systems include all software, workstations, laptops, some networking equipment, and peripherals on the network. The tasks include but are not limited to installing, diagnosing, repairing, maintaining and upgrading all hardware, software, and equipment while ensuring optimal workstation performance and end user support.

Combination of post high school education and technology experience equal to four years.

The position has a compensation range of \$19.50 to \$22.00 per hour (37.5-hour work week) depending on qualifications and experience, along with an extensive benefit package. *This is a FLSA non-exempt position.*

Questions and additional details concerning this job posting should be directed to Technology Services Director Mathew Kinsey- [mkinsey@co.kendall.il.us](mailto:mkinsey@co.kendall.il.us)
